Organic Weakness

musediately cured, and full vigor restored.

This disease is the penalty most frequently paid by those who have become the victims of improper indulgences.—Young persons are too apt to commit excesses from not being aware of the dreadful consequences that may ensue.—Now, who that understands the subject will pretend to deny that the power of Procreation is lost sooner by those falling into improper habits than by the prudent. Besides being deprived the pleasure of healthy offspring, the most serious and destructive symptoms to both body and mind arise.—The system becomes deranged, the physical and mental powers weakened, nervous debility, dyspepsis, palpitation of the heart, indigestion, a wasting of the frame, cough, symptoms of consumption, etc.

Nervous Debtility.

Weakness of the system, Nervous Bebility and premature decay generally arise from the Destructive habit of youth, that solitary practices of fatal to the healthful existence of man, and it is the young who are most apt to become its victims from an ignorance of the dangers to which they subject themselves. Parents and Guardians are ulten misled with respect to the cause or source of disease in their sons and wards. Alas I how often do they ascribe to other causes, the wasting of the frame, Palpitation of the Heart, Dyspepsis, indigestion, derangement of the Nervous System, Cough, and Symptons of Consumption, also, those serious Mental effects, such as loss of memory, depression of spirits or peculiar fits of Meiancholy, when the truth is they have been caused by indulging in pernicious but alluring practices, destructive to both Body and Mind. Thus are swept from existence thousands who might have been of use to their country, a pleasure to their friends and ornaments to Society.

When the misguided and imprudent vetary of pleasure finds he has imbited the soods of this painful disease, it too often happens that an ill-timed sense of shame, or dread of discovery, deters him from applying to those who from education and respectability, can alone befriend him, delaying till the constitutional symptoms of this horrid disease make their appearance, such as ulcerated sore throat, diseased nose, nocturnal pains, in the head and limbs, dimness of sight, deafness, nodes on the shin bones, and arms, blotches on the head, face, and extremities, progressing with frigiful rapidity, till at last the palat of the mouth or the bones of the nose fall in, and the victim of this awful disease becomes a horrid object of commisseration, till death puts a period to his dreadful sufferings by sending them to "that bourn from whence no traveler returns." To such therefore Dr. Johnston pledges himself to preserve the most inviolable accreey, and from his extensive practice in the first hospitals in Europe and America, he can confidently recommend a safe and speedy cure to the unfortunate victim of this horrid disease.

O. BRADLEY, DRUGGIST AND APOTHECARY, PEPPECTFULLY CALLS THE ATTENTION OF THE Medical men of North Carolina, to the following catalogue of "Surgical and Mechanical Instruments." The instruments sold by the undersigned, are manufactured by F. Liese, Y. W. Brinkerhoff and Marsh & Co., N. Y., and it is believed that in many respects they are surgice. to an untimely grave, or else make the residue of his life mierable.

Take Particular Notice.

Dr. J. addresses all those who have injured themselves by private and improper indulgencies.

These are some of the sad and melancholy effects produced by early habits of youth, vis: Weakness of the Back and Limbs, Pais in the Head, Dimness of Sight, Loss of Muscular Power, Palpitation of the Heart, Dispepsia, Nervous Irritability, Derangement of the Digestive Functions, General Debility, symptoms of Consumption, &c.

Young Men.

Who have injured themselvas by a Certain Practice indulged in when alone—a habit frequently learned from evil companions, or at school—the effects of which are nightly felt, even when asleep, and if not cured, renders marriage impossible, and destroys both mind and body, should apply immediately.

What a pity that a young man, the hope of his country, and the darling of his parents, should be snatched from all prospects and enjoyments of life, by the consequences of diviating from the path of nature, and indulging in a certain secret habit. Such persons before contemplating

Marriage
should reflect that a sound mind and body are the most necessary requisities to promote consulal happiness. Indeed, without these, the journey through life becomes a weary pilgrimage, the prospect hourly darkens to the view; the mind becomes shadowed with despair and filled with the melancholy reflection, that the happiness of another becomes blighted with our own.
