

For Congress,  
HON. WM. S. ASHE.

Mr. Hon. WILLIAM S. ASHE, will address his friends at Holly Shelter, New Hanover County, on the 15th inst., and at Chesapeake, Duplin County, on the 16th of the present month.

PRESIDENT PIERCE'S VISIT TO NEW YORK.—The President arrived in Baltimore on the afternoon of the 11th inst., en route to New York, to be present tomorrow, at the coronation of the Crystal Palace. His reception by the Baltimoreans was of the most enthusiastic nature. Preparations had also been made in Philadelphia for a warm reception in that city.

Two Weeks Later From California.  
The steamer Illinois arrived at New York on Monday last, bringing dates from California to the 16th June. 569 passengers, and \$1,835,714 in gold on freight, and a considerable amount in the hands of passengers.

The weather in California had been very warm, the thermometer ranging, in the shade, from 98 to 107. The mining intelligence from all quarters was of the most cheering character. The markets were active, and some articles had improved in price.

The duel between Messrs. Gwynn and McCorkle had terminated without bloodshed. Three ineffectual shots were fired, when the matter was satisfactorily adjusted.

A duel was fought on Saturday morning near Mission Dolores between Edward Tobey, Clerk to the Assistant Alderman of San Francisco, and Dr. Alfred Crane, late of Alexandria, La. On the second fire Crane was shot through the body and died on Sunday.

On Friday, the 10th ult., a duel was fought near San Francisco between Thomas Hayes, Assistant Alderman, and John Nugent, Editor of the San Francisco Herald, with pistols, at twenty paces distance. On the second fire Nugent was wounded, and when the steamer left was considered in a critical condition.

LATEST FROM CHINA.—The ship Pathfinder had arrived with Hong Kong (China) dates of April 27th, and Shanghai dates of April 15th. The capture of Nankin and subsequent defeat of the rebels is fully confirmed. The Hong Kong Herald gives the details of various cruelties practiced by the insurgents. They were making an indiscriminate slaughter of the Buddhist Priests, as well as of the Manchows. At Nankin they entered 700 Manchow women into one building, and then set fire to it, reducing the whole to ashes. They also pressed every Chinese between the ages of 15 and 45 into the army, killing the children as useless, and making the women cooks and scullions. At Nankin the leader of the rebels had been crowned Emperor.

Fears were entertained at Canton that the rabble would rise on learning the success of the rebels. The Register advises foreigners to prepare for any emergency. The exportation of rice had been prohibited in some districts.

A letter from Hong Kong, April 24th, states that Com. Perry was about to proceed to Japan at once with the Mississippi and Saratoga. This had caused some uneasiness among the Americans as it would leave them comparatively unprotected. He would not wait for the rest of the squadron.

Supreme Court.

Among the recent decisions are the following: In den ex dem Skipper vs. Lennon, from Brunswick, declaring that there is error in the interlocutory order. In Ward vs. Ward, in Equity from Onslow, directing a reference to the master. In McLean vs. McDaniel from Bladen, reversing the judgment below. In DeCoursey, Lafourche & Co. vs. Barr, in Equity, from New Hanover, declaring the second mortgage not valid. In State vs. Groves, from Sampson, directing a venire de novo. In State vs. Jacobs, from Richmond, reversing the judgment below. In State vs. Locklear, from Robeson, directing the judgment to be affirmed. Also, in Wright vs. Crist, in Equity, from Cumberland, declaring that the motion to dissolve ought to have been allowed. Also, in State vs. Wilmington and Manchester Railroad Company, directing the judgment to be affirmed. Also, in the State vs. Willis, from Craven, declaring that there is no error in the proceedings of the Superior Court. Also, in Green vs. Allen, from Brunswick, setting aside the non-suit and directing judgment for plaintiff.

FROM THE BRITISH PROVINCES.—By late provincial papers we learn that the Boston packet schooner General Washington was seized at Halifax, on the 24th ult., on a charge of smuggling, and was hauled to the Queen's wharf on Saturday, after the refusal of the agent to pay a fine of 50 or £60 imposed upon the vessel.

The British frigate Leander arrived from New York on the 30th ult., and sailed on the 2d inst. for Quebec.

The fishery fleet had sailed from Halifax for the Straits of Belleisle and the Coast of Labrador.

VISITS OF THE PRESIDENT TO THE DEPARTMENTS.—It is stated in the Republic that President Pierce pays weekly visits to the Departments, drops into the offices of the heads of bureaus, and so far as his time will permit, makes himself acquainted with the business and practical operations of the several coordinate branches of the Government—a practice which everybody will commend, and which will lead the people to believe that he will endeavor to "take care that the laws be faithfully executed."

ORIGIN OF GEORGETOWN, D. C.—The origin of Georgetown, D. C., having been brought into question, at a late meeting of the Pennsylvania Historical Society, Rev. Mr. Balch stated that the land on which it is situated was a part of a large tract granted by Lord Baltimore, shortly after his arrival, to Ninian Beall, for his services against the Indians. It was granted by act of Assembly, and parts of it were even now in the possession of his descendants. His son, Col. George Beall, was the founder of Georgetown, and lies buried in the old churchyard. Many of the local names, &c., such as Beall street, are taken from his family. Ninian Beall built in part "Dumbarton," on Georgetown Heights, now the seat of Col. George C. Washington, to whose wife it came wholly by descent, and, as is said, without a deed occurring. The Rev. Dr. Balch, who married the great grand daughter of Ninian Beall, also received, by his wife, a portion of the original property in the same way.

