The Pennsylvania State Poultry Society has been organized, with headquarters at Harrisburg.

King Kalakaua is writing articles on the labor problem of Hawaii for the San Francisco Examiner.

The Federation of Miners which met at Bristol, Eng., has 127,000 members. They talk of working only five days a week.

The place for holding the next annual meeting of the National Farmers' Alliance has been changed from Washington to Indianapolis.

The experiment of shipping to England Canadian eggs, which have been shut out of the United States by a duty of 25 cents per dozen, has been very successful.

The Michigan Grange is in open revolt against the National Grange on account of the stand taken by the national organization in indorsing the proposition for Government loans on real estate.

The Farmers' Alliance of Arkansas, Kan., the home of Senator Ingalls, at a recent meeting adopted resolutions recommending the retirement of Mr. Ingalls from the Senate, and the election to his seat of a Farmers' Alliance man.

The reports emanating from Chicago that the newly formed harvest trust will fight the twine trust and thus give the farmer cheap twine are laughed at by Alliance men. The exactions of the twine trust in the past and the well known fact that they have always absorbed a large part of the cost of twine to the consumer give the farmers no reason to expect cheap twine from this new consolidation.

TELEGRAPHIC BRIEFS. The census shows \$850,000,000 in farm mortgages.

We still have in America 998,216,861 acres of "idle land."

Indiana fruit growers held their thirtieth convention last week.

A \$300 fire occurred in one of the Senate committee rooms of the United States Capitol on Monday.

A gigantic labor organization, the United Building Trades Council, is in process of formation at Chicago.

The Virginia debt settlement plans have been approved by the advisory board and the bondholders' committee are confident of success.

After a full week's work a jury has been secured in the trial of Frank K. Ward, of Washington, on trial for the murder of Maurice Adler a year ago.

Cholera is reported in Guatemala. Twelve hundred deaths occurred in Guatemala city in seven weeks. Twelve thousand cases are reported in the State.

A heavy flow of natural gas has been struck in Pittsburg in the well being drilled by the Exposition Society in that city. There is much jubilation over the event.

The freezing of the ground in Chicago caused a pressure which so narrowed the slot above the cable in the street car lines that the grips became wedged and the trains were unable to run.

An ice famine is reported from the Isthmus of Panama. A company recently started an ice factory at Colon, but the machinery broke down and now, in the middle of the heated term, ice commands \$100 per ton.

Moses H. Devey, a riveter at Rose's shipyard, at Chester, Pa., is one of the three who is heir to an estate in Staffordshire, England, valued at something over \$5,000,000. He has received notice that his chance is good.

Mr. Gladstone is arranging for a grand family gathering at Hawarden for the Christmas holidays, and, incidentally, the guests will celebrate his birthday anniversary. The Grand Old Man will be 81 years old on the 28th inst.

The New York stock market opened this week very dull. The great feature of the market, however, was the sharp advance in silver certificates, which was stimulated by the late talk of silver legislation and other schemes to utilize that metal.

The Indians are fighting among themselves in the Bad Lands of South Dakota. Two Strikes and his followers circled around Short Bull and his followers all the forenoon, skirmishing, each leader bound that his supremacy as chief of the whole band should be acknowledged.

Madame Kartoff, a member of the most aristocratic circle in Russia, was found dead in her residence in Moscow. All the evidence points to a murder, and it is believed that the crime was committed by nihilists. Madame Kartoff was immensely wealthy, but nothing was stolen from her residence.

Representatives of the Confederation of Farmers' and Laborers' Organizations of Illinois, including the State Grange, Patrons of Husbandry, Farmers' Mutual Beneficial, Farmers' Alliance, and Knights of Labor, held a secret conference at Springfield, and resolved to make a united effort to elect a practical farmer to the United States Senate.

Swallowed by Mother Earth. John Shermidit, while hunting on Daniel Baker's farm, north of Springfield, Ohio, stepped onto a little knoll, when the ground gave way, and he was precipitated into a cave 18 feet deep and 20 feet square. He was imprisoned in it a day. His cries attracted the attention of a passing dog, whose strange demonstrations brought people near by to the accident. A rope was attached to a trowel, covered with rust, were found in the cave. How they got there is a mystery.

An Historic Letter. General Hamlin has contributed to the Maine Commandery of the Lyell Legion the letter from President Lincoln to Hon. William H. A Novel Announcement.

The publishers of the Youth's Companion have sent us a handsome Souvenir with the announcements of authors and articles for the next year's volume. It has seven illuminated pages, one for each day in the week very quaint in style, the whole forming a "Book of Days" and each page illustrating a line of the old rhyme:

Monday for Health, Tuesday for Wealth, Wednesday the Best Day of all; Thursday for Losses, Friday for Crosses, Saturday No Luck at all; Sunday the Day that is Best With Heavenly Peace and Rest.

This novel and unique Calendar is sent free to all New Subscribers to The Companion who send \$1.75 for a year's subscription and request it at the time they subscribe.

The Companion will also be sent to January, 1891, free, and for a full year from that date, including the Five Double Holiday Numbers and the Illustrated Weekly Supplements. The Companion is already a favorite in half a million homes, and old as well as young enjoy its weekly visits.

COUGHING—ITS CAUSE AND CURE.

Coughing is an involuntary effort to expel irritating matter from the lungs or bronchial passages, and is, therefore, as necessary, at times, as vomiting is to relieve the stomach of indigestible or poisonous substances. As a general rule, when the stomach is unburdened to its contents, the tendency to coughing ceases. Not so with bronchial irritation, the effect being liable to remain long after the primary cause has been removed.

The reason of this is that, in the acts of coughing and expectoration, the mucous coating of the throat and air passages becomes inflamed and congested; consequently the inclination to cough and expectorate still continues and the delicate tissue of the fauces are further irritated.

The great danger of a severe and protracted cough is in the liability either to administer, first, an expectorant to rupture a congested blood-vessel or to cause an irritation and soreness that may result in ulceration of the lungs.

The obvious course of treatment is to administer, first, an expectorant that will assist in loosening and bringing away the phlegm; and, secondly, an anodyne to soothe the inflamed and irritated membrane, and to relieve the two-fold purpose is the design of all cough-cures; but the danger with most of them is that they are so cloying to the stomach, that they seriously interfere with the process of digestion; consequently, in the effort to cure one complaint, the patient is liable to contract another.

What, then, is best to be done? The answer is: Take a medicine that is both an anodyne and an expectorant—one which loosens the phlegm and soothes the irritated membrane, but does not interfere with, or endanger, the regular functions of any other bodily organ.

Can such a remedy be found? We reply unhesitatingly, it can—in Ayer's Cherry Pectoral. For more than forty years this preparation has been in use, and it is without doubt, the safest and most efficacious of all cough-cures. That it is so estimated by the public is evident from the fact that no other preparation of the kind is in such universal demand. As a family medicine, for cases of croup, whooping cough, sore throat, bronchitis, and the sudden pulmonary troubles to which children are exposed, Ayer's Cherry Pectoral is simply invaluable.
