### Bulgaria Yet Inactive.

Bucharest and Athens Show no Intention of Breaking With Triple Entente.

Oct. 11 -The battle is in full swing along the northern frontier of Serbia, where the Austro Germans are pounding at the Serlian positions in an endeavor to cut their way through the Kingdom to relieve their Turkish ally. Although the main Serbian forces are declared to be waiting farther south for the crucial tests, the Teutons are not gaining ground unopposed in the north. The war office at Nish says that the losses on both sides are enormous particularly in officers and that the Serbs are valiantly resisting the invaders and at numerous points have been victorious over them.

Coming to the aid of their compatriots are the Serb troops from Albania and seven divisions which have been on duty along the Bulgarian front, while unofficial advices say thousands of untrained men and many women are preparing to contest the Teutons' march across Serbia.

In addition to the capture of the old Capital of Belgrade, the heights of the south of the city have been taken, the German army has crossed the Danube and battles have developed to the west along the River Save. Berlin asserts that the Germans have captured thus far 14 officers and 1.-542 men and 17 guns. Near Obrenovats on the Save front, the Serbs say the Germans are using asphyxiating gas in abundance.

Further progress for the Allies forces egainst the Germans in the Artois and Champagne regions in claimed by Paris, but elsewhere along the line from Belgium to the Swiss frontier only artillery sugagements have been fought. Paris claims a gain in ground on the road between Souchez and Augree, the capture of a blockhouse in the Givenchy wood, in Artois, and the taking of a German fortified work near Tahure,

Ralligh, Oct 7 -There will be no rehearing by the tupreme Court in the woman solary test case of State vs Mrs. Nolan Knight from Asheville, involving the constitutionality of the legis lature act authorizing the governor to appoint women notaries public. The death blow for the agitation by sufferage advocates and others in support of the act came this afternoon when Associate Justice W. A. Hoke deliverad a brief, pointed statement denying the petition to rehear and Camels. Horses, Elephants Numerous In setting out the position of the najority of the court.

The act had had a stormy caree . It was killed one day in the legislature and then reconsidred and passed on a subsequent lay, after Governor Craig had been interviewed and agreed that shere should at first be only one uppointment as a woman notary nade, with a test case to framed on this appointment for the Supreme Court to pass on the constitutionality of the act. This was to satisfy a large contingent of the legislators who feared that .umbers of women might quickly secure appointments and flood their sections with notary certificates that would in the end prove to be invalid and entail much trouble and serious legal complications.
