### Figure Ehringhaus May Oppose Bailey

Raleigh.—Gov. J. C. B. Ehringhaus has again set the politicians—at least a number of them—wondering if he will go after the toga now worn by Senator J. W. Bailey in the 1936 primary elections.

Reports seeping into Raleigh say the governor is making quite an impression on the voters with his speeches in which he does not mince words in declaring his support of and belief in the New Deal administration as well as taking care, especially in the cotton-growing counties, to say he believes that even under the Bankhead cotton control bill the farmers are getting twice as much for their cotton as they did during the Hoover administration.

A political orator of no mean ability, the chief executive is making such vigorous speeches that he unwittingly, perhaps, has revived the talk he will oppose Senator Bailey in 1936. To questions as to his future political plans, however, the governor says he is not a candidate for any office because he has his hands full being governor. But he has not said he would not be a candidate against Senator Bailey. He is leaving all political doors open.

No governor since the days of Zebulon Vance has been elected to the United States senate from this state, but friends of Governor Ehringhaus, who is extremely popular in the east by reason of his activities in behalf of the tobacco farmers, say they are convinced he will race Senator Bailey. The governor's many western speeches in this campaign also cause tongue wagging among the politicians.

Veteran observers are of the opinion that if the governor can compile a good batting average with the forthcoming state legislature and can go into 1936 with the state in good financial condition he is not likely to go back to his home in Elizabeth City without making a bid for the seat Senator Bailey now holds.

### Catawba Teacher Making Study Of Rubber Flexibility

Dr. Braun, professor of physics at Catawba college, recently returned from a northern trip in connection with an experiment which he is conducting at the present time.

Dr. Braun is carrying on a research on why a rubber band stretches. While in the north, he visited Philadelphia where he presented a paper on "The Extensibility of a Rubber Band" before a scientific society at Franklin institute. While in that section, he also visited the Bartol laboratory of Swarthmore college, and attended a meeting of the optical society of the bureau of standards at Washington, all these steps being in connection with his present line of work.

Dr. Braun is not the first scientist to conduct such a research. In 1876, Dr. Kohlhaus, famous for his work in the scientific world, started the general line of study in that field. His work was taken over by Dr. Bausse, and Dr. Courier in 1903, but none of these men came to a satisfactory conclusion. Thus, if Dr. Braun's work terminates successfully, which he has every hope that it will, he will be the first man to publish a successful solution of the question.

### State Chairman Says Vote Tues. Accidental Pistol Shot Proves Fatal

Raleigh.—"Get out the largest possible vote in every county, even though there may be no local contests" is the admonition of State Chairman J. Wallace Winborne on the eve of the election next Tuesday.

"Remember," Mr. Winborne urges, "that aside from your local county and district candidates, there are to be elected by a State-wide majority vote, three justices of the North Carolina Supreme Court, Chief Justice W. P. Stacy, and Associates Heriot Clarkson and Michael Schenk; the State Treasurer, Charles M. Johnson, and the State Utilities Commissioner, Stanley Winborne, in addition to two Superior Court judges who have opposition, Julius A. Rousseau, of the 17th district, and J. Will Pless, Jr., of the 18th district.

"Even in the counties and districts where there are no contests, it is exceedingly important that large Democratic majorities be given these State-wide candidates, as well as the Congressional candidates. By so doing the Democrats of the State are giving their endorsement of the administration of President Roosevelt in the nation and Governor Ehringhaus in the State.

"Important, too, will be the result of a huge Democratic majority all along the line in sweeping from under the Republicans the beginning of a basis they have been preparing for the campaign in 1936, which will be the crucial testing time of President Roosevelt and his New Deal. I urge that every Democrat do his full duty from now until the votes have been counted and recorded."

### Record Train Run

Railroading's answer to aerial and automotive competition reached New York after a record-breaking run across the continent, and the ensuing excitement caused the engineer to faint.

Fifty-six hours and 55 minutes after leaving Los Angeles the Union Pacific's new streamlined train, resembling a huge yellow caterpillar, rolled into Grand Central terminal with a cluster of new speed records to its credit. The previous transcontinental record was 69 hours and seven minutes, made 10 years ago.

Overcome by the press of well-wishing crowds and the sudden easing of the nervous strain under which he had labored during the long exhibition run, H. D. Robinson, assistant motor car supervisor of the Union Pacific, fainted on the station platform.

### McAdoo Takes Car Away From Ellen To Stop Marriage

Hollywood.—Sen. William Gibbs McAdoo, whose role in his daughter's romance has been that of the stern, forbidding father, Saturday deprived her of an automobile in which to drive her movie actor-finance on pleasure jaunts.

Not one whit disturbed, however, was 19-year-old Ellen Wilson McAdoo whose sweetheart, Rafael Lopez De Onate, is twice her age and the subject of dispute over his racial lineage.

"I can walk," said Ellen with a toss of her dark head, "and I will walk."

Nor did she appear daunted by threats of her father to disinherit her and eliminate her \$10,000 annual allowance if she carries out her plans to marry De Onate.

De Onate and his finance failed to keep an appointment yesterday with the Riverside county clerk. The clerk was prepared to demand proof of De Onate's claims of Spanish parentage if they applied for a marriage license. Notice of intention to marry had been filed earlier in the week, at which time the actor flatly denied his mother was Filipino blood. Inter-marriage of Caucasians and Malaysians is forbidden in California.
