ROCK HILL ROUTE NO. 2

Sep 13 1916
Mrs. Klutz will enter school at Mt. Pleasant again this year.

Les Ketner has returned from Chattanooga, Tenn.

W H Barnhardt returned a few days ago from Goldsboro where he went to attend the State meeting of the Junior Order.

Mrs. Daisy Brown of Washington, D.C. who spent several weeks in this vicinity visiting relatives and friends, returned home last week.

While cutting grass a few days ago Charlie Miller had the misfortune to have his two horses choke from eating grass that had the seed on. Dr. Ragland was called and soon after his arrival they were relieved.

J F Park moved the school house yard at the Park School house last week.

John Josey contemplates taking a trip to Raleigh in his automobile in the near future.

In the town of Blowing Rock at the home of Mrs. Jacob Klutz stands an apple tree that has somewhat of a history. The sprout was planted by the late John A. Boyden of Salisbury, 35 years ago. The tree measures eight feet three inches at the bottom and five feet from the bottom to the top. It is in circumference. Now Venus if you can't see his tree out your apple tree.

The cement watering trough placed at the junction of the Mt. Pleasant and Gold Hill public roads is a worthless piece of property as it is always dry and does not serve its purpose. If the trough was kept full of fresh water flowing into it as was the intention of the promoter, then it would be of some benefit, but as it is it is worthless.

Mrs. Mrs. Z A Klutz and son, Ora, and Mrs. Daisy Brown of Washington, D.C. spent part of the month of August 25th, in the Grandfather Mountains in the western part of the State. While there a cold wind blew, a cloud came over and a mist of rain and snow fell. Mrs. Brown had her kodak and made a number of pictures of the mountain scenery.

H B Shive and family and Callie Shive and wife visited Mr. and Mrs. Baxter McCombs of Kannapolis Sunday, Sept. 10th.

The meeting closed at Rock Grove M E Church Sunday night, September 3rd.

Kaede Castor moved to Kannapolis recently.

M S Trexler drenched clover in this community last week.

M A Holsinger, one of the large farmers of this vicinity, is using 15 tons of lime this year.

People are beginning to talk politics in this vicinity and we would, just for the benefit of the writer and many of the voters say, we would like if all candidates for office at the coming election would make statements before the people as to what they favor and what they propose doing if elected. We care but little about the past, but we must look to the future to get our rights and justice and if we pledge ourselves to the people to do things and do not make good then they should never be elected to an office again. But if they make no pledges and are elected they are at liberty to do as they please.

UNCLE BILL.

Iredell Court House Damaged \$400 By Fire.
Statesville, Sept. 18.—The town was excited tonight when Iredell's handsome court house was discovered to be on fire. The fire department promptly extinguished the blaze before serious damage was done. The fire caught about 8 o'clock in a small room off from the court room, used for storing rubbish. It is believed that matches were responsible for the blaze which destroyed the contents of the room. The damage to the building was estimated at about \$400. It is covered by insurance.

U. S. Expert Visit Salisbury Fair.

Senator Overman has received a letter from Secretary of Agriculture Houston advising him that Bradford Krapp, of the Farm Extension Work of the Agricultural Department, would be permitted to attend the People's Fair at Salisbury October 24 and make an address on the opening day of the Fair.

Clear bad Skin From Within.

Pimples, muddy complexions are due to impurities in the blood. Clear up the skin by taking Dr. King's New Life Pills. Their mild laxative qualities remove the poisons from the system and brighten the eye. A full, free, non-gripping bowel movement is the reward of a dose of Dr. King's New Life Pills the night before. At your Druggist, 25c.

Home-Made Soap.

Will you please give me a recipe for making soap hard like the soap we buy from the stores?

I have never seen any home-made soap that was as uniformly perfect as that made by experts in factories. However, the following recipe makes very good hard soap:

Dissolve a pound can of lye in three pints of cold water. Be careful, because as the water gets hot it is apt to spatter on the hands and burn them.

Have ready five pounds of fat that has been melted and strained through cheesecloth to remove any specks. As soon as the lye is cool pour it slowly on the grease, stirring with a stick, but stop stirring as soon as it gets about as thick as molasses.

An agate meat pan is a good thing to mold the soap in, but if wood is used line it with paper and put an oiled paper next the soap. If harder soap is desired a little salt is added.

If one desires to make one's own lye fill a barrel almost full with good wood ashes and set on a slightly inclined platform. Make a hole in a stave near the bottom; pour water slowly on the ashes and let the lye drip from the hole into a receptacle. This when mixed with clean fat makes good soft soap. It also may be hardened by the addition of salt.—The Progressive Farmer.

Constipation (The Father of Many Ills).

Of the numerous ills that affect humanity a large share start with constipation. Keep your bowels regular and they may be avoided. When a laxative is needed take Chamberlain's Tablets. They not only move the bowels but improve the appetite and strengthen the digestion. Obtainable everywhere.
