

New Safety Glass Elastic As Rubber

Product Of Mellon Institute Can Be Stretched Six Inches And Rolled Up Like a Rug

New York—A new safety glass which stretched like a rubber band and rolled up like a rug was demonstrated here.

A mule kicked a panel of it out of its frame, all in one piece. Jim Mandry, Fordham university football player, bucked a sheet of it 40 by 60 inches, to show how it would bulge six inches and then spring back into place.

A Fordham pitcher threw baseballs against it, to show that when it cracks, no dangerous chips are knocked off. A strong woman from the show Jumbo hung to a shattered piece so that it stretched like elastic, and then slowly regained its shape when she let go.

The "man with the iron head" from Jumbo butted it to prove that there is not serious danger of cuts for a person thrown against the glass.

The material is a sandwich, two sheets of real glass, with a plastic between them. It is a refinement of present familiar shatter-proof glass. The resin which binds the glass almost like iron even after it is broken to bits and which stretches several times its own length, is vinyl, a product of the Mellon institute.

The glass used today was two sheets each just under an eighth of an inch thick, with a five hundredths of an inch thickness of

plastic between. For commercial use it is planned to use half this thickness of plastic.

This glass was developed in the laboratories of the Pittsburgh Plate Glass company and the Carbide and Carbon Chemicals corporation. It was announced that it will be manufactured both by Pittsburgh Plate and the Libby-Owens-Ford company.

After the glass surfaces have been thoroughly smashed, the material will roll up like a carpet. The announcement of the glass states that at 10 below zero, the material "is approximately 10 times as resistant to breaks as other types of safety glass."

Brittleness at low temperature has been one of the problems in making safety glass. Edge sealing was declared unnecessary with the vinyl plastic. The glass can be cut without heating. The ordinary cutting method is used on the glass, which is then stretched so that a safety razor can be inserted to cut the plastic.

In the laboratory the new glass was subjected to 1,000 hours of ultra-violet, said to be equivalent of two years flat exposure to the sun in Florida. The glass, said the announcement, "showed practically no discoloration." The vinyl requires no adhesives for cementing to the glass.

DEATHS

MRS. BEULAH RITCHIE
Mrs. Beulah Ritchie, 47, died at noon last Saturday, March 14 at her home near Landis. The funeral was held Monday morning at 11 o'clock at Mt. Zion Reformed church. She is survived by the following children: Jessie, Henry, Grover, Roselle, Alias and Louise, all at home; Mrs. A. W. Dry, Salisbury. She is also survived by her mother, Mrs. Als Beaver; a sister, Mrs. Ivey Beaver, and a brother, William Beaver, all of China Grove.

MRS. J. A. GRUBB
Mrs. J. A. Grubb, 54, died here at the home of a son who lives on the old Mocksville road, March 13. The funeral was held Sunday at Calvary Baptist church at 3 o'clock. Four sons and a daughter survive: Gerald, Chapel Hill; Gaskell, Salisbury; Ralph and Wayne Joe of the home place; Mrs. W. C. Shoaf, Rocky Mount. A brother, J. C. Pack of Kansas City, Mo., also survives.

MRS. JAMES HUFFMAN
Funeral services were held Monday afternoon at the Holiness church in Wilkes county for Mrs. James Huffman who died Saturday in a Mooresville hospital. Her home was near Landis. Her husband and five children survive: Leomia, Herman, Cornelius, Louisa and James, Jr., all at home. Her father and mother, Mr. and Mrs. Thomas Church of Wilkes county, also survive.

MRS. DAVID L. CORRELL
Mrs. David L. Correll, 71 died last Saturday at her home south of China Grove of pneumonia. The funeral was held Sunday afternoon at 2 o'clock at Mt. Zion Reformed church, the body lying in state for an hour prior to the service. Her husband and a brother, Rev. H. E. H. Sloop of Harrisburg, Va., survive.

MRS. LUCY J. MAUPIN
Mrs. Lucy J. Maupin, mother of W. C. and T. J. Maupin of this city, died in Roanoke, Va., last Sunday afternoon at the home of her daughter, Mrs. Lois Garrett. Mrs. Maupin had been in ill

health for some time. She was well-known here, having visited and spent some time with her sons. The funeral was held at the home on Walnut Avenue, on Tuesday afternoon at 4 o'clock and interment was in the Greenlawn cemetery in Roanoke.

Four sons and two daughters survive: T. J. and W. C. Maupin, Salisbury; T. K. Maupin, Raleigh; J. M. Maupin, Washington, D. C.; Mrs. C. C. Tillman and Mrs. Lois M. Garrett, Roanoke.

Mrs. J. P. Cress, 79, died Wednesday at her home on Route 2. The funeral was held Thursday afternoon at 2:30 o'clock at Mt. Zion Reformed church. The following children survive: Mrs. W. F. Moose, Concord; J. F. Cress, Route 2, W. L. Cress, La Crosse, Wis. Two sisters of China Grove also survive: Ellen Litaker and Mrs. Tom Albright.

