THE LIBERTY LOAN.

Why the Government Needs Your Money and why we are at War.

For the purpose of equipping with arms, clothing and food our gallant soldiers who have been called to the field;

maintaining our Navy and our valiant tars upon the high seas;

Providing the necessary means to pay the wages of our soldiers and sailors and, if the bill now pending in the Congress passes, the monthly allowances for the support of their dependent families and to supply them with life insurance;

constructing a great fleet of merchant vessels to maintain the line of communication with our brave troops in France, and to keep our commerce afloat upon the high seas in defiance of the German Kaiser and his submarines;

creating a great fleet of aeroplanes which will give complete supremacy in the air to the United States and the brave nations fighting with us against the German military menace; and for other necessary war purposes.

The Congress of the United States has authorized the Secretary of the Treasury to sell the American people bonds of the United States bearing four per cent interest, with valuable tax exemptions, and convertible under certain conditions into other issues of United States bonds that may be authorized by the Congress. The official circular of the Treasury Department gives full details.

There is now offered to the American people a new issue of \$3,000,000,000 of bonds to be known as the Second Liberty Loan. They will be issued in such denominations and upon such terms that every patriotic citizen will have an opportunity to assist the Government by lending his money upon the security of a United States Government bond.

It is essential to the success of the war and to the support of our gallant troops that these loans shall not only be subscribed, but oversubscribed. No one is asked to give or donate his money to the Government; but every one is to lend his money to the Government. The loans will be repaid in full with interest at the rate of four per cent per annum. A Government bond is the safest investment in the world; it is as good as currency and yet better, because the investment compares with it for safety, ready convertibility into any bank in the United States.

People by thousands ask the treasury constantly how they can help the Government in this war. Through the purchase of Liberty Bonds every one can help. No more patriotic duty can be performed by those who cannot actually fight upon the field of battle than to furnish the Government with the necessary money to enable it to give our brave soldiers and sailors all that they require to make them strong for the fight and capable of winning a swift victory over our enemy.

We fight first, of all, for America's vital rights' the right to the unmolested and unobstructed use of the high seas so that the surplus products of our farms,

Practical Courses in Agriculture For Farmers.

Dean C. B. Williams says that active arrangements are being made to put in final shape the short courses in agriculture for farmers that are to start on October 30 at the State College, Raleigh, and continue for sixteen weeks. These courses have been especially designed to give those who come to the College for this short practical instruction, information along different lines of farming practiced in the State that may be put into use on the home farm by those who come.

The early farming in North Carolina under pioneer conditions of society was a comparatively simple operation, but in this day and time as farming has become more complex and commercial enterprise and when crops are raised on a large scale for competition in world markets, the well informed and alert farmer, other things being equal, is the one who is going to make the most out of his farming operations. The courses, as arranged will no doubt greatly aid those taking them to become more modern and business like in their farming operations than they could otherwise possibly have been.

our mines and our factories may be carried into the harbors of every friendly nation in the world. Our welfare and prosperity as a people depend upon our right of peaceful intercourse with all nations of the earth. To abandon these rights by withdrawing our ships and commerce from the seas upon the order of a military despot in Europe would destroy prosperity and bring disaster and humiliation upon the American people.

We fight to protect our citizens against assassination and murder upon the high seas while in the peaceful exercise of those rights demanded by international law and every instinct and dictate of humanity.

We fight to preserve our democratic institutions and our sovereignty as a nation against the menace of a powerful and ruthless military autocracy headed by the German Kaiser, whose ambition is to dominate the world.

We fight also for the noble ideal of universal democracy and liberty, the right of the smallest and weakest nations equally with the most powerful to live and govern themselves according to the will of their own people.

We fight for peace, for that lasting peace which agonized and tortured humanity craves and which not the sword nor the bayonet of a military despot but the supremacy of vindicated right alone can restore to a distracted world.

To secure these ends I appeal to every man and woman who resides upon the soil of free America and enjoys the blessings of her priceless institutions to join the League of Patriots by purchasing a Liberty Bond.

Sour Stomach.

Eat slowly, mast eat your food thoroughly abstain from meat for a few days and in most cases the sour stomach will disappear. If it does not, take one of Chamberlain's Tablets immediately after supper. Red meats are most likely to cause sour stomach and you may find it best to cut them out.

Gov. Whitman Pays Stirring Tribute to President Wilson.

New York, Oct. 14.—Governor Whitman Republican, paid a stirring tribute to President Wilson in a patriotic address to the congregation of St Paul's Methodist Episcopal Church.

"As we contemplate the solitary figure who is ruling over the destinies of our hundred million people," the governor said, "and consider the tremendous task he has before him, we are no longer democrats, or republicans, or progressives, but Americans all."

What certain persons termed "apathy" in the attitude of the American people toward the war, he asserted in reality was "our national poise."

"Today the United States leads the whole world in mustering materials and in the sweep of the human mind," he added. "The European nations had the false impression that America is the land of the dollar and thought the Yankees wouldn't fight. All history gives the lie to these slanders. Our dollars have carried food to the hungry, help to the wounded and health to the sick. Peace is our devotion, but not our obsession."

Chamberlain's Cough Remedy the Most Reliable.

After many years' experience in the use of it and other cough medicines, there are many who prefer Chamberlain's to any other. Mrs. A. C. Kirstein, Greenville, Ills., writes "Chamberlain's Cough Remedy has been used in my mother's home and mine for years, and we always found it a quick cure for colds and bronchial troubles. We find it to be the most reliable cough medicine we have used."

Germany's Military Strength on Wane.

Washington, Oct. 14.—Governor Germany's military strength now shows a clear decrease for the first time since the war began, according to a review based upon data of the French general staff made public here tonight by the French high commission.

"As we contemplate the solitary figure who is ruling over the destinies of our hundred million people," the governor said, "and consider the tremendous task he has before him, we are no longer democrats, or republicans, or progressives, but Americans all."
