ROMAN GUILT AND HYPOCRISY ABOUT WAR

Bubbe Had Her Romish Rebellion when Britannia Was Thought to be Helpless.

By Gilbert O Nations in the Menace.

Roman Catholic press, priests and politicians are now busy protesting their loyalty to the government in the present international crisis. To paraphrase a famous remark, there seem good reasons to suspect that they protest too much. It would be very interesting if the public could know how many of those who have been arrested for complicity in the disastrous explosions in this country recently are Roman Catholics. Virtually all of those so arrested have foreign names, and the probabilities are that many of them are more loyal subjects of the pope than of the kaiser.

The papal gang in this country will use the present crisis to the utmost in their frantic efforts to hamper and destroy the present arousal of the people against their political intrigues. To this end, they will declare that labor and capital have for the time being buried the hatchet, that Republicans and Democrats have joined hands, that social distinctions have been obliterated, and that now the only discordant element among the American people is the element which has so vigorously opposed the pernicious aggressions of Rome in our public affairs. It is believed that very few patriots will be deceived by this characteristic Jesuitical hypocrisy.

The determination of the pope, the kaiser and the Austrian emperor to subjugate and Romanize the little and helpless Balkan States forced this monstrous war upon the human race. More than fifty per cent of the total population of the German powers and their allies are Roman Catholic, and a large part of the remainder are Mohammedans and infidels. When encouraging that aggregation to war against the Protestant nations of the world, the papacy underestimated the growing power of Democracies to defend Human Liberty.

Having embroiled the world in this awful cataclysm, the papal machine is actively charging Protestants with responsibility for the stupendous conflict. The Roman, Catholic Volks Zeitung of Berlin has recently declared that Freemasonry has brought on the war. In this connection the Berlin mouthpiece of the papacy alleges that President Wilson, Mr. Bryan and Colonel Roosevelt are Masons and primarily responsible for the war and particularly for American participation in it. The papal hierarchy in this country is now lying awake at night to devise plans whereby the knights of Columbus may obtain commissions and official power in the American army.

The daily press has mentioned inconspicuously of late that Cardinal Farley of New York city refused to sign the declaration of loyalty which is being circulated and presented in New York by the mayor's committee on national defense. The Rome-serving press makes the insincere excuse that the cardinal refused to sign the document for fear of inflaming the people and exciting the war spirit. But the true reason for his refusal to sign is that the

Church Council of Clermont in the year 1095, by direction of Pope Urban II enacted a law forbidding any ecclesiastic to take an oath of fealty to any lay sovereign or any civil government. Every cardinal, bishop and priest of Rome throughout the world is bound absolutely by that law.

Cardinal Farley's action and the palpable absurdity of the excuse advanced by the pro-papal press created a distinctly unfavorable impression in the public mind. So we find that on Saturday night, April 14th, the cardinal gave out a letter to be read at the mass on the following morning enjoining loyalty to the flag. In the meantime popular Roman Catholic journals, especially the Celtic Catholic papers, are faithfully reflecting the bitter sneer of the pope's own organ, the Osservatore Romano, which we published last week. Thus we find the well-known Roman Catholic paper, the Galic American, the journal of the Clan-na-Gael of New York saying editorially:

The war which the highly financed British propaganda has been fomenting for twenty years and for which it has worked over time since 1914, is at last upon us. It is the greatest victory that England has ever won and the most humiliating fact in American history. The American people do not want war, but congress has been browbeaten into submission by an autocratic president, backed by a press subsidized by a foreign government and controlled by the money power which is making enormous fortunes out of the human blood. The statements made in the corrupt press and repeated and reiterated every day that the American people favor war are lies made out of whole cloth. Every one who mixes among the people know that. The manifestations in favor of war have been organized and paid for by the money power and did not represent the people. The meetings in opposition to war were ten times more numerous and represented a majority of the American people. But President Wilson wanted war to save England and he has got it. It is Woodrow Wilson's war.

Roman cardinals and bishops are seeking to deceive the people by stating in their official newspapers that many Roman Catholics, including priests are now fighting on the battlefields and in the trenches of Protestant nations in Europe. Protestant nations are the only ones in which priests do serve in the army. The pope makes treaties with Roman Catholic nations expressly exempting the priests from military service; but the protestant nations are fighting for their existence and for humanity have conscripted all available men for service at the front. In this universal conscriptions, a few priests have probably been caught and forced into the trenches. Forced to choose between the trenches and a court martial for treason, the average priests would probably choose the trenches.

