Weakness of the system, Nervous Debility and premature decay generally arise from the Destructive habit of youth, that solitary practice so fatal to the beathful existence of man, and it is the young who are most apt to become its Victims from an ignorance of the dangers to which they subject themselves. Who have min. Itemselves by a fiertain Practice induled in when slone, a bash frequently learned from evil companious, or at as health frequently learned from evil companious, and it not cured, renders marriage impossible, and destroys lath mind and body, should apply immediately. What a pity that a yes ing man, the hope of his country, and the darling of his parents, should be scatched from all prospects and empyments of life, by the consequences of deviating from the path of nature, and including it a certain secret hand. Such pursons before contemplating a marriage, should reflect that a sound mind and body are the most necessity requisites to promote commutal happiness. Indeed, without these, the journey through life becomes a weary pigniness, the prospect hourly darkens to the view; the mind becomes shadowed with despair and filled with the melancholy reflection, that the happiness of another becomes blighted with our own.
