had theatrical people all wrong. We thought they had no more connection with a kitchen than an ant with a ballroom; that they had their "baggage" their "Bearnaises" and their "a la modes" served only on silver platters at the Ritz. You can put a cake in the cold electric oven, turn on the switch and forget in no time at all get a tender, fatherly-light cake. And in hundreds of electric range kitchens complete meals are being turned out

exact heat you ask for! Low heat is so low and accurately controlled that it provides just the right temperature for cooking those old chafing dish favorites, such as Welsh Rarebit. And without the necessity of using a double boiler, too! Just think of the convenience of cooking these delicious, but easy-to-scorch dishes in an ordinary saucepan or frying pan, without danger of burning. Since the taboo of the double boiler, top stove cookery has become easier, quicker, more economical and more "dishwashless."