BROKEN DOWN IN HEALTH

Woman Tells How \$5 Worth of Pinkham's Compound Made Her Well.

Lima, Ohio. — "I was all broken down in health from a displacement. One of my lady friends came to see me and she advised me to commence taking Lydia E. Pinkham's Vegetable Compound and to use Lydia E. Pinkham's Sanative Wash. I began taking your remedies and took \$5.00 worth and in two months was a well woman after three doctors said I never would stand up straight again. I was a midwife for seven years and I recommended the Vegetable Compound to every woman to take before birth and afterwards, and they all got along so nicely that it surely is a godsend to suffering women. If women wish to write to me I will be delighted to answer them."

—Mrs. JENNIE MOYER, 342 E. North St., Lima, Ohio.

Women who suffer from displacements, weakness, irregularities, nervousness, backache, or bearing-down pains, need the tonic properties of the roots and herbs contained in Lydia E. Pinkham's Vegetable Compound.

AMERICA READY IN WAR FINANCE

Experience of Europe Aids the United States.

WARRING COUNTRIES SOUND

Credit of France and England, In Spite of Severe Strain, Is Still on Solid Basis.

The United States, through the experience of the warring European powers, has acquired a tremendous fund of preparatory information. Americans who have served with the European armies and navies have made available to us their valuable experience in the world war.

In the less spectacular, although hardly less important, phase of the struggle, war financing, this country has also had skilled observers. It has not been necessary for them to visit the scene of the struggle. In a way the scene of the struggle has come to them. Much of the planning of the financial side of the war has taken place within shadow of Trinity Church in lower Broadway, New York.

America World Financial Leader. By reason of America's newly acquired leadership in the world's finances, we know how Europe has financed herself to meet the strain of her tremendous struggle. Money is the

sinews of war. We know how Europe has kept her sinews pliant and efficient. America, therefore, is in a much better position than we were at the beginning of any of the five wars which brought us face to face with weighty economic, financial and social problems.

The banks and trust companies of this country, through which Europe has conducted much of her war financing, are at one with the nation's industries, in affording the government the resources with which to meet the eventualities of war. For example, the Guaranty Trust Company of New York has recently reduced to book form its fund of information on war financing. In a pamphlet entitled "War Loans and the United States," there is some rather striking information. The United States now holds approximately thirty per cent of the world's supply, it points out. This is an increase of thirty-six per cent over the amount held by this country in 1914, and upon us is thrown the obligation of employing it intelligently. We are discharging this obligation by using it as a basis for foreign loans and the extension of credit.

Warring Nations Financially Strong. Facing us, we do the possibility of floating in this country, not only European war loans, but also loans of our own. It is sufficient to realize that the financial strength of Great Britain and France has not been affected in the slightest degree by the tremendous

strain to which it has been subjected in the last two years and a half. The wealth and resources of both countries are so enormous that there is no probability of loss through loans to their governments. With all our tremendous resources and our present store of gold, we may look upon the possibility of a bond issue to meet the expenses of war with much optimism.

The Hon. Reginald McKenna, Chancellor of the British Exchequer, said recently that if the European war were to end on March 31, Great Britain, at her present rate of taxation, could redeem her whole national debt in less than forty years besides meeting all interest charges as they fall due.

SALISBURY Sell the Champion Cream Saver

THE NEW DE LAVAL

BUTTER made from De Laval-separated cream has won first prize at every convention of the National Creamery Buttermakers' Association for the last twenty-five years, as well as in every other important contest, and you must admit that this fact can mean but one thing—

The De Laval user gets not only more cream, but better cream

De Laval-separated cream is better simply because the construction of the De Laval bowl makes close skimming possible at a speed so low that the butter-fat globules are delivered from the cream spout unbroken.

If you make butter yourself, or if you ship to a creamery and want the highest rating for your cream, you cannot afford to use any separator but the De Laval.

Have you seen the NEW De Laval? The new self-centering bowl with its patented milk distributor is the greatest improvement that has been made in cream separator construction in the last thirty years and will like to have a chance to show you how it works. The NEW De Laval also contains many other important improvements that we know will interest you.

All Highest Prize Butter De Laval Made. THE most important butter scoring contests take place at the Annual Convention of the National Buttermakers' Association. The first prize winners at every convention of the Association since its organization in 1892 have been as follows—
