# PROSPECTUS OF AGE."

A SOUHERN MONTHLY MAGAZINE.

The undersigned has commenced in the City of Richmond the publication of a Monthly Mugazine, under the above little.

the best European Periodicals, of Literary and Scientific articles, of Novels and Sketches, which, having already received the imprimature of an enlightened taste, cannot but prove will be made to keep the readers of the Maguzine as nearly as possible abreast of the literary progress of the age. Arrangements have been made which, it is hoped, will enable the proprieters to secure this end.

The Magazine will also present original ar ticles from our best writers, in all departments, and a special aim of the proprietors of this periodical will be to foster Southern authorship by its exercise. They will not, however, under the plea of this design, encourage, by reproduction in its columns, that class of compositions which create a vivid and unhealthy taste, to be stated only by that hybrio, literature which Yunkee ingenuity has contrived, under the

name of sensational romance. The Industrial Resources and the Educational Interest of the Confederacy—the twin foundations of true independence-will receive the important share of attention they deserve. In B. the development of these questions, its object will be to make a practical application of the doctrine of States Rights to the policy of the country. It will endeavor to explain the mis- B. sion of the Confederacy; which is to demonstrate liberty regulated by law, to exhibit a system of B States, each supreme within its foundation, and only bound by a voluntary alienation of powers. Be It will vindicate those elements of National Independence, which are secured by a high stan- B dard of intelligence and refinement by accum- C. ulated capital, varied industry and by abundant facilities of intercommunication. It will promote the adoption of all those measures in which | C the Confederate Statespare now deficient. And. whilst the Constitution of the Confederate States forbids the General Government to organize and operate enterprizes of a nature calculated to attain these results, the projectors C will consider it their duty to arge upon the States C the developement of interests so indispensable Contensitional welfare. It is thus that, through the aggregate ability of the separate States, the power of the Confederate States will be made menifest. It is thus that the collision of C sectional interest and the oppression of a common head will be avoided.

In the fourth section, it is the design to ufford to Teachers information needed in their profession, and a field for the interchange of ideas on that subject, to which end, their assistance and collaboration is invited. Southern School Books will be noticed and reviewed; and the Southern system of Education as opposed to New England empiricism and practiculism. dupheld, developed and defend.

of Literature having been recently purchased by the subscripers, will, in future, be conducted exclusively under their control. In all its depariments, both business and editorial; the Messenger will be under the management of an autirely new regune, and the Proprietors are sanguine of success in the factor, which the Magazine has never yet restized if their friends and the public shall yield them a support worthy of so important an enerprise, looking to the advancement of the highest literary inter-

est of the Confederacy. Argument or appeal in behalf of the importance of an elevated literature to our country, the absence of which has hitherto made us a by word of reproach among the older nations, and even now militates against our interests ? abroad, need not be addressed to those whom | Q

ihis circular is designed to reach. But to the attainment of this great end, something more is necessary than more verbal expressions of sympathy and encouragement.-The friends of Southern Literature must foster the efforts of our diterary men to secure for as a worthy position in the world of letters.

We design the Messenger to be an enter-20,000 prisoners is being construct- prise worthy of support of all classes of our peoed ten miles this side of Columbia, ple. # SCHEDULE OF PRICES IN NORTH CAROLINA.

The Commissioners of Appraisement for the State of North Carolina, again present their shedule of prices to govern the purchasing officers of the Government for the next sixty It will present to its readers, selections from days, unless in the interval facts and circumstances should arise to induce an alteration. Every item has been carefully revised and with the valuable aid of Mr. George W. Morderia, acceptible to the Southern public. The effort they trust the schedule now presented will prove satisfactory to both the Government and and the people. They would respectfully urge the people to hasten on with their supplies to maintain and feed our gallant army now assembled just on our borders, and in whose galantry and fortitude, under God, we alone owe Rye. our exemption from the horrors of a revolution, offering an adequate and semunerative field for of our homes and families by the barbarous, inhuman foe, who have constantly shown they only want the power, and not the will to destroy us and take all we have.
