OUR PLATFORM. The following is the platform of the Democratic

arty in this State, adopted at the recent Convention held in Raleigh:

WHEREAS, The Republican party of the United
States, for the last sixteen years, has had complete
control of the Government in all its departments,
and by its disregard of constitutional limitations;
by its unequal and oppressive taxation; by its extravagant and wasteful expenditure; by its unwise
and mischievous financial policy; by its unexampled official corruption pervading all branshes of its
administration—has brought disgrace upon our Government and unparalleled distress upon our people:

istence, we invite all patriots to ignore all dead is-sues, to disregard the prejudices engendered by past tvents, and to unite with us in the effort to restore constitutional, honest, economical and pure ada constitutional, honest, economical and pure administration of the Government, and thus promote the general welfare and happiness of the country.

Resolved, 2. That we earnestly and cordially recommend the adoption, by the people, of the amendments to the Constitution proposed by the Convention of 1875 and thus largely reduce the expenditures of our State and county governments and simple three of our State and county governments and simple country governments and simple country. tures of our State and county governments and sim-

plify their administration, so that we may be enabled to establish a thorough and enlarged system of public schools for the benefit of all the citizens of the State.

Resolved, 3. That notwithstanding our repeated disappointments and impoverished condition, we still cherish the North Carolina project so long labored for by Morehead, Saunders, Fisher, Wm. Thomas, and others, of uniting the harbors of Beaufort and and others, of uniting the harbors of Beaufort and Wilmington with the great West, and the comple-tion of the Western North Carolina Railroad to Paint Rock and Ducktown, and of our other unfinished railroads. We pledge the continued use of the convict labor of the State, and of such other ju-dicial legislative aid as will secure the completion of

period. Resolved, 4. That the people of North Carolina now have it in their power by an earnest, determined and united effort, to relieve our people from the evils of republican misrule, extravagance and corruption; and restore the prosperity of our country.

Resolved, 4. That we denounce official corruption
wherever found, and we hold honesty to be the first and highest qualification for office.

Vermont doesn't hold up well for the Republicans. The official returns from the entire State foot up 65,643 votes cast, and the Republican majority has been whittled dewn to 23,550, being a loss on the majority of 1872 of nearly 2,000. The largest vote ever cast in previous years was in September, 1872, when the aggregate was 58,619, or 6,954 less than the poll of Tuesday last. Such an increase of the whole vote in a State where the Republicans are more than two to one, should have increased the Republican majority thirty-three per cent. of the aggregate increase of the poll, or over 2,000, but, instead of increasing, it is diminished nearly 2,000. The same percentage of Democratic gains would give Tilden every debatable State by large majorities. It is specially gratifying and should be a wholesome admonition to orators who forget that the people are intelligent and mean to vote unusually intelligently this year, that his foolish bloody-shirt speech, the Repub- and capable. lican vote fell off from 991 to 757, while the Democratic vote increased from 253 to centres of the country to prevent Hayes and Wheeler from carrying any one of the leading States. By and by the politicians year for winning elections by insulting the the people by inflammatory appeals to the prejudices and hatreds of the past. Vermont says so, and when Vermont so speaks ed three-fourths of the sum demanded. it is safe to expect the other States to do likewise.

HON. W. M. ROBBINS, addressed the Tilden and Vance Club on Thursday evening last. The Court House was full to overflowing with enthusiastic people, many of whom came a distance of three or four miles on foot, on horseback, and in conveyances. Enthusiastic as the meetings of the Club generally are, this evening celipsed them all. Cheer after cheer rang out from the packed concourse of voters, as their favorite Representative dealt his heavy blows at the radicals, often becoming eloquent, his warning voice thrilling the audience until the welkin rang with renewed outbursts of applause. It was ten o'clock before the Club adjourned well pleased with the proceedings.

About Tobacco.

In glancing over some fields of tobacco the other day in counties east of us, we noticed that farmers were topping the plants higher than usual this year. The idea we suppose, was to make up in the size and weight of the plants gressional Committees be requested to report something of what is lacking in numbers, but the experiment will doubtless prove to be a mistake. The leaves of the tobacco plant ac-3. That this Committee urgently ralls on the quire body and weight as they ripen, and the Conservative people of North Carolina, who favor reform in State and national affairs, to We are told that a difference of two or three leaves in the topping will make a wide difference in the time of maturing. Thus more may be lost than gained both in quality and quantity by having so many leaves on the stalk.

A farmer from the White Oak mountain, in our county, who happens to have a full crop of the weed this year, tells us that some of his tobacco is ready for the knife. He is more fortunate than any of his neighbors.

