THE PEOPLE'S PRESS FOR 1886.

\$1.50 A YEAR. The Press entered its thirty-third volume on January 1st, 1884.

Next week closes the 33rd volume of the Press. We wish a Merry Christmas and a Happy New Year, to all our patrons.

—Greenboro is the home of five judges and fifteen lawyers.

—Hon. O. H. Dockery is said to have been stricken with paralysis.

—Congress adjourned on Monday for the Christmas holidays.

—Rev. Cephas Bennett, a Baptist missionary, who has been in Burma since 1823, died there recently.

—The French government has made a contract with a Chicago house for two million pounds of beef.

—It is feared there will be serious trouble with the Mormons in the near future.

—B. Gratz Brown died at his home near St. Louis, on the 20th. He was on the Greeley ticket for Vice President.

The High Point Enterprise, of the 18th, is a 16-page issue. It is claimed to be the largest paper ever published in the State.

—A very bold robbery was committed in Charlotte last week. The inmates of the house were put under the influence of chloroform.

It is reported that a burglary was committed in High Point Tuesday.

—Vanderbilt, among his bequests, wills \$10,000 to the University of North Carolina, and \$100,000 to the New Dorp Moravian church, on Staten Island, N. Y., of which Rev. W. H. Vogler, a native of this place, is pastor.

—A colored man named Alexander Thomas, of Davidson county, has been sent to the penitentiary for three years for shooting into trains on the R. & D. R.—High Point Enterprise.

—Jethro Almond, the youth who robbed the mail between Salisbury and Albemarle has had his trial and been sentenced to three years in the Albany penitentiary.

—Gen. Robert Toombs died at his residence in Washington, Ga., on Tuesday, the 15th inst. The whole town was in mourning at his funeral, and the M. E. church was appropriately draped.

—On the 15th, at midnight, a railroad accident occurred on the East Tennessee and Georgia R. R., near Atlanta, killing 12 persons, fatally injuring 3, and 10 others badly wounded.

—The combined capital of the great firm of the Rothschilds is estimated by persons pretending to know at no less a sum than \$1,000,000,000, fully one-half of which has been gained within twenty-five years.

—The Rockingham Rocket again speaks of the exodus of negroes from Richmond county. Monday forty families left Lilesville for Kansas. Many from Barnett county left at the same time. Hundreds more are ready to move.

—B. W. Metts, a negro preacher, arrested on the train for robbing the satchel of Rev. W. D. Cook, col., had a preliminary hearing before Mayor Freeland at Durham, says the Reporter. The evidence as to his guilt being sufficient to warrant the action he was bound over to the Superior Court in a bond of \$200, and not giving this he went to jail.

An Enterprising, Reliable House Can always be relied upon, not only to carry in stock the best of everything, but to secure the Agency for such articles as have well-known merit, and are popular with the people, thereby sustaining the reputation of being always enterprising, and ever reliable. Having secured the Agency for the celebrated Dr. King's New Discovery for Consumption, will sell it on a positive guarantee. It will surely cure any and every affection of the Throat, Lungs and Chest, and to show our confidence, we invite you to call and get a Trial Bottle Free.

There is in session at Washington D. C., the Public Health Association of America, to which body North Carolina contributes some prominent members. The importance of the subject it considers public hygiene—is apparent at a glance. Hygiene is the ounce of prevention that makes unnecessary the pound of cure. The health of communities depends as much on adequate sewerage or proper drainage, pure air, the right construction of buildings and so forth, as on skillful medication.—Star.

CONGRESS. The House, on Friday, the 8th, after a steady six hours' session, passed the "Morrison Code of Rules," with the exception of a single important amendment, prohibiting all riders on appropriation bills. Thus Congress will have to make all the appropriations "pure and simple" for the various branches of the government as they exist.

Two bills have passed Congress. The first removes the disabilities of Gen. Lawton, and the second grants a pension of \$5,000 a year to Mrs. Grant.

There are 1,200 nominations for the confirmation of the U. S. Senate. A hot partisan debate sprang up on Tuesday and Wednesday last in the Senate over the Dakota State matter.

The territory of Dakota has been seeking admission into the Union as a State for some time. The last Congress refused admission because several counties had virtually repudiated their bonds, and the territorial government refused to be cause responsible for them. The bill now before Congress comprises about one-half of the territory and excludes the repudiating counties.

A State government has been formed, and the Democratic Senators contend that such action of the territory is revolutionary, while the Republicans contend that the organization is only preparatory to their admission as a State, and cite similar action in other territories before their admission as States. No final action.

A Remarkable Book. A remarkable book has recently been issued by the Historical Publishing Company, of Philadelphia and St. Louis, entitled, "The World's Wonders." It is a history of all the great explorations of the world, and the wonderful things seen by the explorers in the Polar and Tropical regions of the earth. The work is by the rising young author, Mr. J. W. Buel, whose books have had such remarkable success during the past few years. It has many excellent features, is highly recommended as a work of value and interest, and although issued only ten months ago, we learn from the publishers that it has already reached the marvelous circulation of 40 large editions, surpassing the record of any other book ever published in this country. It is sold by subscription only, and persons desiring employment will find the publishers' advertisement in another column of this paper.

Demorest's Magazine for January, 1886, is unusually bright and entertaining. Julian Hawthorne's story is completed, and a serial entitled "That Other Person," by Mrs. Alfred Hart, is commenced. Other good articles are "Victor Hugo," "The City of Skulls," and an "Orange Grove." "A Plea for the Jig-saw and Jack-knife" will claim the attention of those who desire to beautify their homes inexpensively. The departments devoted to fashion, art, and household decoration are very full, and the pictorial illustrations are excellent. The frontispiece, "Naughty Boy," is a new method of photogravure; and the admirers of Raphael will be pleased to see an engraving of his fine painting, "St. John in the Desert," which adorns this number.

An Excellent Paper. It seems almost unnecessary for us to call attention to a paper so well and favorably known as the Youth's Companion, of Boston. It has been for fifty-eight years a weekly visitor, and each year has shown more clearly its wonderful usefulness to the class of readers for whom it is prepared.

It would be interesting to trace its influence in the case of two families, one of which began, we will suppose, twenty years ago, to provide for their children to read, while the other furnished the more sensational publications. The contrast would no doubt prove a striking one.

Parents can give their children few things of more value and importance in their growth of mind and of character than a wide-awake, intelligent, wholesome paper into whose management the publishers put conscience and moral purpose as well as money and ability.

A party paid ten dollars for a horse at an auction sale. The horse was lame, bruised all over, had the scratches, and was terribly "galled." A bottle of Salvation Oil, costing 25 cents, was used, and in two weeks you would not have known the animal. It is now valued at two hundred dollars.

Bucklen's Arnica Salve. THE ILLUSTRATIONS Will be kept up to the standard which has been set by the engravings famous the world over.
