THAYER'S PATENT BRIDGE.

A NEW and valuable trestle Bridge has been patented by Mr. G. W. Thayer, of Massachusetts, which will be found to be an important invention. The amount of strength attained by the structure is spoken of as being wonderful. The inventor feels confident that no weight which could be placed upon it, could break it down. This consideration, taken together with the economy with which it may be built, will render it worthy the attention of all who are interested in the subject. This bridge is adapted peculiarly to Railroads as well as county roads, as it can be made of any required span, so as not to obstruct the navigation of streams when rafts or boats might be desired to pass, and can also be built at a very moderate expense. ISAAC WELLS, Wilmington, N. C., is Agent for this State, as also for South Carolina and Virginia, and will attend to all communications upon the subject addressed to him, post paid. Wilmington, N. C., Aug. 8th, 1851 48-1y
