

SOUTHERN WHITE MAN IS NEGRO'S BEST FRIEND

Leading Educator And Bishop of Negro Race Issues Statement On Relation of Races.

Raleigh, Aug. 12.—The South is the natural home of the negro race, says Bishop E. B. Mitchell of the Church of Christ Episcopal, and the Southern white man is the negro's best friend.

This is the guiding principle of Bishop Mitchell's church, and he is here to establish a local branch of the Modern Educational and Religious bureau, a negro organization dedicated to improving relations between the white and negro races. In the near future Joseph J. Higgs, archbishop of the church and head of the bureau, will visit Raleigh and give a series of lectures on his work.

Bishop Higgs is a native of Raleigh and founder of the organization, which is national in scope. He started his work 20 years ago.

Bishop Mitchell is state director of the bureau. He reports that the organization is being supported through voluntary contributions from those who are interested in racial co-operation.

The principles of the organization which have been preached for twenty years include the following:

1. The South is the natural home of the negro race.
2. The Southern white man is the negro's best friend.
3. We need to know this and to think this, to feel it and to act it. Men and women who teach otherwise are our greatest enemies—morally, physically, mentally, politically, agriculturally and religiously.
4. There is no greater proof of friendship than understanding; the white man understands the negro—he taught us what we know—and when we argue that we cannot understand the white man and must leave for some other section, we argue nonsense—300 years have made the South our natural home.
5. The negro should remember it took the white man 5,000 years to arrive at his present standing in the world.

Salisbury Business College Closes Its Summer Session

Salisbury Business College will hold the closing exercises of the summer session at the school on Friday morning at eleven o'clock. An interesting program has been arranged, to which the public is invited. The term just closed is in many respects outstanding. The student body has been made up of a group of enthusiastic, wide-awake young men and women, and a high type of work has been done.

For a number of years Mrs. Samuel T. Carter conducted a private business school for young women, and since 1927 has owned and operated Salisbury Business College. Many of the graduates of this institution are now holding responsible positions in Salisbury and surrounding territory.

The two teachers, Miss Virginia Jenkins and Mrs. Carter, received their training at N. C. C. W. and Columbia University. They have not only had many years successful teaching experience but have also done actual routine office and secretarial work.

The fall term will begin Tuesday, September 8, 1931.

Good Little Men Have Edge On Good Big Ones

Washington, Aug. 12.—The old idea that a good big man can always beat a good little one apparently is partly wrong.

Extensive tests by the Public Health Service point in that direction, anyway. Nearly 500 men, between 20 and 34 years old were the subjects.

Tentatively, the ideal weight for strength and endurance was found to be between 160 and 170 pounds.

Below 170, an increase in push, pull, lifting strength, grip and lung force was recorded for each 10-pound advance.

Over 170, the tests showed erratic results, with increases in one phase offset by losses in others.

As an example, pulling strength in the 160 to 170 pounders averaged 96.9 pounds, but dropped to 91 in the 180-189 group, while lifting capacity rose between 180 and 190.

The greatest strength in all capacities was found in men between 67 and 68 inches tall.

Strength was shown to increase up to 30 years of age, remain fairly constant until 50, then a decline began.

6. The white man brought us from a heathen state just 300 years ago, and as a result of our stay with him and under his direction of affairs, we are the most advanced of any dark race on earth—because of our stay with the white man. Thank God, we have fought by him and under his direction in every way that spelt American liberty.

7. Let us not deceive ourselves, but be patient and not hasty. Let us stop grumbling and go to work. Let us lay down undue suspicions and be self-controlled. Respect everybody and practice to the greatest degree politeness and gratefulness to every man, and God and nature will bless us.

Our idea of an optimist is the lad who thinks he can go out and find a soft job in hard times.

STRICTLY CASH TOWN TURNS TO CREDIT AMID ADVERSITY

Bloomfield, Neb., Aug. 12.—For three and a half years everybody in this village of 1,431 residents paid cash for everything they bought, from crackers to coal.

But that day is past, temporarily at least, because of the drought, the grasshoppers and a bank failure. Now the merchants, except the garages and chain stores, have restored the credit system.

Bloomfield was going along at a prosperous clip under the strictly cash plan, Dr. P. B. Lonergan, its sponsor, said today, until the Nebraska State Bank closed and tied up more than \$400,000 in deposits. He said he believed the future would have continued bright, despite the grasshoppers and the lack of rain, if the bank had not closed.

While Bloomfield has largely returned to its once shunned "book" business, Dr. Lonergan says its merchants have not given up the system. When normalcy is restored cash in hand or in thirty days will be required, he says.

There has not been enough rain to aid the crops and the grasshoppers are getting fat.

UNGRATEFUL BRUIN BITES FEEDING HAND

Pocatello, Idaho, Aug. 12.—Mrs. M. F. Williams, 30, labored under the illusion that when a bear enters Yellowstone National Park he becomes, by some mysterious process, as meek and safe as a lamb.

Her ideas on this subject were changed suddenly. She confidently fed a cantankerous bruin by hand the other day. Suddenly the beast grew angry and with one swipe of its paw raked the woman's right forearm to the bone.

Mrs. Williams was taken to Pocatello General Hospital for treatment.
