BALTIMORE LOCK HOSPITAL.

Certain Speedy, and only effectual remedy, in the world for Gleets, Strictures, Semmal weakness, Palms in the Loins, Constitutional Debility, Impotency, Weakness of the Back and Limbs, Affections of the Kidneys, Palpitations of the Reart. Dyspepsia, Nervous Irritability, Disease of the Head, Throat, Nose or Skin; and all those serious and melancholy Disorders arising from all those Destructive habits of Youth which destroy both body and mind. These secant and solitary practices more fatal to their victims than the song of the Syreus to the Mariners Ulysses, hlighting their most brilliant hopes of anticipations, rendering marriage, &c., impossible. Young Mess especially, who have become the victims of Solitary Vice, that dreadful and destructive habit, which annually sweeps to an untimely grave thousands of young men of the most exalted talents and brilliant intellect, who might otherwise have entranced listening Senates with the thunders of eloquence, or waked to ecstacy the living lyre, may call with all confidence.

He who places himself under the care of Dr. Johnsen may religiously confide in his honor as a gentleman, and confidently cured, and full vigor restored.

This disease is the penalty most frequently paid by those who have become the victuus of improper indulgences.—Young persons are too apt to commit excesses from not being aware of the dreadful consequences that may ensue. Now, who that understands the subject will pretend to deny that the power of Procreation is lost sooner by those falling into improper habits than by the prodent. Besides being deprived the pleasure of healthy offspring, the most serious and destructive symptoms to both hody and mind arise. The system becomes deranged, the physical and mental powers weakened, nervous debility, dispepsia, palpitation of the heart, indigestion, a wasting of the frame, cough, symptoms of consumption, etc.

Newanness of the system, Neyvous Debility and premature decay generally arise from the Destructive habit of youth that solitary practices of state to the healthful existence of man, and it is the young who are most apt to become its victims, from an ignorance of the dangers to which they subject themselves. Parents and Guardians are often in the country of the results of the resul

ments to society.

DR. JOHNSON,

Member of the Royal College of Surgeons, London, Graduate from one of the most eminest Colleges of the United States, and the greater part of whose life has been spont in the first Hospitals of London, Paris, Philadelphia, and elsewhere, has effected some of the most astonishing cures that were ever known, many troubled with ringing in the head and ears when asleep, great norvousness, being alarmed at andden sounds, and bashfulness, with frequent blushing, at-tended sometimes with derangement of mind, were cured

immediately.

A Certain Disease.

When the misguided and imprudent votary of pleasure finds he has imbibed the seeds of this painful disease, it too often happens that an ill-timed sense of shame, or dread of discovery, deters him from applying to those who, from education and respectability, can alone befriend him, delaying till the constitutional symptoms of this herrid disease make their appearance, such as alcerated sore throat, disease mose, nocturnal pains, in the head and limbs, dimness of sight, deafness, nodes on the shin bones and arms, blotches on the head, face and extremities, progressing with frightful rapidity, till as last the palate of the mouth or the bones of the nose fall in, and the victim of this awful disease becomes a horrid object of commisseration, till death puts a period to his dreadful sufferings by sending him to "that bourne from whome no traveler returns." To such, therefore, Dr. Johnson pledges himself to preserve the most infore, Dr. Johnson pledges himself to preserve the most in-violable secresy, and from his extensive practice in the first hospitals in Europe and America, he can confidently recom-

mend a safe and speedy cure to the unfortunate victim of this horrid disease.

It is a melaneboly fact, that thousands fall victims to this dreadful disease, owing to the unskillfulness of ignorant pre-tenders, who, by the use of that dreadful poison, mercury, ruin the constitution, and even send the unfortunate suffer-

Dr. J. addresses all those who have injured themselves by private and improper indulgences.

These are some of the sad and melancholy effects produced by early habits of youth, viz: Weakness of the Back and Limbs, Pain in the Head, Dimbess of Sight, Loss of Muscular Power, Palpitation of the Heart, Dyspepsia, Nervous Irritability, Derangement of the Digestive Functions, General Debility, Symptoms of Consumption, &c.

MENTALLY—The fearful effects upon the mind are much to be dreaded: Loss of Memory, Confusion of Ideas, Depression of Spirits, Evil Forebodings, Aversion of Society, Self Distruct, Love of Solitude, Timidity, &c., are some of the evils produced.

evils produced.

Thousands of persons, of all ages, can now judge what is the cause of their declining health. Losing their vigor, he coming weak, pale and emaciated, have a singular appearance about the eyes, cough and symptoms of consumption.

Dr. Johnson's Invigorating R. medy for Organic Weakness.

By this great and important remedy, weakness of the organs are speedily cured, and full vigor restored. Thousands of the most nervous and debilitated, who had lost all hope, have been relieved. All impediments to Marriage, Physical or Mental Disqualification, Nervous Irritability, Fremblings and Weakness, or exhaustion of the most fearful kind, speedily cured by Dr. Johnson.

Young Men,

Who have injured themselves by a certain practice, indulged in when alone—a habit frequently learned from evil companions, or at school—the effects of which are nightly feit, even when asleep, and if not cured, renders marriage feit, even when asleep, and if not cured, renders marriag impossible, and destroys both mind and body, should apply

impossible, and destroys both mind and body, should apply immediately.

What a pity that a young man, the hope of his country, and the darling of his parents, should be snatched from all prospects and enjoyments of life, by the consequences of deviating from the path of nature, and indulging in a certain secret habit. Such persons, before contemplating

should reflect that a sound mind and body are the most necessary requisities to promote commissal happiness. Indeed, without these, the journey through life becomes a weary pilgrimage, the prospect hourly darkens to the view; the mind becomes shadowed with despair and filled with the melancholy reflection, that the happiness of another, becomes blighted with our own.
