

Plan Great Gathering Of North Carolina Farmers

Big Convention Is Next Week

Large Attendance Expected At Annual Meeting Of Farmers And Farm Women

By F. H. Jeter.
The week of July 24 to 29 will likely be an occasion long to be remembered in the farming annals of North Carolina.

Much interest has always surrounded the annual gathering of the State Farmers' and Farm Women's Convention and many of the good movements looking to the upbuilding of North Carolina farming have had their inception in the discussions engaged in during past conventions.

This year, however, a more ambitious meeting than any ever before attempted will be held. So many organizations will meet at State College during the week that matters of interest to every farmer and every farm woman will be presented.

Charles A. Sheffield, secretary of the Convention, says the early request for information about the convention indicate a greater interest than in the past few years. Mr. Sheffield is cooperating with L. H. McKay, president of the Convention, and Mrs. Dewey Bennett, president of the State Federation of Home Demonstration Clubs, in arranging the details of the program. He is also working with the leaders of the other organized groups to build a meeting in which all the various interests will be coordinated. Among those groups which will meet at the college during Farm and Home week are: The American Institute of Cooperation, The North Carolina Dairywomen's Association, Lecturers of the North Carolina Grange, The State Federation of Home Demonstration Clubs, the

W-R-E-C-K-S

This country is famous for its wrecks and the said wrecks may be divided into three classes, viz:ly:

1. Automobile wrecks.
2. Mental wrecks.
3. Physical wrecks.

There are numerous contributory causes of wrecks, especially in the automotive wreck class. These causes may be segregated on a percentage basis as follows:

Kissing	5 percent
Hornet in eye	5 percent
Back-seat drivers	6 percent
Sitting in laps	8 percent
75 m. p. h.	10 percent
Blowouts	10 percent
Other fellow	10 percent
Truck hogs	10 percent
Fools, plains	4 percent
Fools, dams	14 percent
Baby drivers	2 percent
Dodging wimmen	12 percent

Mental wrecks are caused by automobile wrecks and working in banks and matrimony. Matrimony is responsible for nearly twice as many mental wrecks as banks, but common poverty—caused by the loss of money belonging to Bee up britches 5 percent other people as well as yourself—

dismantles and dishevels thousands of brains every year. Suicide usually follows the wreckage of loss of fortune and they call that—"he went crazy, and blowed 'em out."

Physical wrecks are brought about by breakfast foods, sun-baths, patent medicines, out-late-nights, wimmen, deflation, depression, debility, hen peckedness, corsets, past due notes, tight shoes, opium, cats fighting after 11 p. m., 6-cent cotton, high-priced gasoline, and mothers-in-law.

I knew a man once that was perfectly happy, weighed 168 pounds, robust, healthy, had plenty money, a lovely family—but he decided to get rich quick and commenced to "gamble on the board." In 3 months, he was a physical wreck, in 6 months, he was a mental wreck and in 9 months he was a corpse in an automobile wreck. His demise took place the afternoon he received a wire for more margin, and margin is the thing he didn't have no more of. Let's all avoid wrecks from now on by not doing the things that fetch 'em on.

Carry Forward Plans To Open New Guaranty Bank

Conservator Sees Early Opening

Expects All Three Banks To Enter Merger

Preliminaries to formally opening the state-wide Guaranty bank are being carried forward steadily and without immediate consideration of pending litigation involving banks proposed to be included in this consolidation, according to bank officials.

Efforts are being made in the courts to prevent inclusion of the Independence Trust company and the Page Trust company, of Aberdeen, in the proposed merger with the North Carolina Bank and Trust company of Greensboro.

Stockholders of the Independence company are contending that the stock certificate issued by this company specifically declare this stock is non-assessable.

An effort is being made also in the courts to prevent inclusion of the Page company in the proposed consolidation and a hearing on this application will be held within a short time.

Beer Dealers To Pay Special Tax

The Bureau of Internal Revenue desires that every dealer in malt liquors wines and fermented fruit juices be given an opportunity to read the following statement, and to that end requests the cooperation of the press in publishing the entire article.

There appears to be considerable misunderstanding upon the part of dealers in malt liquors, wines and fermented fruit juices as to their liability for special tax in connection with the sale of their product. In order to remove any misunderstanding in regard to them, the following statement is submitted:

Purchasers of special tax stamps, at the rate of \$20 per year, bearing the title, "Retail Dealer in Fermented Liquors," may legally engage only in the sale, in less quantities than five gallons at one time, of fermented (malt) liquors of 3.2 per cent alcoholic content by weight.

Every person who sells or offers for sale fermented malt liquors in quantities of not less than five gallons at one time, but who does not deal in wines and fermented fruit juices, is considered a wholesale dealer in malt liquor, and, as such is required to purchase a special tax stamp at the rate of \$50 per year.

Purchasers of special tax stamps, at the rate of \$25 per year, bearing the title "Retail Liquor Dealer," may engage not only in the sale of fermented (malt) liquors but also

SICK HEADACHE

Many cases of SICK HEADACHE are due to constipation. If you have headache that is due to constipation, take Theford's BLACK-DRAUGHT for refreshing relief. "I have taken BLACK-DRAUGHT, when needed, for about 15 years," writes Mr. J. W. Cooper, of Longview, Texas. "I first began to use it for sick headache that seemed to come from constipation. "I would suffer about twenty-four hours with these headaches. I found out that BLACK-DRAUGHT would help me, so that is what I took. I am glad to recommend it to others, for this trouble, for it will give relief." Theford's BLACK-DRAUGHT is a purely vegetable laxative, preferred by thousands of men and women because it is so effective and economical. in the sale of 3.2 per cent wines and fermented fruit juices, in less quantities than five gallons at one time, without incurring additional liability.

A wholesale liquor dealer shall pay \$100 per year. Such dealers may not only sell wines and fermented fruit juices containing not more than 3.2 per cent of alcohol by weight, but may likewise sell fermented malt liquors of like alcoholic strength in quantities of not less than five gallons at one time, without incurring additional special tax liability.

A qualified wholesale dealer in malt liquor and a qualified wholesale dealer can not sell in quantities of less than five gallons without incurring liability as a retail dealer nor can a qualified retail dealer in malt liquor, or a qualified retail dealer, sell in quantities of five gallons or more at one time, without incurring liability for special tax as a wholesale dealer.

Special taxes are payable on a fiscal year basis, beginning July 1 of each year, and every dealer in malt liquors or wines and fermented fruit juices is required to purchase a new special tax stamp effective July 1, 1933. The purchase of a special tax stamp as retail or wholesale dealer in malt liquors or wines and fermented fruit juices does not authorize the purchaser thereof to transact such business in conflict with State laws, or authorize the sale of spirituous liquors for beverage purposes.
