Drawie Weakness immediately cured, and full vigor restared. This disease is the penalty most frequently paid by those who have become the victims of improper indulgences, Young persons are too spit to commit excesses from not be-ing aware of the dreadful consequences that may ensue. Now, who that understands the subject will pretend to deny that the power of Procreation is lost sooner by those failing deprived the pleasure of healthy offspring, the most serious and destructive symptoms to both body and mind arise. The system becomes deranged, the physical and mental powers weakeed, nervous debility, dispersia, palpitation of the heart, indigestion, a wasting of the frame, cough, symptoms of consumption, etc. **Berron Debility** and premature decay generally arise from the Destructive habit of youth, that solitary practice so fatal to the healthful existence of man, and it is the young who are most apt to become its vietims, from an ignorance of the daagers to which they subject themselves. Parents and Guardians are often mis-ied with respect to the cause or source of disease in their couses the wasting of the frame, Palpitation of the Heart, physepsia, indigestion, derangement of the Nervous Sys-tem, Cough, and Symptoms of Consumption, also, those se-rious mental effects, such as loss of memory, depression of spirits, or peculiar fits of melanoholy, when the the truth is, they have been caused by indulging in pernicious but allur-ing practices, destructive to both Body and Mind.