We fell in the other day with some large tobacco growers from southern Kentucky, who DULA, Candidates for Congress in the 7th Dis- informed us that the planters of that State experienced similar difficulties to those of the Virginia people in pitching their crops, and 1 15 they estimated that not more than one-half the

The plan of cultivating the plant in that State is different from that pursued in Virginia. There they make no hills, and rely upon the plow where our people apply the hoc. In cutting, they do not split the stalk after the Virginia fashion, but spike it and run the tobacco stick through the stons. In all of this they contend that there is a saving of labor and that our fine tobacco growers have something to learn in 6 this art. The quality of their product is altogether different from ours. HON, W. M. ROBBINS, addressed his constituents at Kernersville on Thursday last .-A goodly number of voters were present, and were delighted with Mr. Robbins effort. Mr. Dula was not present on account of sickness.

Mr. Robbins gave a general outline of the nonstrons corruptions of the government, going into many of the details, showing how these huge swindles were perpetrated. In many instances the very men who were convicted, at least by the people, were afterwards appointed Resolved, That in this Centennial year of our exto lucrative offices by the President, while honest officials were quietly asked to resign, as was the case of Postmaster Jewell, Secretary Bristow

and others. DR. WHEELER was present and time was courteously divided with him. Of course the Doctor pitched into Mr Ro bbins, with but poor success however, as his charges were promptly met in every case. The Doctor made a grand mistake, however, when he spoke of the U. S. Flag, and intimated that a majority of Robbins' supporters would rally round the Confederate Flag in preference to the old flag, "if they were raised up side and side." It seems to us the Doctor had better let the flag business alone, as Southern bunting. The discussion passed off pleasantly. Mr. Robhins also spoke to a large and enthusiastic crowd at Lewisville, on Friday. We learn several Revenue officials were after him, but could make no political capital as they ed, under oath, for the last three years, less hadhoped to do.

YELLOW FEVER is raging in Savannah, and notwithstanding a strict quarentine, two cases have appeared in New York, both proving fatal. One at a fashionable boarding house on Broadway, the other at a Sallors' Boarding house.

Negro Riot in Charleston S. C.

On Thursday last a most disgraceful and bloody riot occurred in Charleston, growing out of an attack of a Negro mob on a colored Tilden and Hampton Club. A few white endeavored to check the disturbance and protect the Conservative negroes, but were obliged to flee for their lives. After considerable disturbance, in which stores were robbed, windows smashed, matters quieted. This is unfortunate for the Republicans as it shows who are the intolerent and intimidating party.

The Democrats of Massachusetts nominated Chas, Fancis Adams for Governor.

Connecticut Democrats nominated Richard D. Hubbarn for Governor.

Wheeler Turns Loose.

The speech of Mr. Wheeler, the Repub lican nominee for Vice President, made at St. Albans, Vt., is rather surprising in its tone and character to both friends and foes. He slobbered fawningly all over Plymouth Rock, which might be excusable in a mere politician in the locality where he spoke, but the revilement of the South which he indulged, declaring that the North must regard the South with the same feel-" 16 average yield would be produced in Kentucky ing that it did ten years ago, was not excusable, and was quite in contrast with the temperate and conservative spirit that he showed formerly towards that section, and by which the adoption of his compromisin regard to Louisiana was brought about. The Philadelphia Telegraph, an independent sort of Republican journal, says of the Wheeler speech that it was an appeal to the passions engendered by the civil war, while it left untouched the vital issues of reform and retrenchment upon which the campaign is really being fought, and upon which it will certainly be decided. And Vance sat right down and wrote them an order for the cards. It tickled 'em powerful."

And such is the verdict of the public in favor of Zeb Vance when governor. The Radical press had as well try to drown the roar of the ocean as to smother the feeling for Vance.

Salismunt Fain.—We are glad to learn that the prospects for our next Fair, which begins Oct. 23th, are very encouraging. The Socretary is almost daily receiving letters of inquiry and notices of fine stock, machinery, &c., coming for exhibition. We trust that all our citivens, and particularly the farmers of Rowan, will bestir themselves to make this Fair a grand soccess. In addition to the rogalar Premium list a number of special premiums are offered, which we hope many of our farmers will compete for. Among these are Ose Ton of Navant Gusno, offered by Mr. J. Atlen Brown, for the best bale of cotton. \$10, by Walton & Ross, for same. A splendful plaw, offered each, by Smithdeal & Ostimell, Oranford & Heisig, and Meroney & Bro. Also an elegant Silver Medal, by the enterprising jeweisrs field & Brofor the best pair of home span and home-knit socks, made in Rowan.—Enumirer. SALISBURY FAIR,-We are glad to learn that
