

FRECKLES

Now is the Time to Get Rid of These Ugly Spots.

There is no longer the slightest need of deterring you from the double strength prescription ointment—double strength—simply get an ounce of ointment—double strength—from your druggist, and apply a little of it at night and morning and you will see that even the worst freckles have begun to disappear, while the lighter ones have vanished entirely. It is seldom that more than one ounce is needed to completely clear the skin and gain a beautiful complexion.

Be sure to ask for the double strength ointment, as this is sold under guarantee of money back if it fails to remove freckles.—Adv.

The Profiteer.

Harold McCormick of Chicago, who has outfitted the whole Yarrowdale crew at his own expense, is a very rich man and a very generous man, but he does not like to be "done."

Mr. McCormick, on one of his visits to Florida, neglected to stipulate his hotel rate in advance. The hotel man took advantage of this oversight, and the bill he presented was exorbitant.

Mr. McCormick, however, paid without a murmur. Then he said, as he folded the receipt in his wallet:

"By the way, have you got any two-cent stamps?"

"Yes, sir," said the hotel man. "How many would you like to have?"

"Er—," said Mr. McCormick, mildly. "how much are they apiece?"

It Does.

"Three moves are as bad as a fire," "And one visit of the paperhangers beats a cyclone."

Sore Eyes, Blood-Shot Eyes, Watery Eyes, itchy Eyes, all healed promptly with night-applications of Roman Eye Balsam. Adv.

American incomes last year exceeded \$30,000,000,000.

FOUR WEEKS IN HOSPITAL

No Relief—Mrs. Brown Finally Cured by Lydia E. Pinkham's Vegetable Compound.

Cleveland, Ohio.—"For years I suffered so sometimes it seemed as though I could not stand any longer. It was all in my lower organs. At times I could hardly walk, for if I stepped on a little stone I would almost faint. One day I did faint and my husband was sent for and the doctor came. I was taken to the hospital and stayed four weeks but when I came home I would faint just the same and had the same pains."

A friend who is a nurse asked me to try Lydia E. Pinkham's Vegetable Compound. I began taking it that very day for I was suffering a great deal. It has already done me more good than the hospital. To anyone who is suffering as I was my advice is to stop in the first drug-store and get a bottle of Lydia E. Pinkham's Vegetable Compound before you go home."—Mrs. W. C. BROWN, 2844 W. 12th St., Cleveland, Ohio.

Dangers of Watered Coffee

Watered stock, watered milk, and watered coffee—the United States Government is carrying on a crusade to eliminate all three.

Everyone knows about watered stock. Everyone has seen "blue milk," the combined efforts of a cow and the old pump. But not everyone is on his guard against "watered coffee."

That the United States Government realizes the danger of watered coffee is shown by the specifications for the United States Army supplies. These specifications say plainly:

"Coffee: roasts must be 'dry' roasts, no water being permitted before, during or after the process of roasting."

Water in coffee is a piece of dishonesty practiced by unscrupulous coffee roasters. They turn the hose on the coffee while it is being roasted, so that it won't lose weight, as coffee will, when properly roasted. In roasting, coffee should lose about 16% of its weight. If it is watered it loses but 4%. The difference, of course, is water, for which you pay coffee value. This is adulteration and nothing more. The water-logged coffee is rank and unhealthy. Of course, it is not honest to charge for coffee, and sell coffee beans soaked in water.

A lot of watered coffee is being sold no doubt right in this town. It is more often met with in the lower priced grades of bulk coffee.

As coffee is such an important beverage, pure food authorities are advising housewives to use the greatest care in selecting their coffee. The pure food experts say that the best way to avoid watered coffee is to buy some reliable packaged brand, roasted by a reputable coffee roaster as Arbuckle Brothers of New York.—Adv.

His Threat.

A month or two after the war started a collier entered a large hotel on Tyneside and ordered refreshments, saying: "Big prices now; Aa might as weel be a big man."

