

The Press entered its thirty-fifth volume on January 1st, 1857. It will be our endeavor to make the Press more interesting and entertaining than ever.

The Charlotte Chronicle, we are pleased to say, makes its welcome visit to our regular every day.

Mrs. Cleveland has been elected a trustee of Wells College, she being one of the first two women chosen to direct the affairs of the institution.

Jake Sharp, of New York, has been convicted of bribing the Aldermen, but sentence has not yet been passed. He is said to be a very sick man.

Three of the honors at Yale College this year will be taken by a Chinese student, Yan Phou Lee, of Fragrant Hill, China.

Georgia's census of 1886 shows that the colored people of the State own 802,935 acres of land, and their property is valued at \$8,955,298.

Governor Hill has signed a bill passed by the Legislature prohibiting the use of stoves for heating passenger trains on the railways in New York State.

William Bullis, of Glens Falls, claims to have discovered a mountain of coal in Warren county, N. Y., in the vicinity of North Creek.

At Watertown, Wis., the entire plant of the Chicago, Milwaukee & St. Paul rolling mills were burned. Loss \$150,000. Two hundred men are thrown out of employment.

Ten thousand dollars' worth of gambling instruments seized during the past eight months by the police of Atlanta, Ga., were publicly broken up and burned in the principal thoroughfare of that city.

Jay Gould has bought 33 1/2 acres of land bordering on the Mt. Vernon estate and given it to the Association. It seems that the land was needed to protect the estate from encroachment. It is not known what price he paid.

A fire broke out in the tobacco quarters of Louisville, Ky., Saturday morning, burning two acres of buildings and their contents. Loss estimated at \$500,000.

Eighteen French silk weavers, who were landed at New York, have been ordered back to France under the act prohibiting the importation of contract labor.

It is stated that a thousand hogs were recently burnt in a fire in a large packing house of the Chicago Packing and Provision Company.

The memorial shaft raised by the efforts of the ladies of Charlotte in memory of the soldiers who sleep in the Charlotte cemetery, was unveiled with appropriate ceremonies, Thursday, 30th ult.

The BLUE AND THE GRAY.—A reunion of the Northern and Southern armies at Gettysburg, Pa., took place on the 2nd, 3rd and 4th days of July. Letters from President Cleveland and John Sherman were received, excusing their absence. Patriotic speeches were delivered and the occasion passed off pleasantly.

THE HOT BLAST.—We have received a number of the daily Hot Blast, with which E. A. Oldham, late of the Winston Standard, is connected, in which he is cordially welcomed to his new home and associations in Anniston, Alabama. It is an ably conducted paper.

THE DAILY MESSENGER, of Wilmington. It is a large 48 column paper, and no doubt will prove a success in every way.

MEETING OF TOBACCO SMOKERS.—A meeting of tobacco smokers was held in Greensboro on Saturday, the object being to call a State Convention of those interested in the tobacco business and to name the place and date of said convention. Morehead City was unanimously decided on as the place of meeting and the 17th day of August was fixed as the date.

A CRANK ARRESTED.—On the 2nd inst., the Washington police took into custody Benedict Krebs, a crank, who is under the impression that the President has defrauded him of a vast sum of money, and who has been threatening to kill President Cleveland with a shot-gun when he attends church. Krebs is held at the station for medical examination of his mental condition.

MONTGOMERY, Ala., June 24.—A special from Auburn reports the burning of the State Agricultural and Mechanical college, with the chemical laboratory and other apparatus. The building originally cost \$60,000. The insurance was \$30,000. A new building will be erected at once.

CHICAGO, July 1.—A dynamite bomb, fully charged and with the fuse burned to within a quarter of an inch of the shell, was found under Judge Baker's desk in the criminal court-room last Tuesday evening. Court officials and all the other authorities about the court-building are bewildered at the thought of what diabolical villainy was contemplated by the man who placed the murderous machine where it was found. The matter has been kept quiet for the purpose of investigation.

HAPEENINGS IN THE STATE.

On Thursday of last week, Gov. Seales delivered the annual address at Wilson Collegiate Institute.

Illioit distillers are having a grievous time in Person and Durham counties. Several stills were captured.

The Chester and Lenoir narrow gauge railway, in this State, has been assessed at the rate of \$3,500 per mile.

Benj. Legrande (col.) was shot while in his house in Richmond county. The shot was fired through the window and is thought to be fatal.

There is to be a great deal of building and other improvements at Southern Pines, the new winter resort, the coming autumn. A large hotel is to be erected. The feature of Southern Pines is the cottage life. Northern people own the lots to the number of over three hundred, and build their own houses.

At the Penitentiary 28 granite pillars are being cut to mark the boundary between Virginia and N. Carolina. They are large and handsome. On the pillars are the latitude and longitude, the names of the commissioners and surveyors who made the original survey and of those who made the recent survey; also dates of both surveys.

