8:00 p. m., evening worship.
Wednesday 8:00 p. m., hour of prayer and fellowship.

SPENCER
Sunday school, 9:45 a. m., J. S. Upton, superintendent.
Morning worship, 11:00 a. m.
Prayer meeting, Wednesday evening at 7:30.

REFORMED
FIRST
Corner of Church and Horah Streets
Rev. Banks J. Peeler, pastor.
Sunday school, 9:45 a. m.
Morning worship, 11:00 a. m.
Evening service, 8:00 p. m.

UNITED CHURCH
East Liberty and North Main
Rev. William T. Scott, minister.
Sunday school, 10:00 a. m., Dr. Frank W. Kirk, superintendent.
Morning worship, 11:00 a. m.

CHRISTIAN SCIENCE
126 East Innes Street
Sunday service at 11:00 a. m.
Sunday school at 9:45 a. m.
Testimonial meeting every Wednesday evening at 7:30.
(All churches in Salisbury and Rowan county not listed in this directory are requested to furnish the editor of The Carolina Watchman with copy and these notices will be gladly inserted in the next issue).

WAGE REDUCTIONS ARE DENOUNCED BY PRESIDENT GREEN
President William A. Green, of the American Federation of Labor has denounced in no uncertain terms the wage slashes recently inaugurated by the United States Steel corporation and associated companies.
President Hoover was also severely criticised for failure to endeavor to prevent the reductions.
The statement by William Green, president of the American Federation of Labor, on wage cuts follows in part:
"The reduction in wages imposed and literally forced upon the employees of the United States Steel corporation and by other steel corporations, is morally wrong and economically unsound. No greater blow than this has yet been struck against the forces which have been and now are serving to bring about a return of prosperity.
"The United States Steel corporation violated a solemn promise which it made to the people of the nation when it assured the President of the United States along with a number of other large employing interests that during this distressing period of unemployment wages would be maintained. This great corporation has now broken its promise."
"It is stated that this 10 per cent reuction forced upon the employes of the United States Steel corporation will mean a saving to this great financial concern of \$25,000,000. That means that the employes of the United States Steel corporation will have \$25,000,000 dollars less to spend."
Can reasonable-minded people believe that a return to prosperity will be accelerated through a reduction of the buying power of one section of the masses of the people amounting to \$25,000,000?
"While reading the announcement of the United States Steel corporation that it proposed to force a reduction in wages of 10 per cent beginning Oc-

tober 1, one is reminded of the fact that in June, 1927, not so very long ago, this corporation declared a 40 per cent stock dividend.
"It also paid cash dividends amounting to 160 1-4 per cent between April 1, 1901, and December 31, 1930.
"While paying these stock dividends and these huge cash dividends it created a huge reserve fund out of which dividends have been paid thus far during the continued period of unemployment which now exists.
"It seems to be the policy of this great corporation, as it is of many others, to distribute earnings most generously among its stockholders and its high paid chief executives during periods of prosperity, and reduce the wages of its employes during the periods of adversity."
"These steel corporations which are arbitrarily reducing the wages of their employes are the beneficiaries of a very high protective tariff. They are protected against competition from abroad.
"The American market for the sale of their products is their own. They are the beneficiaries of these special privileges granted by the government upon the pretense that it must be given them as a protection to wages and wage earners."
Double Feed Money By Selling To Cows
Fourteen dollars worth of farm-grown feed fed to good average cows will produce \$28 worth of butterfat at present prices and will leave \$5.60 worth of skim milk on the farm to say nothing of the manure.
"At the present prices for butterfat, the man who has produced a surplus of forage and other dairy feed can sell this feed through cows for a fairly good return for his labor," says A. C. Kimrey, dairy extension specialist at State College. "The relation between the farm price of dairy feeds and butterfat is favorable now and bids fair to remain so through the coming winter. Records kept on present market conditions show that if \$14 worth of feed is fed to good average cows, it will produce 100 pounds of butterfat. When sold for butter-making purposes, this fat is worth \$28. In addition there will be left on the farm about 1,600 pounds of skim-milk worth 35 cents a hundred pounds. This is excellent for feeding to poultry, or hogs and when so fed has a value of \$5.60."
In addition to these values, 75 per cent of the plant food in the feed-stuffs will go back to the farm in the form of manure and thus cut down the fertilizer bill, says Mr. Kimrey.

