Entered as second-class matter January 19th, 1905, at the postoffice at Salisbury, N. C., under the act of Congress of March 3rd, 1879.

Salisbury, N. C., July 11, 1917

The American people have no reason for interfering in English affairs, the Irish cause in particular. Ireland is rightly a province of England and there is no reason why we should request our neighbor to give up Ireland any more so than to ask her to give up any other of her numerous provinces. Each American state and territory is held in the union by force and probably some against their will and it would be just as proper for England to ask the federal government to free some of our holdings. This Irish scheme is nothing but a Roman Catholic proceeding for the purpose of forcing the Protestants of Ulster to bend the knee to Rome. This being the case it is really better that England take a strangle hold on Ireland, especially so since the Irish recently attempted a rebellion when every true son of the old sod should have been on the firing line in France. Freedom is not for traitors and Americans cannot afford to take sides with such a bunch.

Alcox Child is Reported as Likely to Recover.

Albemarle, July 7.—The physician in attendance upon the little child of Mrs H A Alcox of Badin has pronounced the baby beyond danger and says that it will without doubt recover. It will be recalled that about 10 days ago Mrs. Alcox, the mother of the baby, administered bichloride with intention, according to her own statement, of killing the child, stating at the time that she was doing this because of the wishes of her husband, who was not the child's father. Mrs. Alcox was immediately arrested and brought to Albemarle jail and a day or two thereafter Mr. Alcox was arrested and also brought to jail. After the physician in charge pronounced the child out of danger Mrs Alcox was tried and convicted before R L Brown, judge of the county court, but no sentence as yet has been pronounced on her. There being no material evidence against Mr Alcox a nol pros was taken and he was released. Mrs Alcox appeared to be suffering more or less from mental depression and does not appear to be hardly responsible for her conduct.

Sweet Potatoes.

"I wish to grow a crop of sweet potatoes for market. What kind of manure and how much an acre must I use? Do you think it wise to mix a little acid phosphate in manure in bedding it to rot by next spring to use in drill for tobacco?" For sweet potatoes use 500 pounds an acre in the furrow under the bed made of one-third cottonseed meal and two-thirds acid phosphate. Mixing acid phosphate with manure will very greatly increase the efficiency of the manure. But instead of piling it to rot, I would get the manure out on the tobacco land and spread it broadcast as fast as made during the winter, and then use some fertilizer in the hills.—The Progressive Farmer.

Kodol Dyspepsia Cure Digests what you eat.

FAITH. July 9.—Mrs Wm Smith, and family have returned from her father's near Rockwell, where they went to help celebrate her father's seventy-second birthday, July 5th. His other daughter, Mrs T C Eller and family and his son, B H Miller and family of Union church, were also present, there being no one invited except the children. They prepared for him a nice dinner and it was enjoyed by all present.

Mr and Mrs John A Peeler and son Lewis, and grandson Lawson McCombs, and John Waller with Lewis at the wheel went up in their automobile to visit Rev and Mrs H A Fesperman.

Rev W C Lyerly has taken his vacation up North to visit his old school chums and other friends at Dayton and Tiffin, Ohio, and other cities and will be gone a month.

Luther Holshouser the barber has just had his residence painted and it is one of the prettiest of the kind in town.

Venus took dinner at John Arey's Sunday and got a fine dinner. Everything was his own raising except the sugar, salt and pepper. His little four months old baby weighs 22 1/2 lbs. Who ever can beat that for so young a baby trot it out.

John Arey has the finest water melon patch we have seen. He has water melons and cantaloupes as large as pint cups. Who can beat that?

One of our neighbors has just made an old time wooden still to run some cedar oil for some people who are suffering with rheumatism, aches and pains. It is said to be one of the best things ever as a liniment for pains.

One time a man by the name of Adam Lentz had the rheumatism very bad and he bought a pint of cedar oil from a neighbor and it cured him good and sound.

R D Peeler who has been working in the First National Bank at Spencer, visited at home Sunday.

Mr and Mrs J W Linker and daughter and little grandson of Rockwell, and Mr and Mrs G A Lyerly of Crescent, visited at Geo. H Peeler's Sunday, July 8th.

Venus got his first mess of ripe home grown tomatoes this year at Chas. Peeler's residence where a young couple lives, on June 30th.

The threshers were here threshing wheat at Milas Stewart's big livery stable. We got a snap shot of the outfit.

Get a Wheel Hoe.

A friend told me recently that by using a wheel hoe or push plow in cultivating his garden he is able to do the work in one hour, whereas in the past when he used a hand hoe, it took him at least a day. He also stated that after finishing work he felt like a "gentleman," whereas with the old practice of using a hand hoe he was worn out and his hands were blistered. Is this not good evidence in favor of getting a push plow for use in your garden this year? I will, however, add an extra quotation from another friend as follows: "Give me a wheel hoe and you can burn up all your hand hoes so far as I am concerned."—F J Crider, in The Progressive Farmer.

Hetty Green's Son Marries.

Chicago, July 10.—Edwin R Green, of New York and Terrel Texas, son of the late Mrs Hettie Green, and Miss Mabelle Harlow, of Highland Park, a suburb, were married today. Miss Harlow is said to be wealthy in her own right and has devoted much time to charity in New York and Chicago.

Money Makes Money. Interest on investment is the source of surest income. Money works 24 hours a day and seven days a week. More people are made independent by saving than by slaving. England has invested to wonderful advantage. Every year statistics show that England buys more from other countries than she sells to them. But interest on investments does not show in the statistical tables. That is why England is rich. Money placed in a savings bank is an investment safe and sure. Make yourself independent.
