

## State To Spend More On Busses

Amount Of \$500,000 Enables Allotment of \$200,000 For Transportation.

Readjustment of state school allotments in light of the \$100,000 federal grant to teachers' salaries was made at a meeting of the state school commission last week.

The readjustment gave a total of \$900,000 for transportation, which is \$200,000 more than was estimated last fall to be available. The commission had allotted \$1,000,000 for transportation purposes during the year.

The commission estimated last fall that \$12,700,000 would be sufficient to meet teachers' salaries in all. Developments, however, showed that \$13,000,000 will be required for that purpose. Prior to securing the federal grant, the commission had planned to take the required amount from transportation.

The additional amount for transportation, Leroy Martin, secretary of the commission, said would make it possible to place transportation equipment "in better shape than we ever dreamed of."

The commission also worked out plans to store school busses during the summer. In past years, the busses have been left outside all during the summer.

Plans for the establishment of a central clearing house for discarded bus parts also were discussed. It is planned to store all discarded parts in busses all over the state instead of buying new parts for all repairs.

The good old hymn told us to scatter seeds of kindness, but that does not justify the golfers on 4,000 courses for scattering their wild golf balls all through the gardens and shed windows of the adjoining houses.

### ATTRACTIVE APRON FROCK

Pattern 8166—Here is a most satisfactory apron dress. In each of its details of design a thought for beauty and a thought for use are given. The long lines, slashed sleeves, and sash tied in a bow all combine to make it becoming to the wearer. Also the dress is so constructed as to be possible to open out flat for ironing, making it unusually useful and practical.

A polka dot percale, checked or striped seersucker, plaid gingham, floral printed cottons of any sort lend themselves readily to the making of this wrap-around frock.

### RUNABOUT SUIT

Pattern 8139—At last we have found the perfect design for that really all-around useful suit which is sometimes called the trdteur suit—perfect, to the last detail.

Make it up in pastel tweed, such as dusty pink or sew dew green or a herringbone pattern in deep tan color or rich smokey grey. It is equally attractive in silk, either figured or plain, or linen, gingham, or pique for summer. With any of these materials the cleverly simulated blouse may be made in white for striking contrast.

## Why Hospitals Use a Liquid Laxative

Hospitals and doctors have always used liquid laxatives. And the public is fast returning to laxatives in liquid form. Do you know the reasons?

The dose of a liquid laxative can be measured. The action can be controlled. It forms no habit; you need not take a "double dose" a day or two later. Nor will a mild liquid laxative irritate the kidneys.

The right liquid laxative brings a perfect movement, and there is no discomfort at the time, or after.

The wrong cathartic may keep you constipated as long as you keep on using it! And the habitual use of irritating salts, or of powerful drugs in the highly concentrated form of pills and tablets may prove injurious.

A week with a properly prepared liquid laxative like Dr. Caldwell's Syrup Pepsin will tell you a lot. A few weeks' time, and your bowels can be "as regular as clockwork." Dr. Caldwell's Syrup Pepsin is an approved liquid laxative which all druggists keep ready for use. It makes an ideal family laxative; effective for all ages, and may be given to the youngest child.
