

State Exports Totaled 81 Million Dollars In 1930

CAROLINA MADE PRODUCTS SOLD ALL OVER WORLD

State Ranks High In Value Of Direct Shipments; Manufacture Large Quantity Merchandise.

During the calendar year 1930 exports from North Carolina totaled \$81,356,142 according to figures compiled by the department of commerce based upon "states of original shipment" given by shippers in export declarations. Only 11 states in the union showed greater dollar value of exports. Two of these were southern states, Louisiana and Texas.

Leaf tobacco ranks first in value among the state's exports for 1930, amounting to 156,625,867 and was followed in order by manufactured cotton, \$10,230,890; cigarettes, \$3,524,909; and cotton cloth, duck and tire fabric, \$3,233,205. Other leading exports were cotton yarn thread and cordage, \$2,188,967; cotton hosiery, \$941,761; boards, planks and scantlings \$518,872; grains and preparations, \$485,219; and other "inedible vegetable products." \$411,075.

Undressed furs, lard, rubber and manufactures, dyeing and tanning materials, smoking tobacco, cotton-mill waste, bath towels, mats and wash cloths, rayon hosiery, wood and manufactures, nonmetallic mineral products, metals and manufactures, machinery, vehicles and parts and chemicals and related products were among the many products sent from North Carolina to foreign countries during the year. This list of materials and values does not include products shipped from North Carolina to other states and then killed for export from those states.

Figures covering exports by states have been prepared for the past seven years and are given below for purposes of comparison:

1924	\$62,322,000
1925	62,330,000
1926	62,332,222
1927	60,459,126
1928	68,663,979
1929	99,524,789
1930	81,356,142

PROTECT WHITES IN SOUTH AFRICA BY RIGID LAWS

One of the most complete motion picture censorship bills ever framed was passed in South Africa several weeks ago.

One clause calls for censoring of posters of scenes the censorship board doesn't like. Idea back of that, as explained, is not to show the white race up to ridicule before the native Negroes or anything which vaguely hints at white men not being superior.

Among the things forbidden by the new censorship rules are:

- Impersonation of the King.
- Holding up to ridicule or contempt any member of the King's military or naval forces.

CONSTIPATION take

"If I got constipated, I would get dizzy and have swimming in my head. I would have very severe headache.

"For a while I thought I wouldn't take anything—maybe I could wear out the headaches; but I found they were wearing me out.

"I found Black-Draught would relieve this, so when I have the very first symptoms, I take Black-Draught and now I don't have the headache.

"I am a firm believer in Black-Draught, and after using it 20 or more years, I am satisfied to continue its use."

—F. E. McKinney, Orange Park, Fla. 1-11

ASHEVILLE DEBTS EXCEED ASSETS

Asheville.—Total liabilities of the City of Asheville are \$9,466,624.86 greater than all of the assets of the city, current and capital, according to an audit report for the fiscal year ending August 31, 1931, submitted to city council by Geo. G. Scott, auditor.

Mr. Scott presented his report in person to the council, reading a large portion of the report. It shows that the city has \$28,177,619.63 in debts, and has property and receivables worth only \$18,650,994.77, leaving a deficit of \$9,466,624.86.

ONLY SOLVENT BANKS HELPED BY CREDIT CORP.

Further explanation of the working plan of the giant National Credit corporation, now in process of formation under the sponsorship of President Hoover, with especial emphasis upon the fact that only solvent banks can participate in the loans of the corporation, was contained in a letter received in Salisbury from John M. Miller of Richmond, prominent banker and a director in the newly formed corporation.

"I have never understood that the National Credit corporation, through its associations in the various sections, should take over frozen assets from insolvent banks, nor to advance money on the assignment of deposits in a closed bank.

"The monies of the associations are to be loaned only when necessary in the judgment of the loan committees and upon sound and satisfactory assets offered as collateral by the borrowing banks, which in the judgment of the loan committees are solvent.

"Losses will have to be borne by the banks of each association pro rata and I take it that the loan committees in the various associations will endeavor to avoid losses. I can see that it will take some time to liquidate some of the loans the committee will make, but ultimate liquidation of the full amount of the borrowings is contemplated in every case."

Describe An Ideal Woman For Fashion

The ideal woman for the winter fashions will be five feet, ten and one-half inches tall and a "a little plump" the fashion experts of London announced recently in forecasting the end of a long period of popularity for small, chic figures.

With the return of the bustle, puffed sleeves and possibly fur sets, the favorite fashion figure of the next few months will fill the following specifications:

- Height, 5 feet, 10 1-2 inches.
- Hips, 42 inches.
- Bust, 39 inches.
- Arms length, 19 1-2 inches.
- Waist, 31 inches.
- Weight, probably between 123 and 132 pounds.

"You needn't tell me — I know Camel is the fresh cigarette!"

Never parched, never toasted

CAMELS are FRESH

in nature's own mild way!

EVERYONE knows now that Camels are the fresh cigarette.

If inquiry went deeper, it would reveal that Camels are the natural moisture cigarette.

That's important, because in handling fine tobaccos, when you process out natural moisture, you sacrifice freshness and flavor too.

Camel smokers needn't worry about that, because Camels are blended of fine Turkish and mild Domestic tobaccos that are never subjected to violent process-

ing. They need no parching or toasting to make them smooth, palatable, cool.

That's why the Camel Humidor Pack is such a boon to Camel smokers—it preserves the freshness, flavor, natural moisture, fragrance that are in this fine cigarette to start with.

Camels are fresh in nature's own mild way, and if you want to see what that means in unalloyed smoke-enjoyment, switch to them for just one day — then leave them, if you can!