On discovering that the waiter was a German, the irate pitman, choking with anger, leaped to his feet, ran the affrighted Teuton to the door, and assisted him into the roadway with his foot, and then, wheeling round upon the trembling, expostulating proprietor, he spluttered:

"Man, if ivvor ye dare to set a thunderin' Jarman to wait on me agen, Aa'll twist ye an' him round yer an necks, an' ram th' pair o' ye haafway doon yer aan throats untl' thar's nowt to be seen ov ye but th' ends ov yer dirty shirt-collars stickin' out ov yer bloomin' red eyes. Noo ye knaa whaat to expect if ye de!"—London Tit-Bits.

HEAL ITCHING SKINS

With Cuticura Soap and Ointment—They Heal When Others Fail.

Nothing better, quicker, safer, sweeter for skin troubles of young and old than itch, burn, crust, scale, torture or disfigure. Once used always used because these super-creamy emollients tend to prevent little skin troubles becoming serious, if used daily.

Free sample each by mail with Book. Address postcard, Cuticura, Dept. L, Boston. Sold everywhere.—Adv.

Tender.

"She's tenderhearted."

"So?"

"Yes. She says she couldn't think of planting potatoes if she has to cut out their eyes to do it."

Pa Knew.

"Pa, what is a silent partner?"

"Most any married man, son, when his wife's around," moaned pop.

Bolivia has \$9,691,197 in paper money in circulation.

DAIRY FACTS

CARING FOR CREAM ON FARM

Expert of University of Illinois Gives Ten Excellent Rules for Farmer to Follow.

(By H. A. RUEHE, Associate in Dairy Manufacturers, University of Illinois.)

1. Keep the cows clean.
2. Use covered milk pails.
3. Milk with dry hands.
4. Remove milk from the barn immediately and separate it at once.
5. Set the separator so that it will skim cream that will test from 85 to 40 per cent in the winter and from 40 to 45 per cent in the summer.
6. Wash, scald, and dry the separator and all utensils immediately after using. The separator bowl may be dried in a warm oven, though the oven should not be so warm that it will melt the tin on the bowl parts. Setting utensils in the sun is a good practice, as the sunshine acts as a germicide.
7. Keep all utensils and separator parts dry when not in use.
8. Cool the cream immediately after skimming by setting the can in cold running water. Construct a cooling tank so that the cream will be cooled with the water that is used to fill the stock tank.
9. Never mix warm cream with cold cream. Cool the cream before mixing it with previous skimmings.
10. Do not allow the cream to freeze in cold weather.
11. Stir the cream at least twice a day; this will keep it smooth and free from lumps. Do not use a wooden paddle for a stirrer, as it is unsanitary.
12. Deliver cream frequently, at least twice a week in winter and three times a week in warm weather.

Properly-Constructed Tank.

1. Inlet, usually 1 1/2-inch pipe.
2. Wooden trough, conducting water to within 3 inches of bottom.
3. Sticks, holding cans in place as shown by cut.
4. Shows position of half filled can; run stick through handle in cover to prevent it from sliding out from under the stick.
5. Shows position of can when filled.
6. Shows position of wire which prevents the cans from tipping.
7. Outlet, usually 2-inch threaded nipple.

Europe finds in the "movie" a bit of relief, of taxation from the long strain and horror of war. It wants American pictures but what an indictment of American morals is contained in the report of our vice consul, David C. Kerr, stationed at Birmingham, England, who notifies the secretary of commerce that "the only recommendation offered by renting agents as to any improvements desired in American films is a request for "less of the sexual problem!" We are so habituated to seeing indecent plays, suggestive "movies" and women in scant drapery that we have lost the proper sense of proportion morally. "Less of the sexual problem," says Europe. The message is a good one from a people who are being made better, cleaner, truer as they are tried in the fire of war.—Financial America.

PLANT ROUGHAGES FOR COWS

Every Farmer is Advised to Grow Abundance of Alfalfa or Clover—Concentrates High.

Grow an abundance of feed for the cow this season, advises A. S. Neale, specialist in dairy husbandry, division of extension, Kansas State Agricultural college.

"Already the price of concentrates is 'out of sight.' Prices will continue high unless these concentrates are replaced by the cheaper roughages," said Mr. Neale. "Every farmer should plan to grow plenty of alfalfa or clover, and silage. If alfalfa or clover cannot be grown in your section substitute another leguminous crop, such as cowpeas.

