GEORGE KIDD'S COTTON GIN. THE UNDERSIGNED have received the agency for the sale of the above Cotton Gin in the State of North Caro-ima, to which Gin is attached McLendon's late valuable im-provement, and would call the attention of Cotton farmers to the fact that this Gin with the improvements thereto attached, is made to pick one-third more cotton per day, and making a difference of one-half cent per pound more in the staple than the ordinary Gin. It takes the Cotton off of the seed much cleaner than any other Gin in use, and it is believed to be the best improvement that has been made in a great many years.

All persons desirous of purchasing Cotton Gins would do well to apply to the Subscibers, who will take pleasure in giving all the information in their possession relative to the merita of the late improvement.
