BALTIMORE LOCK HOSPITAL DOCTOR JOHNSON.

THE funder of this Celebrated Institution offers the most Certain Speedy, and only effectual remody, in the world for Gloric Strictures, Seminal weakness, Pains in the Loin, Constitutional Bobility, Impotency, Weakness of the Bankmul Limbs, Affections of the Kidneys, Palpinations of the Head, Thront, Note or Skin; and all those serious and melancholy Disease are under tront all those persons and melancholy Disease in the Read, Disorders arising from all those Destructive habits of Youth Which destroy both body and mind. Trusse sacrase and solicary practices more fatal to their victims than the song of the Syrena IV the Mariners Ulysses, blighting their most brilliant hopes of anticipations, rendering marriage, &c., impossible.

Young Men.

Marriage.

Marriage.

Marriage Persons, or, Young Men contemplating marriage, being aware of Physical Weakness, Organic Debility, Deformities, &c., should immediately consult Dr. J., and he restored to perfect health. He who places himself under the care of Dr. Johnson may religiously confide in his honor as a gentleman, and confideatly rely upon his skill as a physcian.

Organic Weakness immediately cured, and full vigor restored.

This disease is the penalty most frequently paid by those who have become the victims of improper indulgences.

Young persons are too apt to commit excesses from not being aware of the dreadful consequences that may enanc.

Now, who that understands the subject will pretend to deny
that the power of Procreation is lost somer by those falling that the power of Proceedion is lost sooner by mose raining into improper habits than by the prudent. Besides being deprived the pleasure of healthy offspring, the most serious and destructive symptoms to both body and mind arise.—The system becomes deranged, the physical and mental powers weakened, nervous debility, dispepsia, palpitation of the heart, indigestion, a wasting of the frame, cough,

symptoms of consumption, etc.

Nervous Debillity. Weakness of the system, Nervous Debility and premature decay generally arise from the Destructive habit of youth, that solitary practice so fatal to the healthful existence of man, and it is the young who are most upt to become its victims, from an ignorance of the dangers to which they subject themselves. Parents and Guardians are often misled with respect to the cause or source of disease in their sons and wards. Alas! how often do they ascribe to other causes the wasting of the frame, Palpitation of the Heart, Dyspepsia, Indigestion, derangement of the Nervous Sys-tem, Cough, and Symptoms of Consumption, also, those serious mental effects, such as loss of memory, depression of spirits, or peculiar fits of metancholy, when the the truth is, they have been caused by indulging in pernicious but allur-ing practices, destructive to both Body and Mind. Thus are swept from existence thousands who might have been of use to their country, a pleasure to their friends and ornaments to society. OFFICE No. 7 South PREBRICK St.,

Member of the Royal College of Surgeons, London, Graduate from one of the most eminent Colleges of the United States, and the greater part of whose life has been spent in the first Hospitals of London, Paris, Philadelphia, and elsewhere, has effected some of the most astonishing cures that were ever known, many troubled with ringing in the head and ears when askeep, great nervousness, being alarmed at sudden sounds, and bushfulness, with frequent blushing, at tended sometimes with derangement of mind, were cured

When the misguided and imprudent votary of pleasure finds he has imbibed the seeds of this painful disease, it too often happens that an ill-timed sense of shame, or dread of discovery, deters him from applying to those who, from education and respectability, can alone befriend him, delaying till the constitutional symptoms of this horrid disease make their appearance, such as ulcerated sore throat, diseased nose, nocturnal pains, in the head and limbs, dimness of sight, deafness, nodes on the shin bones and arms, blotches on the head, face and extremities, progressing with fright ful rapidity, till as last the palate of the mouth or the bones of the nose fall in, and the victim of this swill disease becomes a herrid object of commisseration, till death puts a A Certain Disease. comes a horrid object of commoseration, tile death puts a period to his dreadful sufferings by sending him to "that bourne from whence no traveler returns." To such, there fore, Dr. Johnson pledges himself to preserve the most in-violable secresy, and from his extensive practice in the first hospitals in Europe and America, he can confidently recom mend a sale and speedy cure to the unfortunate victim of

It is a melancholy fact, that thousands fall victims to this dreadful disease, owing to the unskillulness of ighorant pre-tenders, who, by the use of that dreadful poison, mercury, ruin the constitution, and even send the unfortunate sufferer to an untimely grave, or else make the residue of his life

Take Particular Notice. Dr. J. addresses all those who have injured themselves by

private and improper indulgences.
