BALTIMORE LOCK ROSPITAL.

DOCTOR JOHNSON.

THE founder of this Celebraled Institution offers the next Certain Speedy, and only effectual remedy, in the world for Gleets. Strictures, Seminal weakness, Pains in the Loins, Constitutional Debility. Impotency, Weakness of the Back and Limbs, Affections of the Kidneys, Palpitations of the Heart. Dyspepsia, Nervous Irritability, Disease of the Heard, Turost, Ness or Skin; and all those perfous and melanchely Disorders arising from all those Destrective habits of Youth which destroy both body and mind. These severar and solitary practices more fatal to their victims than the song of the Syreus to the Marinars Ulysses, bilgating their most brilliant hopes of anticipations, rendering marriage, Av., impossible. Young Hen especially, who have become the victims of Solitary Vice, that dreafful and destructive habit, which annually sweeps to an untimely grave thousands of young men of the most exalted talents and brilliant intellect, who might otherwise have entranced listening Senates with the thunders of eloquence, or waked to ecstacy the living live, may call with all confidence.

dentity rely upon his skill as a physician.

Organic Weakness
immediately cured, and full vigor restored.

This disease is the penalty most frequently paid by those who have become the victims of improper indulgences.—Young persons are too apt to commit excesses from not being aware of the dreadful consequences that may ensue.—Now, who that understands the subject will pretend to dony that the power of Procreation is lost sooner by those falling into improper habits than by the prudent. Besides being deprived the pleasure of healthy offspring, the most serious and destructive symptoms to both body and mind arise.—The system becomes deranged, the physical and mental powers weakened, nervous debility, d spepsia, palpitation of the heart, indigestion, a wasting of the frame, cough, symptoms of consumption, etc.

Nervous Debility.

Weakness of the system. Nervous Debility and premature

Nervous Debility and premature decay generally arise from the Destructive habit of youth, that solitary practices so fatal to the healthful existence of man, and it is the young who are most apt to become its victims, from an ignorance of the dangers to which they subject themselves. Parents and Guardians are often misled with respect to the cause or source of disease in their sons and wards. Alas! how often do they ascribe to other causes the wasting of the frame, Palpitation of the Heart, Dyspepsia, Indigestion, derangement of the Nervous System, Cough, and Symptoms of Consumption, also, those serious mental effects, such as loss of memory, depression of spirits, or peculiar fits of melancholy, when the the truth is, they have been caused by indulging in pernicious but alluring practices, destructive to both Body and Mind. Thus are swept from existence thousands who might have been of use to their country, a pleasure to their friends and ornaments to society.

DR. JOHNSON,

Member of the Royal College of Surgeons, London, Graduate from one of the most eminent Colleges of the United States, and the greater part of whose life has been spent in the first Hospitals of London, Paris, Philadelphia, and elsewhere, has effected some of the most astonishing cures that were ever known, many troubled with ringing in the head and ears when asleep, great nervousness, being alarmed at sudden sounds, and bashfulness, with frequent blushing, at tended sometimes with derangement of mind, were cured

Immediately.

A Certain Disease.

When the misguided and imprudent votary of pleasure finds he has imbibed the seeds of this painful disease, it too often happens that an ill-timed sense of shame, or dread of discovery, deters him from applying to those who, from education and respectability, can alone befriend him, delaying till the constitutional symptoms of this horrid disease make their appearance, such as ulcerated sore throat, diseased nose, nocturnal pains, in the head and limbs. dimness of sight, deafness, nodes on the shin bones and arms, blotches on the head, face and extremities, progressing with frightful rapidity, till as last the palate of the mouth or the bones of the nose fall in, and the victim of this awful disease becomes a horrid object of commisseration, till death puts a period to his dreadful sufferings by sending him to "that comes a horrid object of commisseration, till leath puts a period to his dreadful sufferings by sending him to "that bourne from whence no traveler returns." To such, therefore, Dr. Johnson pledges himself to preserve the most inviolable secresy, and from his extensive practice in the first hospitals in Europe and America, he can confidently recommend a safe and speedy cure to the unfortunate victim of this herrid disease. this horrid disease

It is a melancholy fact, that thousands fall victims to this dreadful disease, owing to the unskillfulness of ignorant pretenders, who, by the use of that dreadful poison, mercury, ruin the constitution, and even send the unfortunate suffer er to an untimely grave, or else make the residue of his life

By this great and important remedy, weakness of the or-gans are speedily cured, and full vigor restored. Thousands of the most nervous and debilitated, who had lost all hope, have been relieved. All impediments to Marriage, Physical or Mental Disqualification, Nervous Irritability, Tremblings and Weakness, or exhaustion of the most fearful kind, speed-ily cured by Dr. Johnson.

Indeed, without these, the journey through life becomes a weary pigrimage, the prospect hourly darkens to the view; the mind becomes shadowed with despair and filled with the melancholy reflection, that the happiness of another, becomes blighted with our own.

AVE JUST ISSUED the first of a series of volumes HAVE JUST ISSUED the first of a series of volumes, each containing a collection of speeches and writings of such of the public men of the country, as possess sufficient eminence to justify such a publication of their political productions. Postmaster to the House of Representatives of the U. States.

The above work contains 615 pages, prefaced by a Biographical Sketch and Portrait on Steel of the distinguished subject.

The Publishers of this Compilation, with commendable en-erprise, having determined to reproduce in an accessible form, the Speeches and Writings of such of the public men of the country as are of sufficient merit to justify republicaion, present this as the initial volume of the series which they hope in a reasonable time to introduce to the Public. — They have honored the compiler with the position of Editor of this new work. He hopes that the manner in which he has thus far discharged the trust, will justify the public in commending the selection of him for that duty. He congratulates himself that the speeches and writings of Albert G. Brown, should form the beginning of his labor in this connection. Having been a constant observer and admirer of the long and consistent public career of Governor Brown, t afforded him a pleasure to be engaged in bringing before the country a compilat on of his able and instructive politi-cal speeches and writings. The reflection that the subject of a work of this kind possesses true merit, naturally toods to ease the labor of preparing and bringing it forth. The contents of this compilation constitute a monument of the mind of him whose productions it contains. It cannot fail
