HIS PROBLEM

Into the night court the other evening, there marched a man who had all the earmarks of a professional tough guy. This chap was as desperate-looking as any gorilla you've ever seen.

The magistrate looked down at the surly prisoner.

"Well," asked His Honor, "guilty or not guilty?" "Figure it out yourself," he snarled. "That is what yer getting paid for!"

THE "NEW" IN COOKERY

THE new automatic electric range is the "new" in cookery. However, the best feature of all about this modern servant to which so many women are turning is that you can enjoy one-step baking, "absent" cookery, "double boilerless" cookery, and all of the other miracle cookery tricks without having to learn to cook all over again. Old favorite recipes and pet cooking methods still hold. All you need to learn when cooking on the new electric range is to forget the more unpleasant, more difficult aspects of cooking. Thus grandmothers, as well as young homemakers and brides, choose the "new" in cookery because it provides the easiest, most enjoyable and most time-releasing methods possible.
