W. H. S. Sweer.

A great many other ordinances, reported by the committee on Divorce were read .-The majority of them were unfavorably reported upon. Some few of them, however, were granted.

Mr. Abbott called up the ordinance autherizing the Western North Carolina railroad Company to increase its capital stock

and for other purposes. He offered as a substitute for the above an ordinance entitled an ordinance for the completion of the Western North Carolina Railroad.

The substitute was read, when Mr. Abbott moved its adoption and called for the yeas and nays. The roll being called, re-

sulted in its passage by a vote of yeas 63, Mr. Heaton, from the committee of 16, to whom was referred an ordinance amending the charter of the city of Wilming-

The question recurred upon the motion to suspend the rules, and the motion was lost, a sufficient number not voting.

Harris, of Wake, (negro.) from the committee appointed to investigate the alleged frauds in the election of Plato Durham, Esq., reported that they had failed to collect sufficient evidence to inculpate Mr. Durham, and asked to be discharged from further

consideration of the matter. Mr. Durham then arose and said I have to say, sir, in reference to this report, that, from the beginning, the whole matter has been a most fraudulent and cowardly attempt to cast reproach upon my character and to prevent an investigation of the alleged fraud in passing certain ordinances which have passed this Conven-tion. Fearing an investigation of the charges contained in the resolutions intro-

duced by myself to investigate these corruptions, these charges of fraud in my election were trumped up by parties inside and outside of this Convention, to intimidate and drive me from that investigation. And, sir, I must be allowed here to say that, in the appointment of the delegates to serve with me on that Committee of investigation, it was the intention of the President to prevent a full and fair investigation, or it was intended as an insult to myself. If the latter, I can only say that I cannot be insulted in any such manner. The relations between one of the members of the Committee (Ashley) and myself were known by the President to be very unpleasant, and he also knew that I had refused, from the commencement of the session, to recognize

The appointment was intended to pre vent investigation and to insult me. But, as stated before, I was not insulted, nor can I be from any such source. It was my intention, at first, to refuse to meet the delegates. Soon afterwards, threats of violence were indicated, if the investigation
