to an autimely grave thousands of young men of the most exalted talents and brilliant intellect, who might otherwise have entranced listening Senates with the thunders of sloquence, or waked to ecstacy the living lyre, may call with all confidence.

Organic Weakhess
iminediately cared, and full vigor restored.

This disease is the penalty most frequently paid by those who have become the victims of improper indulgences.

Young persons are too api to commit expesses from not being aware of the dreadful consequences that may crosse.

New, who that understands the subject will pretend to deny that the newer of Progression is lest course by these fallows. that the power of Procreation is lost sooner by thuse falling that the power of Proceedings is lost compared to improper habits than by the prodent. Besides being deprived the pleasure of healthy offspring, the most serious and destructive symptoms to both body and mind arise. The system becomes deranged, the physical and mental powers weakened, nervous debility, dispepsia, pulpitation of the heart, indigestion, a wasting of the frame, cough, symptoms of consumption, etc. Negvous Debility.

Weakness of the system, Nervous Debility and premature decay generally arise from the Destructive habit of youth, that solitary practice so fatal to the healthful existence of man, and it is the young who are most apt to become its victims, from an ignorance of the dangers to which they subject themselves. Parents and Guardians are often mis-led with respect to the cause or source of disease in their sons and wards. Alas! how often do they ascribe to other causes the wasting of the frame, Palpitation of the Heart, Dyspepsia, Indigestion, derangement of the Nervous Sys-tem, Cough, and Symptoms of Consumption, also, those se-rious mental effects, such as loss of memory, depression of spirits, or peculiar fits of melancholy, when the the truth is, they have been caused by indulging in peruicious but allur-ing practices, destructive to both Body and Mind. Thus are swept from existence thousands who might have been of use to their country, a pleasure to their friends and erns ments to society.

DR. JOHNSON, Member of the Royal College of Surgeons, London, Gradu ate from one of the most eminent Colleges of the United States, and the greater part of whose life has been spent in the first Hospitals of London, Paris, Philadelphia, and elsewhere, has effected some of the most astonishing cures that were ever known, many troubled with ringing in the head and cars when askep, great nervousness, being alarmed at audden sounds, and bashfulness, with frequent blushing, attended sometimes with derangement of mind, were cured

immediately. When the misguided and impredent votary of pleasure finds he has imbibed the seeds of this painful disease, it too often happens that an ill-timed sense of shame, or dread of discovery, deters him from applying to those who, from ed-ucation and respectability, one alone befriend him, delaying till the constitutional symptoms of this horrid disease make their appearance, such as ulcerated sore throat, diseased nose, nocturnal pains, in the head and limbs. dimness of nose, nocturnal pams, in the head and limits. dimess of sight, deafness, nodes on the shin bones and arms, blotches on the head, face and extremities, progressing with frightful rapidity, till as last the palate of the mouth or the bones of the nose fall in, and the victim of this awful disease becomes a horrid object of commisseration, till deaft puts a period to his dreadful sufferings by sending him to "that bourne from whence no traveler returns." To such, therefore, Dr. Johnson pledges himself to preserve the most in fore, Dr. Johnson piedges himself to preserve the most in-violable secresy, and from his extensive practice in the first hospitals in Europe and America, he can confidently recommend a safe and speedy cure to the unfortunate victim of

It is a melancholy fact, that thousands fall victims to this dreadful disease, owing to the unskillfulness of ignorant protenders, who, by the use of that dreadful poison, mercury, ruin the constitution, and even send the unfortunate sufferer to an untimely grave, or else make the residue of his life

what a pity that a young man, the hope of his country, and the duriting of his parents, should be matched from all prospects and enjoyments of life, by the consequences of deviating from the path of nature, and indulging in a certain secret habit. Such persons, before contemplating Marriage should reflect that a sound mind and body are the most necessary requisities to promote committal happiness. Indeed, without these, the journey through life becomes a weary pilgrimage, the prospect hourly darkens to the view; the mind becomes shadowed with despair and filled with the melancholy reflection, that the happiness of another, becomes blighted with our own.