MRS. R. L. PIERCE
Mrs. R. L. Pierce, 62, died at her home here, 402 S. Ellis street, shortly after noon Wednesday. She is survived by her husband, a well-known engineer on the Southern; one son, R. L. Pierce, Jr., who is in business here, and a daughter, Ruth, who is a teacher in the local schools. A step-daughter, Miss Sarah Pierce of Charlotte also sur-

Lady Took Cardui When Weak, Nervous

"I can't say enough for Cardui if I talked all day," enthusiastically writes Mrs. L. H. Caldwell, of Statesville, N. C. "I have used Cardui at intervals for twenty-five years," she adds. "My trouble in the beginning was weakness and nervousness. I read of Cardui in a newspaper and decided right then to try it. It seemed before I had taken half a bottle of Cardui I was stronger and was soon up and around."

Thousands of women testify Cardui benefited them. If it does not benefit YOU, consult a physician.

THE HOUSE OF HAZARDS

Judge Gives Mexican \$5 Lesson In Spanish

Birmingham—When Felix Rodriguez was hailed into court he shrugged his shoulders at the judge's questions and mumbled: "No sabe Inglis." "Well," said the judge, "we'll have to get a Spanish interpreter." A newspaper man who knew a little Spanish volunteered. "Tell the Mexican he is charged with being drunk and ask him if he wishes to plead guilty or not guilty," the judge instructed. With effort, the translation was made. Senior Rodriguez, the interpreter said, wished to plead guilty. "Ask him how long he has been in this county and where he lives now," the bench directed. The question was asked in Spanish but the answer in Spanish, stumped the interpreter. Question and answer were repeated several times. Finally, with an impatient shrug, Rodriguez blurted in plain English: "I live at Bessie Mines and I've

lived there for 20 years." When the laughter had subsided, the judge pointed a stern finger at the senior. "I'll just talk a little Spanish myself," he said, "Cinco pesos." He waived to the bailiff, "Adios—and it's a good thing I can't count over five dollars in Spanish."

HULL BLAMES MINORITIES
Deland Fla.—Cordell Hull, Secretary of State, blamed "high pressure minorities" for much of the world uneasiness. "There is a tendency in many parts of the world," he said, "to allow high pressure minorities to dominate public affairs too much."

Health and Beauty Control

Dr. Gaither Cauble
CHIROPRACTOR
Graduate Nurse Attendant
204 Wright Bldg. Phone 347

Each week I will answer questions, concerning "Health and Beauty Control," which any reader may wish to ask. Write your question on plain paper, giving your name and address. I will use your first and last initials at the heading of the answer to your question in next week's issue of THE CAROLINA WATCHMAN.

Direct all questions to Dr. Gaither Cauble, 204 Wright Building, Salisbury, N. C.

Eleven years of experience in the field of intestinal toxemias gives the writer a broad background upon which to base his conclusion. COLON IRRIGATION, a simple effective therapy completely overlooked by the average practitioner deals with a pathological condition located in a part of the human anatomy which is also often overlooked by the average practitioner.

The large bowl of the COLON is the human sewerage system. It is the only part of the body CONSTANTLY filled with decaying waste products and human excreta, from birth until death. The COLON is the natural repository of the many poisonous end-products of fermenting and putrefying food products. It is natural incubator of countless numbers and types of pernicious destructive forms of bacteria ranging from the Colon Bacillus, (labeled the Germ of "Old Age" by Metchnikoff); The Bacillus Welchii, dangerous gas formers responsible for gas formations, anemias, gangrene, the streptococcus, staphylococcus and other pus producing bacteria, the diplococcus of Bagen (said to be the cause of Ulcerative colitis); Saphrophites, through countless types of harmful bacteria living on the debris in the

colon (the intestinal soil) and comprising what is technically called the intestinal Flora.

It is but a natural sequelae of an infected colon that disease symptoms will appear embracing any and every part of the body, disease symptoms which will baffle the very best of Chiropractors, ones that will defy years and years of treatment and yet yield in a comparatively short time to COLON IRRIGATIONS properly administered.

The securing of therapeutic results by means of Colonic Irrigation is based on three separate factors.

1. The cleansing of the impacted CONTENTS of the Colon. This depends entirely on the proper apparatus and technique.
2. The changing of the Harmful Intestinal Flora to a beneficial one. This is purely bacteriological phenomenon.
3. The complete restoration to normal of the motor mechanism of the colon. This consist of a combination of establishing proper habits, diets, exercise correction of other lesions, etc.

THE LATEST GERMAN METHOD

This new method, recently brought to this country from Germany, requires from 30 to 40 minutes to administer. Over 20 new methods available, to be according to ailment or indications.

It is PLEASANT TO TAKE leaves no cramps or gas pains—it does not keep the patient away from work.

A Prophylactic measure for maintaining Health and efficiency. Overcomes and conquers more ailments, aches and pains than any other single method.

Cleveland Route 2

Mr. and Mrs. C. E. Steele have moved to Statesville, where Mr. Steele has accepted a position with the Gordon Furniture Co.

Misses Blanche Wilhelm of the Woodleaf school faculty, and Sadie Wilhelm of the Liberty school faculty near Greensboro spent the week-end with their parents, Mr. and Mrs. R. W. Wilhelm.
