W. H. BENTLEY'S BENEVOLENCE.

We do not think a person can, in a more benevolent spirit of character than being moved by the distress and suffering of others, and furthermore, anxious to do all in his power to alleviate by every possible means human suffering.

In view of the case, we do not know how the humane and benevolent can do an action more in accordance with their philanthropic views, than by calling the attention of their friends and acquaintances to the fact, that Dr. S. H. HARRIS, of the Baltimore street, Baltimore, Md., has discovered a preparation, which is put up in the form of a pill, that has a specific action for curing Epilepsy, or falling fits, spasms, cramps, and all forms of nervous diseases.

Among those who have been permanently cured, we might mention a member of the family of James H. Beadle, Huntsville, Alabama; Mr. M. P. Schlegel, Cahoon Point, Surrey County, Va.; and Mr. W. P. Ligon, Grenada, Mississippi.

We might give an enumerating number of others, but we have not space to do so. We have only room to say that we have had entire relief of our sufferings, and we think we have sufficient to satisfy every person that the subject under consideration is one of vital importance to every one who is afflicted with these diseases.
