87 SIMON SIMPLE AND THE PRETTY MAID

JAPAN AFTER FOOHOLD AT CANAL.

Secretary Lansing Orders Investigation of Reports of 60,000 Acre Land Concession.

Washington, Aug. 21.—Investigation of reports from Panama that a 60,000-acre land concession at the Atlantic end of the canal is being sought by a Spaniard named Fernandez, presumably for Japanese interests, was ordered today by Secretary Lansing. Mr. Lansing refused to discuss the report in detail but the action was considered significant.

Rumors of a similar nature have been common ever since the canal was well under way. Several months ago it was commonly believed in diplomatic circles that private Japanese shipping interests were seeking land through Spanish intermediaries to establish a base for storing coal at lower rates than could be had from the American Government monopoly base. So far as known nothing definite came of that plan.

The present reports are that Fernandez is seeking or has already secured a 60,000-acre land concession through the activity of Ramon Valez, whose recent election to the presidency of Panama may possibly be disputed by the United States because of alleged frauds and coercion. Admiral Concas of the Spanish Navy, selected by the Panama government as umpire to settle the dispute with the United States over the purchase price of canal property, is alleged to have given some very valuable information about the canal itself.