"During the next 12 months the production of dairy products will be due largely to the feeding of roughages instead of concentrates, as has formerly been the case.

"Dairy cows of quality receiving nothing but roughage can produce 200 to 250 pounds of butterfat annually, provided the roughage is fed in abundance and is composed of a combination of silage and a leguminous hay. Of course poor cows will not do so well on this ration."

ROUGHNESS FOR DAIRY COW

Animal is Not Content Unless Stomach is Full—Feed Grain According to Milk Yield.

Roughness is the first important consideration. A cow is not contented unless her stomach is full. She should always have all the roughage that she will clean up and then the amount of grain she receives should be regulated by the amount of milk produced.

A dry cow in good condition should be fed roughness only, and does not need any grain. In feeding grain to milk producing cows, the following rule may be used, and is found to work fairly well: Feed one pound of grain for each three pounds or pints of milk produced.

GIVE CALF GOOD ATTENTION

Pen Must Be Kept Clean—Use Plenty of Straw—Furnish Milk, Hay, Bran and Other Feeds.

The calf pen must be kept clean. Use lots of nice straw, not putting it upon a lot of fermented filth, but dig out all manure very frequently and add fresh straw almost daily. Calves are so frisky that they tramp the straw into the manure.

Separator milk, tender clover or alfalfa hay, bran, oilmeal, silage, corn, such feeds are the stuff good calves are made of.

DANGEROUS CALOMEL IS SELDOM SOLD NOW

Calomel Salivates! It Makes You Sick and You Lose a Day's Work—Dodson's Liver Tone Acts Better Than Calomel and Is Harmless for Men, Women, Children—Read Guarantee!

Every druggist here, yes! your druggist and everybody's druggist has noticed a great falling-off in the sale of calomel. They all give the same reason. Dodson's Liver Tone is taking its place.

"Calomel is dangerous and people know it while Dodson's Liver Tone is safe and gives better results," said a prominent local druggist. Dodson's Liver Tone is personally guaranteed by every druggist. A large family-sized bottle costs only 50 cents and if you find it doesn't take the place of dangerous, salivating calomel you have only to ask for your money back.

Dodson's Liver Tone is a pleasant-tasting, purely vegetable remedy, harmless to both children and adults. Take a spoonful at night and wake up feeling fine, no sick headache, biliousness, ague,

sour stomach or clogged bowels. Dodson's Liver Tone doesn't gripe or cause inconvenience all next day like calomel.

Take a dose of calomel tonight and tomorrow you will feel sick, weak and nauseated. Don't lose a day's work!

Dodson's Liver Tone is real liver medicine. You'll know it next morning because you will wake up with your head clear, your liver active, bowels clean, breath sweet and stomach regulated. You will feel cheerful and full of vigor and ready for a hard day's work.

You can eat anything afterwards without risk of salivating yourself or your children.

Get a bottle of Dodson's Liver Tone and try it on my guarantee. You'll never again put a dose of nasty, dangerous calomel into your stomach. Adv.

EUROPE FOR CLEAN MOVIES

Foreign Countries Are Buying Much Film From America, but Suggest Change in Its Character.

Europe is buying more motion picture film from America than ever before. This is an excellent branch of our export trade. It does not take much raw material. It gives employment to many grades of labor from the rough to the highest grade. It distributes money through all the stages of its progress from the crude product to the finished.

Europe finds in the "movie" a bit of relief, of taxation from the long strain and horror of war. It wants American pictures but what an indictment of American morals is contained in the report of our vice consul, David C. Kerr, stationed at Birmingham, England, who notifies the secretary of commerce that "the only recommendation offered by renting agents as to any improvements desired in American films is a request for "less of the sexual problem!" We are so habituated to seeing indecent plays, suggestive "movies" and women in scant drapery that we have lost the proper sense of proportion morally. "Less of the sexual problem," says Europe. The message is a good one from a people who are being made better, cleaner, truer as they are tried in the fire of war.—Financial America.

TAMMANY IS 128 YEARS OLD

Famous Political Organization of New York Was Founded by William Mooney, an Upholsterer.

