GENERAL COMMISSION MERCHANTS, No. 24 North Water Street, Wilmington, N. C.

JAMES McCORMICK.

MERCHANT TAILOR, Market Street, Wilmington, N. C.

CIRCULAR.

To the Executive of Western North Carolina, and adjoining District of South Carolina.

Knowing that many of you have wrong impressions relative to your freedom, I send this Circular that it may correct many erroneous ideas which are operating very much against your interests...

The Government has given you your freedom, and you must not expect anything further from it. The Government expects you to labor and work out your own salvation...

Many of you are under the impression that the Government will not feed any who have had an opportunity and are able to labor. You have had four months of freedom, and all that wished could get work for themselves and families...

Then let me entreat you, as a friend, ere it is too late, to think of these things - to look upon the position as it is, and make the resolve that you will make a good name and a place in this great and free government.

The government has guaranteed to you certain rights and privileges. In those rights you will be protected. Your rights consist in your freedom to make your own contracts, to receive the benefit of your own labor...

Since I have been among you I have discovered that a majority of you look upon your former masters as your enemies, and upon the 'Yankees' as your only friends. In this you are mistaken...

The South is poor natural homes, and Southern men will be your friends. The majority of you were raised, have grown up on the same plantations with your former masters, and I know it to be a fact that there is a feeling, a sympathy, existing between you and the people of the North...

Become respectful, obedient and honest to your employers, and you will find them first in paving the way for your future welfare. To become a prosperous and intelligent people, many of you will have to pursue a far-different course from that of the past four months of your freedom...

Since I came among you I have learned the fact that as a people you have very little regard for the truth. In fact, I have lost all confidence in your veracity, and know not when or whom to believe. I find that you are disposed to utter falsehoods when the truth would answer your purpose far better.

Hereafter these coming to me for the purpose of getting justice in cases between themselves and employers, must come with the truth; if not they must not expect me to assist them in their difficulties. Such, as you tell me are not only impossible...

Pub. Opinion ripens and decays sooner in New York than in any other State in the Union. This is perfectly natural, because New York city is the financial and commercial metropolis of the Union, and the fountain head of all the great political and religious movements which, from time to time, agitate and convulse the country...

It was a contest between Albany and Syracuse which should shout the loudest for Andrew Johnson; but the real, genuine, practical test has length been met and accepted by John Van Buren. He meets it as a democrat; he accepts it as a democrat; he applies it as a democrat in proclaiming Andy Johnson his candidate for the succession.

Having shown his faith to this extent, which is as far as a man could go for general Jackson, John Van Buren challenges the republicans to come up to the mark. He calls upon Thurlow Weed, the faithful Sancho of Mr. Seward, to show his hand...

What answer have Mr. Seward, Weed and Raymond? As for Weed he seems to be entirely lydrift. But what is the answer of the active republican managers of New York in reference to the test of Andrew Johnson for 1868?

In answer to numerous inquiries about the burial of the Union dead at Salisbury, N. C., Brevet Brig. Gen. Heath, commandant at that point, has written that all those who died there were buried in trenches, and it is therefore impossible to distinguish them. There are fourteen trenches, which contain no less than ten thousand dead bodies of Union prisoners.

Public opinion ripens and decays sooner in New York than in any other State in the Union. This is perfectly natural, because New York city is the financial and commercial metropolis of the Union, and the fountain head of all the great political and religious movements which, from time to time, agitate and convulse the country...
