This disease is the penalty most frequently paid by those who have become the victims of improper indulgences. who have become the victims of improper indulgences. Young persons are too ant to commit excesses from not being aware of the dreadful consequences that may ensue.

Now, who that understands the subject will pretend to dony that the power of Procreation is less sooner by those failing into improper habits than by the predent. Besides being deprived the pleasure of healthy offspring, the most serious and destructive symptoms to both body and mind arise.—

symptoms of consumption, etc.

Nervous Debility.

Weakness of the system, Nervous Debility and premature decay generally arise from the Destructive habit of youth, that solitary practice so fatal to the healthful existence of man, and it is the young who are most apt to become its victius, from an ignorance of the dangers to which they subject themselves. Parents and Grardians are often misled with respect to the cause or source of disease in their subject themselves. Parents and Generalians are often mis-led with respect to the cause or source of disease in their soms and wards. Alas! how often do they ascribe to other causes the wasting of the frame, Palpitation of the Heart, Dyspepsia, Indigention, derangement of the Nervous Sys-tem, Cough, and Symptoms of Consumption, also, those se-rious mental effects, such as loss of memory, depression of spirits, or peculiar fits of melaneholy, when the the truth is, they have been caused by indulging in pernicious but aliar-ing practices, destructive to both Body and Mind. Thus are swept from existence thousands who might have been of use to their country, a pleasure to their friends and orna-ments to society. ments to society.

The All cash light were ever known, many troubled with ringing in the head and ears when saleep, great nervousness, being alarmed at sudden sounds, and bashfulness, with frequent blushing, at-tended sometimes with derangement of mind, were cured

A Cortain Disease.

When the misgnided and impredent votary of pleasure finds he has imbibed the seeds of this painful disease, it too often happens that an fil-timed sense of shame, or dread of discovery, deters him from applying to those who, from education and respectability, can alone befriend him, delaying till the constitutional symptoms of this horrid disease make their appearance, such as ulcerated sore in fat, diseased their appearance, such as ulcerated sore in the disease of the second particular diseases of the second particular diseases. their appearance, such as alcerated sore in at, diseased nose, nocturnal pains, in the head and limbs, dimness of sight, deafness, nodes on the shin bones and arms, blotches on the head, face and extremities, progressing with frightful rapidity, till as last the palate of the month or the bones of the nose fall in, and the victim of this awill disease becomes a horrid object of commissersivion, till death puts a period to his dreadful sufferings by sending him to withat bourne from whence no traveler returns." What a pity that a young man, the hope of his country, and the darting of his parents, should he anatched from all prospects and enjoyments of life, by the consequences of deviating from the path of nature, and indulging in a certain secret habit. Such persons, before contemplating

should reflect that a sound mind and body are the most necessary requisities to promote commist happiness. Indeed, without these, the journey through life becomes a weary pfligrimage, the prospect hourly darkens to the view; the mind becomes shadowed with despair and filled with the melancholy reflection, that the happiness of another, becomes blighted with our own.
