dentity rely upon his skill as a physcian. Organic Weakness immediately cured, and full vigor restored. This disease is the penalty most frequently paid by those who have become the victims of improper indugences. Young persons are too apt to commit excesses from not be-ing aware of the dreadful consequences that may ensue... Now, who that understands the subject will pretend to deny that the power of Procreation is lost sconer by those falling into improper habits than by the prudent. Besides being deprived the pleasure of healthy offspring, the most serious and destructive symptoms to both body and mind arise... The system becomes deranged, the physical and mental powers weakened, nervous debility, dispepsia, palpitation of the heart, indigestion, a wasting of the frame, cough, symptoms of consumption, etc... Nervous Debility.

of the heart, indigestion, a wasting of the frame, cough, symptoms of consumption, etc. Nervoas Debility. Weakness of the system, Nervous Debility and premature decay generally arise from the Destructive habit of youth, that solitary practice so fatal to the healthful existence of man, and it is the young who are most apt to become its victims, from an ignorance of the dangers to which they subject themselves. Parents and Guardians are often mis-led with respect to the cause or source of disease in their sons and wards. Alas I how often do they ascribe to other causes the wasting of the frame, Palpitation of the Heart, Dyspepsia, indigestion, derangement of the Nervous Sys-tem, Cough, and Symptoms of Consumption, also, those se-rious mental effects, such as loss of memory, depression of spirits, or pscullar fits of melancholy, when the the truth is, they have been caused by indulging in peraioious but altu-ing practices, destructive to both Body and Mind. Thus are swept from existence thousands who might have been of use to their country, a pleasure to their friends and orms-ments to society.