The Carthage railway is being rapidly constructed. The convicts are now in a couple of miles of that place. The road is practically certain of extension via Parkwood (where there are very large and valuable mill stone quarries) to the line of Randolph county.

News has been received of a remarkable shooting affair in Ashe county. Two children of Jacob Miller, aged ten or twelve years, were left at home while the family went to church. The children found revolvers and agreed that they would fight like men. They took aim at each other and pulled triggers. One revolver was discharged and the bullet entered the eye of the elder girl, inflicting probably a fatal wound.

Colonel Wharton J. Green, the owner of the Tokay vineyard, one of the largest in the country, says the prospect of a full crop of grapes is as good as he has ever known it. His vineyard is near Fayetteville, but is on rolling ground. Grapes do not do well on level lands. About Raleigh the grape prospect is good. Shipping will commence in a few weeks.

Senator Vance's address at the unveiling of the Confederate monument, last week was in the very best style, say those who heard it. Last Monday was the grand reunion of his old company, in the days when he was Captain Vance. This reunion was held at his picturesque castle, seat "Gombroon," under the shadow of Black Mountain. It will be pathetic, for of the 107 men in Rough and Ready Guards who composed the company, only 17 can answer roll call. Many other people will attend. Senator Z. B. Vance spoke, and he and his charming wife served a good old fashioned dinner in hearty style. No reunion anywhere was more pleasant.—Chronicle.

As to the Southern connections of the Roanoke Southern, nothing has yet been done. It is known the charter for its passage through North Carolina, passed by the last Legislature, has been accepted by the N. C. stockholders, and a full organization and consolidation with the Virginia Roanoke and Southern has been effected. The officers and terms of consolidation have been published a few weeks since. The survey will commence in the near future.

The above is the general opinion expressed in the papers of interested localities.

Midland Railroad. Pursuant to previous notice the stockholders of the North Carolina Midland Railroad Company met in Greensboro in annual session on Wednesday, with A. Leazer in the chair, David Schenck, Secretary, and discussed at great length the subject of building the N. C. Midland from Leaksville, via Winston to Mocksville, in Davie county. A delegation from Rockingham, Forsyth and Davie were present, looking to the interest of their respective counties. Pending the discussion, Col. A. B. Andrews appeared for the Richmond and Danville R. R. Company—said company owning a controlling interest in the stock—and said that his company could not hold out any further hopes for the completion of the road from Leaksville to Winston, whereupon the stockholders after some discussion resolved to build and equip the Midland road from Winston to Mocksville at once. The following gentlemen compose the board of directors elected for the ensuing years: Alfred Sully, T. M. Logan, A. B. Andrews, D. Schenck, John Fries, John M. Galloway, A. Leazer, George Scott, J. Turner Morehead, J. C. Pace and W. C. Wilson.—News and Observer.

The probability is that work will be commenced on the Midland and Wilkesboro Railroad in August.

FRUIT SALES.—Notwithstanding the shortness of the peach crop, Mr. J. Van Lindley has reaped a better revenue from peaches this year than he did last year, realizing in one week \$200 on peaches shipped to Richmond, and obtaining for 34 crates \$2 to \$2.50, for which price obtained last year was 60 to 65 cents. For wild goose plums, 8 lb. baskets, the price obtained is \$1 to \$1.25. Mr. Lindley's plan is to have all defective fruit picket up and the worms destroyed as soon after the fruit falls as possible, because if the worms be permitted to take refuge in the ground they multiply for future generations. By the care thus early and promptly bestowed, Mr. Lindley is enabled to have a greater abundance of fruit than any other grower in his section.—Greensboro Workman.

There is an epidemic of measles at Port St. Charles, Canada. At least five hundred cases have been reported.

A Creaking Hinge

In dry and turns hard, until oil is applied, after which it moves easily. When the joints, or hinges, of the body are stiffened and inflamed by Rheumatism, they cannot be moved without causing the most excruciating pains. Ayer's Sarsaparilla, by its action on the blood, restores the condition, and restores the joints to good working order.

Ayer's Sarsaparilla has effected, in our city, many most remarkable cures, in cases which baffled the most experienced physicians. Were it necessary, I could give the names of many individuals who have been cured by taking this medicine. In my case it has worked wonders, restoring me of Rheumatism.

After being troubled with it for years. In this, and all other diseases arising from impure blood, there is no remedy with which I am acquainted, that affords such relief as Ayer's Sarsaparilla.—E. H. Lawrence, M. D., Baltimore, Md.

Ayer's Sarsaparilla cured me of Gout and Rheumatism, when nothing else would. It has eradicated every trace of disease from my system.—E. H. Short, Manager Hotel Belmont, Lowell, Mass.

I was, during many months, a sufferer from chronic Rheumatism. The disease was so violent, that I could not get up. I tried every remedy I could find, until I commenced using Ayer's Sarsaparilla. I took several bottles of the preparation, and was speedily restored to health.—J. Freeman, Independence, Va.

