Should reflect that a sound mind and body are the most necessary requisities to promote comubial happiness. Indeed, without these, the journey through life becomes a weary pilgrimage, the prospect hourly darkens to the view; the mind becomes shadowed with despatr and filled with the melancholy reflection, that the happiness of another, becomes blighted with our own.

DOCTOR JOHNSON.

The founder of this Celebrated Institution offers the most Certain Speedy, and only effectual remedy, in the world for tilects, Strictures, Seminal weakness, Palus in the Loins, Constitutional Debility, Impotency, Weakness of the Back and Limbs, Affections of the Kkimeys, Palpitations of the Heart, Dyspepals, Nervous Irritability, Disease of the Head, Throat, Nose or Skin; and all those serious and melancholy Discorders arising from all those Destructive habits of Youth which destroy both body and mind. These secure and collitary practices more fatal to their victims than the song of the Syrets to the Mariners Ulysses, blighting their most brilliant hopes of anticipations, rendering marriage, &c., impossible.

religiously conside in his honor as a gentleman, and confidently rely upon his skill as a physcian.

Organic Weakness
immediately cared, and full vigor restored.

This disease is the penalty most frequently paid by those who have become the victims of improper indulgences.—Young persons are too apt to commit excesses from not being aware of the dreadful consequences that may ensue.—Now, who that understands the subject will pretend to deny that the power of Procreation is lost sooner by those falling into improper habits than by the prudent. Besides being into improper habits than by the prudent. Hesides being deprived the pleasure of healthy offspring, the most serious and destructive symptoms to both body and mind arise. The system becomes deranged, the physical and mental powers weakened, nervous debility, d) spepsia, palpitation of the heart, indigestion, a wasting of the frame, cough, symptoms of consumption, etc.

Weakness of the system, Nervous Debility.

Weakness of the system, Nervous Debility and premature decay generally arise from the Destructive habit of youth, that solitary practice so fatal to the healthful existence of man, and it is the young who are most apt to become its victims, from an ignorance of the dangers to which they subject themselves. Parents and Guardians are often mis-led with respect to the cause or source of disease in their sons and wards. Alas! how often do they ascribe to other causes the wasting of the frame, Palpitation of the Heart, Causes the wasting of the frame, Palpitation of the Heart, Dyspepsia, indignation, dorangement of the Nervous System, Cough, and Symptoms of Consumption, also, those serious mental effects, such as loss of memory, depression of spirits, or peculiar fits of melancholy, when the treth is, they have been caused by indulging in permicious but alluring practices, destructive to both Body and Mind. Thus are swept from existence thousands who might have been of use to their country, a pleasure to their friends and ornaments to society. ments to society.

EMPTY BAGS WANTED.

When the misguided and impredent votary of pleasure finis he has imbited the seeds of this painful disease, it too often happens that an ill-timed sense of shame, or dread of discovery, deters him from applying to those who, from education and respectability, can alone befriend him, delaying till the constitutional symptoms of this horrid disease make their appearance, such as ulcerated sore throat, diseased nose, nocturnal pains, in the head and limbs, dimness of sight, deafness, nodes on the shin bones and arms, blotches on the head, face and extremities, progressing with frightful rapidity, till as last the palate of the mouth or the bones of the nose fall in, and the victim of this awful disease becomes a horrid object of commisseration, till death puts a period to his dreadful sufferings by sending him to "that period to his dreadful sufferings by sending him to "that bourne from whence no traveler returns." To such, there fore, Dr. Johnson pledges himself to preserve the most inviolable secresy, and from his extensive practice in the first hospitals in Europe and America, he can confidently recommend a safe and speedy care to the unfortunate victim of this hearth disease.
