

# New Tax Bill Costs The Average Family About \$50 During Next Year

### WHY WE DO

Price is an important factor in the selection of a funeral service. For that reason, we mark all caskets in our wide display with the prices of complete funerals.

We do not regulate our charges according to the means of those we serve, but render to one and all the same quality of service at the same fixed price. We invite a comparison of values.

## SUMMERSETT FUNERAL HOME, Inc.

125 W. COUNCIL ST.

PHONE 70

SALISBURY

If yours is an average family, the new \$1,115,000,000 tax bill passed by Congress is going to cost you somewhere between \$10 and \$100 next year. In all probability, the amount you will contribute in that time toward balancing the national treasury deficit will hover around the \$50 mark.

Assuming that you earn \$40 weekly, are married, and have an automobile, your taxes, under the new bill, would run something like this:

Sporting goods	\$ 3.60
Soft drinks	2.50
Amusements	2.00
Telephone	1.80
Wort, malt syrup and grape concentrates	8.00
Cosmetics	4.25
Jewelry	4.25
Matches	.20
Tires, tubes, oil, accessories	7.00
Gasoline	7.80
Electricity	1.50
Checks	2.00

Total for year \$44.90

Say you are a once-a-week golfer. If you buy two \$5 clubs a year, and lose—to be optimistic—one \$0c ball each round, your tax on sporting goods would be \$3.60.

Soft drinks are taxed under 1921 rates, and in 1921 the average per capita tax on this item was \$2.50.

Your wife would, perhaps, make a monthly long distance call to a close relative. Let us say the regular charge is \$1.25. The new tax of 15c on each of the 12 calls means \$1.80 a year.

Should you happen to be a member of the great army of home-brewers, your tax would depend, of course, upon the amount of brew you make. Estimates reveal that \$8 per year is about the tax the average home-brewer will lay out on malt, wort and grape concentrates.

If your wife has a fondness for powders and creams that most women have she spends \$42.50 a year, statistics show, on lipsticks, rouge, cleansing cream, skin food, etc. With the new 10 per cent tax on cosmetics, Friend Hubby's wallet will be nicked for \$4.25.

The same figure, oddly, represents the average yearly expenditure for jewelry by women in moderate circumstances, a New York survey shows. Another \$4.25, therefore, to appease feminine vanity.

There's one consolation in the new bill, however. It's almost impossible to use up enough matches to put a sizeable crimp in the family exchequer. The new tax on this item, based on reasonable usage, for instance, would be only about 20c.

On the other hand, your automobile will cost you plenty. Seven dollars, the figures show, would be the average tax on accessories, oil, tubes and tires, and \$7.80, on your gasoline.

In a general sum up, by June 20, 1933, one year from the date these taxes went into effect, you will have paid \$44.00, as your share toward the billion dollar revenue bill intended to close the great gap in our treasury.