Ayer's Sarsaparilla, Prepared by Dr. J. C. Ayer & Co., Lowell, Mass. Sold by all Druggists. Price 25¢; six bottles, \$1.50.

TERRIBLE DROUGHT. Alarming Condition of Affairs in Illinois and Wisconsin—The Crops Literally Destroyed for want of Rain—Great Suffering Among the People.

CHICAGO, July 1.—A local paper says no such drought as now prevails, has existed in Illinois and Wisconsin, for many years. The roads are ankle deep with dust, pastures are brown, and the leaves on the forest and shrubbery shriveled up, and each hot breath of air from the cloudless sky drives them away in showers. Creeks have run dry, and the water in the larger streams is at a lower stage than was ever known before. There has not been a soaking rain in this part of the country since May. Two showers in April and one in May and June, had but a temporary effect on crops. Stunted yellow spears, bending disconsolately over immense beds of dust, are the only evidence that the farmers planted any corn this year. The leaves of the fruit trees are falling off, and fruit, which promises to be plenty, is withered and dried to the stem. Raspberry bushes look as though they were producing a crop of shot, so infinitely small and hard are the berries. The drought has become so terrible that public prayers are being offered for rain. The fences along the country roads and the dead walls of the villages are plastered with huge bills calling for special services at the district school houses and churches. Fires are burning in the woods, and the pastures for miles around are scorched. The farmers have lost many cattle in these fires, which seem to spring up in a dozen places at once. Reports from all parts of Henry and the adjoining counties tell of intense suffering from the drought. The drinking water in many towns has been polluted, and the white beds of the creeks are covered with decaying fish. The drought in the northern and central tiers of counties of Illinois is not any more serious than it is in Wisconsin. The Badger State is literally burning up, and the fruits and crops are nearly destroyed. Reports from northwestern Iowa state that the drought has been broken.

Earthquakes. COSTCOOK, N. H., June 30.—A shock of earthquake was felt in this vicinity at 5.10 afternoon, jarring every thing perceptibly. The shock lasted about 5 seconds, moving from east to west.

CONCORD, N. H., June 30.—One of the most distinct shocks of earthquake ever experienced here was felt at 5.09 o'clock this afternoon.—There were several distinct vibrations, cracks and windows rattled and heavy buildings perceptibly jarred. In some instances persons ran from their houses through fear. The shock at the Statehouse was so severe that several legislators and others sought safety from impending danger in flight. The course of vibrations came from the Northwest, and reports from surrounding towns show that the shock was felt as strongly within their limits as in this vicinity.

GUAYAGUIL, Mexico, via GALVESTON, June 29.—The most violent earthquake experienced here since 1858 occurred at 12.15 P. M., causing great alarm among the population. The shock lasted two minutes and twenty seconds. Buildings were thrown down.

TERRIFIC GAS EXPLOSION.—RUTLAND, Vt., June 30.—A terrific gas explosion took place this morning in the millinery store of Mary B. Sullivan. She went to her store and lit a lamp, when the explosion occurred, blowing the windows down and the goods into the street. The interior of Rutland county bank was badly damaged. The locks of front doors of stores not opened, were blown off and found 15 feet away.—Several persons in the streets were thrown down, and one person was badly cut by flying glass.

LOUISVILLE, Ky., June 25.—Gen. Jas. Speed, Attorney-General under President Lincoln, died in St. Louis on June 25th.

A Gift For All. In order to give all a chance to test it, and thus to convert it into a wonderful curative power, Dr. King's New Discovery for Consumption, Coughs and Colds, will be, for a limited time, given away. This offer is not only liberal, but shows our unfeigned faith in the merits of this great remedy. For all who suffer from Coughs, Colds, Consumption, Asthma, Bronchitis, or any affection of Throat, Chest, or Lungs, are especially requested to call at Dr. V. O. Thompson's Drug Store, and get a Trial Bottle Free, Large Bottles \$1.

Headquarters!

S. E. ALLEN,

CORNER 3rd AND MAIN STREETS, WINSTON, N. C.

HARDWARE, CROCKERY, AGRICULTURAL IMPLEMENTS,

GLASSWARE, LAMPS, &c.

AGENT FOR

Champion Mowers, Reapers and Binders, Farmer's Favorite Grain Drill, Farmer's Favorite Corn Stove, Fairbank's Standard Scales, Longman and Martinez strictly pure prepared Paints, King's Great Western Powder Company's Powder, Hercules Powder of Dynamite, Leader Corn Shellers, Victor Case Mills, Cardwell Threshers and Horse Powers, Farmer Friend Plows, &c.

STOCK

Consists of a full and complete line of a goods usually kept in a first class

HARDWARE AND CROCKERY STORE.

Iron, Nails, Horse and Mule Shoes, Steel Axes, Carriage and Wagon Makers Tools and Material, Builders Tools, Material and Hardware, Locks, Hinges, Butts, Screws, Sash, Doors, Blinds, &c.
