SILK STOCKINGS

-: CORRIHER ITEMS :-

Mrs. D. L. McLaughlin spent the day with Mrs. M. B. Corriher, Thursday, Feb. 25th.

Mr. and Mrs. M. B. Corriher and family were guests of Mrs. C. A. Thompson of Kannapolis Sunday, Feb. 28th.

T. L. Corriher, D. W. McLaughlin and M. B. Corriher drove to Winston-Salem Monday, Feb. 29th, to attend the Post Officers Conference of the American Legion of this state which was in session there at that time.

Quite a few in this community have hogs to kill yet—so here's hoping for some real hog-killing weather soon.

Corriher's Grange will hold its regular monthly meeting Monday night, March 7th, 8 o'clock, at Corriher's school house. It will be a closed meeting with the regular routine of business attended to. The outstanding attraction being a mock trial "The Great Pumpkin Case."

Theo McLaughlin plays the part of Hiram Guff. Ditzo McLaughlin, the part of Ab Muff; Clyde Corriher is counsel for plaintiff; Mitchell Corriher counsel for defendant; Thebis Karriker judge. The other characters are: John Allman, John Graham, Henry Corriher, Ervin Karriker, Harry Corriher, John Corriher, Ambrose Corriher, Fred Moore, Chal Waggoner, Carl Leazer, Whit Bostian and Henry Wilford. Grangers from other Granges are always welcome.

There will be a benefit bridge party at the home of Mr. and Mrs. Geo. Bostian of China Grove Tuesday night, March 8th. This party is given by the American Legion Auxiliary of China Grove and proceeds will be for the benefit of this unit and the work it is carrying on.

The Northwestern Rowan Game Reserve has been talked and planned for quite a while. Now in our community however it is being developed quite nicely. There was a committee meeting Tuesday night, March 1st, at Corriher's school house with favorable reports. It was decided by this committee to hold a meeting of all farmers, especially land owners includ-

ed in this reserve, on Wednesday night, March 9th, at Miranda school house, 8 o'clock. There will be a number of speakers, among them will be assistant state game warden W. C. Lisk. Everyone interested is urged to attend this meeting and those included in this reserve be prepared to sign contract for game to stock same with.

Poor Economy To Grind Roughage Feed

It is not necessary to grind the roughages ordinarily used for livestock feed and certainly it is poor economy to do so with all feeds as low in price as they are now.

"We have come in contact recently with much misleading propaganda in regard to the advantages of grinding feeds for livestock," says L. I. Case, animal husbandman at State College. "Some of this material is finding its way into the agricultural press and much of it is being disseminated by salesmen of feed grinding mills who of course are interested in selling their product. I recently overheard a salesman who was giving a demonstration of his machine say that the grinding of corn stover would make it 100 percent digestible. Such a statement is ridiculous on its face because corn stover at best is only about 50 percent digestible and no amount of grinding will make it any more so."

Mr. Case says no hard and fast rules may be laid down for every farm but generally speaking it does not pay to grind roughages. He says that livestock men engaged in research at the experiment stations of the United States are about 100 percent in agreement on this.

In feeding beef cattle where hogs are to follow the beeves, it does not pay even to grind corn. Old feeders know this by experience and the majority of them feed broken ear corn or shelled corn, says Mr. Case. About the same thing is true in feeding corn to hogs. Numerous feeding trials prove conclusively that there is little saving in feeding ground corn to hogs in place or ear corn or shelled corn.

"OUCH!"

EFIRD'S
DOLLAR DAYS

MEN'S PANTS

All men's pants priced above \$3.00 to go at

\$1.00 OFFLADIES' NATURAL BRIDGE
FOOTWEAR
