The system becomes deranged, the physical and mental powers weakened, nervous debility. () spepsia, palpitation of the heart, indigestion, a wasting of the frame, cough, symptoms of consumption, etc.
Weakness of the system, Nervous Debility and promature decay generally arise from the Destructive habit of youth, that solitary praotice so fatal to the healthful existence of man, and it is the young who are most apt to become its victims.

that solitary practice so fatal to the healthful existence of man, and it is the young who are most apt to become its victims, from an ignorance of the dangers to which they subject themselves. Parents and Guardians are often mis-led with respect to the cause or source of disease in their sons and wards. Also bow often do they ascribe to other causes the wasting of the frame, Palpitation of the Heart, Dyspepsia, indirection, derangement of the Nervoza Sys-tem, Cough, and Symptoms of Consumption, also, those se-rious mental effects, such as loss of memory, depression of apirits, or psculiar fits of melancholy, when the the truth is, they have been caused by indulging in persistions but altur-ing practices, destructive to both Body and Mind.
