FORCE AND LIFT PUMPS.

THE FIRE ENGINES manufactured by Cowing & Co.,
I New York, are being generally introduced, as they are
admirably adapted to the purpose for which they are intended
—speedy action and efficient service, in time of Fire. They
are so light as to be readily brought into requisition by a
small force; and will, with six men, throw a five-eighth
stream of water 120 feet horizontally, or over any ordinary
three-story building. They weigh only about 200 fbs.; are
constructed of the best and most dyrable materials; work
with or without suction, and do not cost more than one-eighth
the price of large machines.

The Force and Lift Pumps, together with the "Garden or
Fire Engine," from the same manufacturers, are all excellent articles, cleap, durable, and warranted to give entisfaction. These Pumps can be furnished with from Lead or
Wood Pipe—the latter preferable where water is required
for drinking. The Force Pumps, with the power of one
man, will throw water 30 feet perpendicularly, or 75 feet
horizontally.—The Garden or Fire Engine will do the same
—either constituting an efficient protection in cases of fire
near where they are situated. No lot, where water can be
had, should be without a Force Pumps or Engine. We are
prepared to supply any description of Pumps for Rail Read
Stations, Factories or corporation purposes, on short notice,
and will furnish Suction and Leading Hose of Rubber or
Leather, of any size required, for Vire Engines or Force
Pumps.

NO MERCURY OR NAUNEOUS DRUGS USED.

Membor of the Royal College of Surgeons, London, Graduate from one of the most eminent Colleges of the United States, and the greater part of whose life has been spent in the first flowly tal of London, Paris, Falindelphia, and showhere, has effected some of the most astonishing cures that were ever known, many troubled with ringing in the head and ears when asing, gre sinet-vousness, being alarmed at sudden sounds, and basifulness, with frequent blushing, attended sometimes with derangement mind, were cured immediately.

When the misguided sand impredent voisny of pleasure finds he has imbibled the seeds of this painful disease, it too often happens that en ill-timed sense of shangs, or dress of discovery, deters him from applying to those who from education and respectability, can alone befriend him, delaying till the constitutional symptoms of this horrid disease make their appearance, such as ulcerated sore throat, diseased near, monturnal pains in the head and limbs, dismoss of sight, deafures, nodes on the shin bones, and arms, blotches on the bend, face, and extendities, progressing with frightful rapidity, till at last the palate of the mouth in the bones of the nose fall in, and the victim of this aveful disease becomes a horrid object of commisseration, till death pain a period to him deraddul sufferings by sending lisen to "that bourne from whence no traveler returns." To such therefore Dr. John-

the bones of the ness fail in, and the victim of this awful disease becomes a horrid object of commisseration, till death puts a period to his dreadful sufferings by souding them to "that bourne from whence no traveler returns." To such therefore Dr. Johnston pledges himself to preserve the most inviolable secresy, and from his extensive practice in the first hospitals in Europe and America, he can confidently resonments a safe and speedy cure to the unfortunate victim of this horrid disease.

It is a melancholy fart, that themsands full victims to the dreadful disease, owing in the unadifictions of ignorant presenders, who, by the use of that dreadful poison, mercury, ruin the constitution, and either send the unfortunate sufferer to an altimety grave, or else make the residue of his life misserable.

Dr. J. addresses all those who have injured themselves by private and improper indigencies.
