Rain, Weevil Blamed For Cotton Drop

Raleigh.—The State Department of Agriculture pointed to excessive rains in sections of the state and to boll weevil damage after August 15 as reason for a drop in the estimated cotton production for North Carolina this year from 656,000 bales to 646,000 between September 1 and October 1.

The cotton yield prospect on October "in spite of the wet weather conditions in North Carolina during September" was 76 per cent of a full crop, with about 320 pounds of lint cotton per acre.

"Most of the eastern counties had excessive rainfall, resulting in heavy boll rot and weevil damage," the report said. "The southern and central counties had fairly good weather conditions. This affected the picking and quality of lint."

Says Textile Situation Steadily Grows Better

The situation in the textile industry, from the standpoint of the relations between employers and employees, is steadily growing better, Roy R. Lawrence of Winston-Salem, president of the North Carolina federation of labor says. "Yes, it is getting better right along," said Mr. Lawrence. "There is less discrimination being practiced, considerably less, than there was immediately after the conclusion of the textile strike. Of course, there are still sore spots here and there in the state, but it is getting better. Both sides are showing better dispositions to get together, I am quite sure, and I feel that things are improving all the time."

Fag Price Is Fixed

Still Sell At 2 For Quarter

NRA Decides Against Any Change Before Jan. 11; Seen As Policy Action

Washington.—Popular brands of cigarettes will continue to sell for 13 cents a package or two for a quarter until January 11, by order of NRA's new governing board. This action was the first by the Blue Eagle rulers involving the controversial question of price fixing. It continued a 90-day emergency order by Hugh S. Johnson, which otherwise would have expired October 12.

Greatest Circus Is Coming Soon

The world's mightiest amusement entourage, the Ringling Bros. and Barnum & Bailey Combined Circus with its gigantic 1934 program of new world-wide wonders, many of which have never before appeared in America, is definitely scheduled to exhibit in Charlotte Monday Oct. 22.

The gorgeous, vastly enlarged inaugural spectacle, "The Durbar of Delhi" stupendously introduces the multitude of arenic marvels that succeed this pompous panoramic display.

The great new international congress of features presented in the seven rings and stages, huge hippodrome track and the maze of aerial riggings includes the recently imported Otari Troupe in the most astounding mid-air feats ever witnessed. These intrepid performers fly from all points of the compass at the same time in perilous forward and reverse flights through space from their lofty aerial cross.

The Otaris with such arenic notables as Mlle. Gillette, Europe's sensation of the air, now appearing in this country for the first time and the celebrated Torrence-Dolores, Merkels, Willos and Spurgat Troups, all new to this continent, are among the 800 men and women circus stars presented by the big show this year.

The circus bears on its four long trains of 100 double-length steel railroad cars more than 1600 people, 50 elephants, 1009 menagerie animals and 700 horses.

The great Con Colleano, tumbling, forward somersaulting tight wire star has been recalled from European triumphs to join the great Ringling Bros. and Barnum & Bailey Constellation of stars. The celebrated Wallenda Troupe of high wire thrillers, the famous Loyal-Repenski family, world's greatest bareback riders, Dorothy Herbert, most daring horsewoman in history, the marvelous Yacopi, Dan-wills, Uvenos and Yom Kam acrobatic troupes and the famous Concellos, Harolds, Rooneys and Walters, aerial wizards, are but a few of the headliners among the better known acts.

These are 150 internationally famous clowns in the gala 1934 performances of the world's largest circus—the greatest congress of funmakers ever assembled.

BOLD ESCAPEE NABBED

Grover Walsh of Valmead, about 23, who escaped from a highway prison camp 10 days ago, made the mistake of being too bold while enjoying his freedom. He walked by the courthouse at Lenoir, and Deputy Sheriff Walter Setzer nabbed him.

Unique Vicks Formula Is Now Aiding Millions In Preventing Many Colds

Vicks Va-tro-nol, the unique aid in preventing colds, is now helping millions of adults and children to enjoy greater freedom from colds. Va-tro-nol is especially designed for nose and throat, where most colds start. Va-tro-nol should be used at that first sneeze or nasal irritation—just a few drops up each nostril. Its timely use helps to prevent any colds—and to throw off colds in the early stages. Where irritation has led to a congested nose (a stuffy head cold, nasal catarrh)—Va-tro-nol penetrates deep into the nasal passages—dissolves swollen membranes—clears away clogging mucus—brings complete relief.

These folks own the Bell Telephone System It is truthfully said of the Bell Telephone System that it is owned by the public it serves. Of the more than 800,000 holders of Bell System securities, 381,000 are women, 210,000 are clerks and sales people; 30,000 are manual laborers; 115,000 are telephone workers. There are other thousands of doctors, lawyers, farmers and merchants. In fact people in every walk of life, many of whom are doubtless your neighbors and friends. Most of these folks are small investors. Eighty per cent own twenty-five or less shares of stock, while forty per cent of the total own five shares or less. No one owns as much as one-fifth of one per cent of the outstanding stock of the Bell System. It is this vast army of small investors whose savings have financed the telephone business. Their savings have been attracted to the telephone industry because of their faith in the integrity of the management and their confidence in the willingness of the public to pay a price for the service that will allow earnings sufficient to assure the best possible service at all times and to insure the continued financial stability of the business.
