FAITH.

July 28.—Venus was in Salisbury Friday and saw the young soldier boys. Saw them march from their hall to the dining room for their dinner. Venus was invited to and took dinner with them. This is our first army dinner since the civil war, a mighty long time between meals. The table we ate at was sixty feet long and there were two more shorter tables. We got some snap shots of the boys on the street and at the dining table. We visited their halls and met Capt D E Murph, 1st Lient J H McKenzie Jr., 2nd Lt R L Van Poole, and others of our old friends.

Rev A C Thompson of Tamaqua, Pa., and J D Andrews of Catawba College, Newton, N C., gave a fine illustrated lecture here this week to a large crowd.

At Shiloh church at Granite Quarry when we got off the train we saw a big crowd of the members of the church at work building a concrete walk in front of the church and putting a lot of rock dust over the church yard. A Series of meetings will soon commence there.

A big crowd of preachers, ladies and visitors came to see Venus' collection Thursday when the Sunday School convention was here.

You Can Afford Good Light

You up-to-date farmers who own your property—take pride in your home and love your good wife and children—you should have good light.

The day has passed when good light in the farm home could be considered a novelty or expensive luxury. Nor is it a matter of big investment. Today good light is an inexpensive necessity.

Pilot-Carbide-Outdoor Lighting and Cooking Plants

have totally changed the old fashioned methods of house and barn lighting and cooking in the country home.

Hundreds of thousands of progressive farmers in all parts of the country have selected the PILOT because they were quick to recognize the value of good light—its safety and the convenience it brings them and their families. These country home owners—men like yourself—found they could easily afford the moderate investment for their PILOTS.

So can you afford it.
You can afford that new mowing machine, seed drill, and sulky plow. You can afford all the improvements that make your place a model farm, because they save you time and work.

Think of your good wife. She is your business partner. Her duty has been to make your home. She has done it well. She has contributed as much to your success as you have yourself.

The PILOT is going to save her a lot of hard work—dirty work—filling, cleaning and carrying lamps about the house—the meanest work a woman has to do. Think, too, what a gas cook stove will mean to her on hot days and when quick meals are wanted in a hurry.

If you can afford improvements for your farm, surely you can afford this one great improvement for your home—your wife—and your children. It is the one thing that you and your whole family will enjoy every night—365 times—every year.

Consider the PILOT from every standpoint—safety, comfort, convenience and better living. Your decision will be what 300,000 other country home owners have decided—you can't afford to be without it.

Write for illustrated catalogs and descriptive booklets giving all the facts. Find out, today, about the PILOT.

THE SOUTHERN RAILWAY COMPANY

An Ambition and a Record

THE needs of the South are identical with the needs of the Southern Railway: the growth and success of one means the upbuilding of the other.

The Southern Railway asks no favors—no special privilege not accorded to others.

The ambition of the Southern Railway Company is to see that every interest that is born of co-operation between the public and the railroads; to see perfected that fair and frank policy in the management of railroads which invites the confidence of governmental agencies; to realize that liberality of treatment which will enable it to obtain the additional capital needed for the acquisition of better and enlarged facilities incident to the demand for increased and better service; and, finally—

To take its niche in the body politic of the South alongside of other great industries, with no more, but with equal liberties, equal rights and equal opportunities.

YOU CAN SEE THIS COUNTY WITHOUT LEAVING HOME.

Gentlemen: I had the very best success in all my deliveries at all points. The people were so pleased that I did not have a single objection. You know that this is remarkable, no fault to find in near 100 deliveries. The trees were all in nice condition.
