

# ROOSEVELT CONTINUES TO LEAD IN POLL

## Hoover Has Slim Margin In New York

Straw Vote Indicates Hoover Democrats of 1928 Returning To Fold

Roosevelt Polling Heavy Vote In Republican Pennsylvania

The sixth tabulation of the nationwide Presidential poll reveals that the Roosevelt-Garner ticket is still far in the lead and gaining momentum as the returns are tabulated week by week. The week's total gives the following results:

Roosevelt	142,140
Hoover	90,151

Commenting on the present results the Hearst papers say "Roosevelt is holding 95 per cent of those who voted the Democratic ticket four years ago. Hoover is losing 37 per cent of his former backers to Roosevelt." This viewpoint is corroborated by the preliminary returns given out by the Literary Digest, which show that 27,654 straw votes for Roosevelt already tabulated, 10,927 voted for Mr. Hoover in 1928. Out of the 28,193 reported for Mr. Hoover by the Digest only 1,738 voted for Smith in last presidential election.

The Hearst returns for the week are given as follows:

State	Hoover	Roosevelt
Alabama	308	2532
Arizona	318	710
Arkansas	406	1649
California	6042	13014

West Virginia	2300	3502
Wisconsin	2096	4047
Wyoming	269	327
Total	90151	142,140

This week's returns do not change the result in the number of states in the column of each candidate. Governor Roosevelt is in the lead with 37 states, while President Hoover has a majority in the remaining 11 states.

The Literary Digest in reporting its first returns give the following tabulation, which may be compared with those of the Hearst newspapers by the reader. These returns are as follows:

State	Hoover	Roosevelt
Indiana	1109	907
New York	14933	11910
Ohio	1433	1441
Pennsylvania	9142	11221
West Virginia	1576	2175

All of the above states were in the Hoover column four years ago.

## How Cardui Helps Women

"Mal-nutrition" means that your body is not getting enough to keep it up, so that what it has to do is not done well. You may not be eating enough to keep up the work of the body, or there may be something wrong that keeps you from getting full value from the food you eat. Because of mal-nutrition, some women have aches and pains every month. Such pains should not be neglected. Take Cardui to give you a better appetite, to give you more strength from the food you eat—to build up and increase your feeling of well-being. Aches and pains go away as you build up with the help of Cardui.

and Hearst polls is to be noticed in the returns from the state of Pennsylvania, which records its vote at this time in both polls for Governor Roosevelt. If the straws indicate the way the political wind is blowing this year, Pennsylvania may give the country the biggest upset in the election. Mr. Edwin C. Hill, reporting the returns of various Pennsylvania cities in the Digest poll over the radio which returns were published within the past week in the New York Times, gives the following summary:

Penna. Cities	Hoover	Roosevelt
Pittsburg	1097	955
Allentown	198	299
Bethlehem	72	95
Harrisburg	143	193
Chester	126	131
Reading	214	355
Scranton	321	432

In 1928 Scranton gave Governor Smith a majority; the other cities were in the Hoover column. The later polls may change the results to a considerable degree, but it may be noticed with interest that Pennsylvania has been in Roosevelt camp since the beginning of the Hearst poll, which started six weeks ago. Four years ago the Hearst poll showed the state in the Hoover column by an overwhelming majority from the very beginning, and in November of that year Mr. Hoover carried Pennsylvania by nearly one million majority.

## BEST TIME TO SET FLOWERING PLANTS

Perennial plants that were seeded in July or August now have the second set of leaves and should be transplanted in coldframes, small pots or in a permanent location. "This latter practice may be followed in the lower Piedmont and Coastal section where the winters are comparatively mild," says G. O. Randall, horticulturist at State College, "but in the western part of the State it is best to keep the plants over winter in a coldframe or protected bed." Where well-developed, sturdy plants are bought from the nursery they may be set either in the fall or early spring, states Mr. Randall. For fall planting, however, they should be set early enough to get well established before the freezing temperatures. These plants, if well established in the permanent location, will flower earlier than those set in the spring.

## A Sure American Sign of Autumn

On athletic fields of schools and colleges throughout the United States, thousands of young Americans are giving close attention to the words of trainers and coaches, each with high hope that his will be the name to thrill the crowds in our great national school game of football. The scene above is typical and most important of all this activity carries with it, excellent physical development and in learning a fine spirit of sportsmanship.

## Billions Spent For Machinery By Farmers

American Farmers Invest Almost \$3,500,000,000 In Implements And Automobiles

American farmers have an invest-

ment of almost \$3,500,000,000 in machinery, implements and automobiles, and spend approximately \$400,000,000 annually in replacements, according to a survey just completed by the new uses section of the Cotton-Textile institute, New York city.

The survey was undertaken with a view to determine the investment value of coverings, such as cotton tarpauling, which would lessen the damage suffered by farm machinery when left exposed to the elements without protection. Information was

obtained indicating that more farm equipment rusts out of service than is rendered unserviceable by wear and tear.

Of the total investment, \$1,423,000,000 is the value of machinery and implements. The remainder is the investment in 4,134,625 automobiles, 900,304 trucks and 920,378 tractors which the latest census credits to the farmers of the United States. Tractors are often left unprotected. Included in the machinery group, they would add some \$360,000,000 to make a total investment of \$1,783,000,000 in farm equipment, the usefulness of which is more apt to be impaired by rust than by actual service wear.

**Why does the lady smile? Why does the salesman smile? We'll let you in on the secret!!**

It's really not a secret at all. Or won't be for long, if people read the papers.

Our annual gas range sale is now in full swing. It offers inducements which seem almost too good to be true. It brings the immediate ownership of a modern, insulated, full-porcelain-enameled, heat-controlled gas range within the reach of even the most carefully-pruned budget.

Your old range and a five-dollar bill—that's all it takes for immediate installation of the range of your dreams. Prices were never so low before—probably never will be again—and you may take all of TWO YEARS to make payments on our monthly budget plan.

No wonder everybody in our sales organization is happy, smiling, busy. We wish we could sell gas ranges the year 'round on this basis, but once a year is the limit. Don't you want to get in on the sell-e-bration?

Table-top ranges, originated by Estate, save thousands of steps. Gas range, cup-board and kitchen table all in one, they are marvelously convenient. Automatic burner lighting, oven heat control, with automatic time control optional on model illustrated. Wide variety of styles, sizes, finishes and equipment.