**Fraud in the Treasury.**  
We have referred several times to the allegations of gross frauds on the treasury perpetrated by prominent politicians during the late administration, which called for investigation and reformation by those now in power. It is due, not only to those implicated in the allegations, but it is due to the public interests, that such charges should be scrutinized and exposed, if true, or that the parties implicated should be acquitted and relieved of the odium resting on them if innocent. A correspondent of the New York Times gives the details of one of these allegations, which implicate the Hon. T. Butler King, wharf collector at San Francisco, in transactions of gross fraud. The following is his account of the matter:

"One item in the accounts of T. Butler King, amounting to a very large sum, was for lighterage of goods passing through the custom-house. It may be well to state that when the goods were lighteraged under custom-house order, the lightermen were paid their charges by the collector, and the amount was charged against, and collected from, the owners, respectively, of the lighteraged goods. Of course, then, the books of the custom-house should show the collection from the merchants for lighterage of a sum exactly corresponding with that paid to the lightermen. Unfortunately, there is a discrepancy in these two items amounting to \$74,396. The following table will show the amounts charged upon Mr. King's books as paid to Shelden and Safrens for lighterage, beginning with the first quarter of his term of office:

Quarter ending March 31, 1851	\$5,077 21
Do do June 30, 1851	35,677 00
Do do Sept 30, 1851	40,000 00
Do do Dec 31, 1851	25,600 00
Do do March 31, 1852	5,900 00
Do do June 30, 1852	5,670 00
Total,	118,921 21

The extraordinary increase of lighterage charges during the first year of Mr. King's administration (when, in consequence of the continually-increasing facilities for discharging vessels alongside wharves, it might be reasonably supposed the amount of lighterage would have been reduced) seems to have alarmed the Treasury Department, and a letter was addressed to the collector demanding the reasons for so extraordinary an increase in this item of expenses, and directing its reduction by all means. The charges of lighterage during the remaining two quarters show a falling off in the amount, as will be perceived, no less remarkable than the sudden increase.

The fact that there was an astounding discrepancy between the amount charged the government as paid for lighterage, and the amount collected from the importers on that account, came under the notice of the storekeeper of the port. This officer instituted an investigation of the discrepancy, and upon looking at the lightermen's account, left in the custom-house as a voucher for the amount received by them, he ascertained that part of the last page of their account, as originally made up, containing their receipt and signature, had been cut from its proper place—that page after page of fictitious charges had been added, new footings entered up and carried forward, until they had reached the immense sum named, and that then the past page, containing the receipt and signature as aforesaid, was appended to the accumulated account! This fact is positively asserted by a gentleman whose official duty it was to know the condition of the custom-house books in this regard. He states further, that he brought these facts to the attention of Mr. King, who, greatly agitated, inquired what he should do. His fellow-officer expressed his utter inability to aid him in the matter, casually remarking that if it was his own case, he should wish the building to be run down, that all evidence relating to the subject might be destroyed.

"The next day, strange to say, on looking for the mutilated papers, no trace of them could be found; nor have they since ever been heard from. Fortunately for the public interest, the storekeeper had made copies of the missing papers, which are now on file in the Treasury Department."

**SOW CORN AND PEAS.**—As the supply of provender is likely, indeed certain, to be deficient, in consequence of the drought, we would respectfully suggest to planters to sow Corn and Peas in the drill; and with favorable seasons, they may succeed in raising an abundant supply of good, wholesome provender for their stock.—*Chron. & Sent.*

The Hon. Jos. P. Caldwell, died at his residence near Statesville on the 30th ult., in the 44th year of his age, after a short illness.

The New York Battery at night, it is said, is filled with loafers, thieves, and ruffians of all sorts. It is no longer a place of resort to respectable people.

The name of the Post Office in Montgomery county, heretofore called McCallum's Store, has been changed to Pekin.

There is also a new weekly mail to Elizabethtown on the East side of the Cape Fear River, via Terebath, (B. Culbreth, P. M.) Deseret, (Dr. T. Smith, P. M.) and White Oak, (W. S. Melvin, P. M.)

**Testimony of Captain Canot.**—Extract from a letter written to Mr. Stockbridge, of Fountain Hotel, Baltimore, by Captain Canot, brother to the celebrated physician to the Emperor of France:

"You may inform Messrs. Mortimer & Cowbray that they are at liberty to make use of my name in the support of the good effects of Dr. Hampton's Vegetable Tincture, as it has cured me in five weeks, of a Chronic Inflammatory Rheumatism, contracted under tropical climates, and of seven years' periodical duration. I have only used three bottles, and find that even the deformed parts of my hand are fast returning to their former natural appearance.

"I have been under the treatment of several physicians in London and Paris, without any apparent benefit; also, while in New York, having tried the Thompsonian and Homoeopathic remedies after having been tormented with galvanic batteries, cold and aromatic baths, and internal and external remedies, all to no effect, I am, so far, cured by this Hampton's Vegetable Tincture only. Therefore, my dear sir, accept of the assurance of my gratitude, and believe me your well-wisher."