Can More Tomatoes Before Season Closes
If every member of the family does not have a minimum of nine quarts of canned tomatoes for food this winter, more should be canned before the season closes.
"Ripe tomatoes contain valuable food elements that are necessary to good nutrition and when grown and canned at home provide an inexpensive food," says Miss Mary Thomas, extension specialist in nutrition at State College. "Tomatoes are valuable in the diet whether raw, cooked or canned. They may be substituted for oranges and they rank with these as one of the richest sources of vitamin C. They are superior to oranges as sources of vitamins A, B, and G. This means that the tomatoes contain those food elements which promote growth and help to keep the tissues of the eye, ear, nose and throat resistant to infection. They stimulate the appetite, aid in the digestive processes and prevent pellagra. Tomatoes should be eaten at least three times a week throughout the year."
Plant Bulbs In Fall For Best Spring Flowers
Flowering bulbs which make the garden beautiful in spring do best when planted in October in North Carolina and must have a fertile, loamy soil filled with plant food.
"There is nothing difficult in growing the common hardy bulbs which make the garden a pleasing display early next spring," says Glenn O. Randall, floriculturist at the North Carolina State College. "The first thing to do is to have a good garden soil. Most folks know what this means. The soil should be worked into good physical condition so that it is soft and loamy and not hard and cloddy or too sandy. Then a plentiful supply of well-rotted manure is needed. Manure should never be used until it is thoroughly decayed. Then bone meal is a splendid commercial fertilizer to use. Tankage might be added in the spring before growth starts."
PROTECT BEACHES FROM SHARKS
Havana.—Cuban bathing beaches are being protected by wire netting following three fatal attacks upon bathers by sharks.

New Cash Crop In Lespedeza Seed
Growers of certified lespedeza seed in piedmont North Carolina will make money this season and will find the crop more profitable than cotton.
"Last week, I visited the farms of a number of lespedeza growers in piedmont Carolina who will pay old debts, cancel mortgages and build new buildings from the sale of lespedeza seed, part of which they have already contracted for at good prices," said W. H. Darst, director of the seed improvement work at State College, who has been out with four men for the past several weeks inspecting lespedeza for seed certification.
Mr. Darst says some 4,500 acres of lespedeza will be inspected for certification in that section of the State this year. This acreage will produce about a million and a quarter pounds of seed and though all of this will not pass the certification tests, much of it will.
Mr. Darst reports on one grower who is building a new dairy barn and concrete silo that he will pay for with his seed money this year. His seed has a value of \$10,000 now. Another man said he would pay an old note for \$6,000 because he had contracted to sell his seed for \$8,000. Another said he will buy an additional farm this year and many others told of their plans to clear up indebtedness of long standing.
North Carolina is taking the lead in growing lespedeza seed under the certification guarantee and the market for the seed bids fair to hold good for some years. Even were there not a good market for the seed, the crop plowed under will double the yield of corn; will prevent soil erosion; will make good permanent pastures, and will greatly increase the general fertility of any farm on which it is grown, said Mr. Darst.

TYPEWRITER RIBBONS—Special for a limited time only—we will install a new ribbon, oil your typewriter, clean your type, all for \$1.00. Phone 532.

CONSTITUTION
"If I got constipated, I would get dizzy and have swimming in my head. I would have very severe headache."
"For a while I thought I wouldn't take anything—maybe I could wear out the headaches; but I found they were wearing me out."
"I found Black-Draught would relieve this, so when I have the very first symptoms, I take Black-Draught and now I don't have the headache."
"I am a firm believer in Black-Draught, and after using it 20 or more years, I am satisfied to continue its use."
—F. E. McKinney, Orange Park, Fla. 5-111

THE FORD'S Black-Draught
WOMEN who are run-down, or suffer every month, should take Cardul. Used for over 50 years.

NEW POTATOES SAVE MILLIONS
Washington.—A missionary in Kansu Province, China, reports that a handful of potatoes sent from America 25 years ago, intensively propagated along the Tibetan border, saved the lives of more than a million Chinese from famine following the drought.

Twins Keep Together
Abilene, Kan.—Wayne and Dwight Zook, 14, are "twins in everything," at least they have advanced through scouting together. Recently they became Eagle Scouts—the highest honor that can be bestowed by the Boy Scouts of America.