Tammany is 128 years old. On May 12, 1789, William Mooney, an upholsterer, who previously had been active as one of the Sons of Liberty, founded in New York what was intended to be a patriotic and social organization, the secret society of St. Tammany, or Columbian order, which in 1805 was regularly incorporated as a fraternal aid society.

It was divided into 13 tribes, each of which had its separate titles. The officers became known as the grand sachem, the sachem, the sagamore, or master of ceremonies, and the wiskinski, or doorkeeper.

In 1811 the society built its first hall, and in 1837 moved to Tammany hall, in Fourteenth street, where it has been ever since. Early in its history Tammany began to take an active part in politics. Aaron Burr is supposed to have been its tutor in the ways of politics, and in 1800 the society took part in its first campaign, being instrumental in carrying New York for Thomas Jefferson.

The name Tammany is adapted from that of an Indian chief, Tamanend, of the Delaware tribe, who was famous for his virtue and wisdom. He died in 1740 and was buried in New Britain township, Bucks county, Pennsylvania. Tammany was one of the earliest social organizations in America. The members in the early days were accustomed to dress in Indian costume.

GIRLS! MAKE A BEAUTY LOTION WITH LEMONS

At the cost of a small jar of ordinary cold cream one can prepare a full quarter pint of the most wonderful lemon skin softener and complexion beautifier, by squeezing the juice of two fresh lemons into a bottle containing three ounces of orchard white. Care should be taken to strain the juice through a fine cloth so no lemon pulp gets in, then this lotion will keep fresh for months. Every woman knows that lemon juice is used to bleach and remove such blemishes as freckles, sallowness and tan and is the ideal skin softener, smoothener and beautifier.

Just try it! Get three ounces of orchard white at any pharmacy and make up a quarter pint of this sweetly fragrant lemon lotion and massage it daily into the face, neck, arms and hands. It should naturally help to whiten, soften, freshen and bring out the roses and beauty of any skin. It is truly marvelous to smoothen rough, red hands. Adv.

KIDNEY REMEDY HIGHLY RECOMMENDED

There is no medicine which we handle that gives such good results as your Swamp-Root. Many of our customers have informed us at different times that they have derived great benefit from its use.

There was one case in particular which attracted a great deal of attention in this neighborhood early last Spring, as the gentleman's life was despaired of and two doctors treating him for liver and kidney trouble were unable to give him any relief. Finally a specialist from St. Louis was called in but failed to do him any good. I at last induced him to try your Swamp-Root and after taking it for three months, he was attending to his business as usual and is now entirely well. This case has been the means of creating an increased demand for your Swamp-Root with us.

Very truly yours,
L. A. RICHARDSON, Druggist,
May 27, 1916.
Marine, Illinois.

Prove What Swamp-Root Will Do For You

Send ten cents to Dr. Kilmer & Co., Binghamton, N. Y., for a sample size bottle. It will convince anyone. You will also receive a booklet of valuable information, telling about the kidneys and bladder. When writing, be sure and mention this paper. Regular fifty-cent and one-dollar size bottles for sale at all drug stores.—Adv.

A New Measure for Distance.

Some mud-bespattered autoists were attempting to reach Nashville, Brown county. Even with chains on their wheels, they were wasting lots of gasoline in investigating a washout or a valley which they had left triumphant only a few minutes before.

Three times in three hours they had asked the distance and each time had received the same answer.

"'Bout three miles to Nashville."

It is true that in those three hours they had had one blowout and once they had to get a team of horses to pull them out of the mud. But even so, it seemed as if they could not be more than a half mile away. Finally they met a man on horseback.

"How far to Nashville? Three miles, I suppose!" But the fine sarcasm was not lost on him. He grinned and said in a soft voice:

"You're 'most there. It's jest two hoops and a hollar away."—Indianapolis News.

When you have decided that the Worms or Tapeworm which live in your system must be exterminated, get "Dead Shot"—Dr. Peery's Vermifuge, and you will find that one dose will expel them. Adv.

Protective Coloring.

"You better not wash your face too clean, Johnny; remember, you got a black eye.—Life.
