We are now forwarding our subscription ills to the patrons of the JOURNAL, and we pe to receive favorable responses

We have received the first number of The Plow Boy, published under the aus-pices of the Catawba Valley Land Comany, at Charlotte. This Company has a arge amount of real estate which they propose to sell on the distribution plan. We suppose it is the object of the present publication to get the inducements held out by the Company before the public.

The Southwest Looking Up.

The New York Journal of Commerce has advices from the cotton region of the Southwest, which report the bottom lands improving in price, in expectation of the STATE OF FLORIDA. arrival of Chinese labor. A real estate agent in Mississippi writes that the price of plantations along the river has advanced from twenty-five to fifty per cent. within the past few months. Similar information comes from several points in Louisiana. The cotton crop in these two States promises very well, and the planters are intending to invest their surplus in the purchase of more alluvial lands, to be ready for the Chinese immigration which, it is thought, will be under fair headway by the next NEW YORK ASSOCIATED PRESS DISPATCHES FOR THE season. In Louisiana it is proposed to set a large force of Chinese at work, as soon For General Market Reports see Commercial as they can be obtained, upon the rebuilding of the levees-which are now in a sadly dilapidated condition. The levees of Mississippi are fortunately in a much better tent of two hundred and fifteen miles, and but ten more await completion. To do the remaining work it is proposed to raise three hundred thousand dollars by a tax of one cent per pound on the new cotton crop, and also by a small land tax. We are happy to record these evidences of enterprise and renewed hope in the South-

members of the Legislature. Both tickets are Republican, that headed by General Stokes being supported by the ultra-Radicals, and the other, headed by Governor Senter, being supported by the Conservatives and the more liberal portion of the Republican party, among the latter, however, being included many who, like Senator Brownlow, have heretofore been regarded as among the most ultra of the Radicals. The two tickets for State officers are as follows :

Mr. Senter is at present acting Governor as President of the State Senate when Governor Brownlow was elected to the United States Senate. The vote of the State for President was : Grant, 56,757 ; Seymour, 26,311 ; Grant's majority, 30,446.

The Florida Injunction, The Florida papers of late have so teemed with the names and rascalities of Swepson, Littlefield & Co., that we would suppose we had shipped a precious load of secondrels to afflict that little State. (And just here, in view of the villanies attempted to be perpetrated by Littlefield upon the people of Florida, Senator Abbott This remark does not apply to National Bank might well improve one of the frequent tens. opportunities in which he appears before the negroes of New Hanover, to explain his connection with Littlefield in their joint trip to Tallahassee immediately before the latter was detected in his swindling operation).

Any way, Swepson and Littlefield are about to be brought up in their headlong course. Many of our readers will recognize in the name of one of the complainants in the following writ of injunction, Col. Jos. John WILLIAMS, a native North Carolinian, the step-son of the late Judge his adopted State.

A Smart Child.

A good story comes from Rome. In preparation for the Œoumenical Conneil the Pope ordered from his architect certain embelishments, the plan for which was brought for his inspection by that gentleman's little boy. Charmed by the plan, the Pope opened a drawer full of gold and said to the child, "Take a handful of gold as a reward for the beauty of your father's "Holy Father," replied the child, "take it out for me; your hand is bigger than mine." Pius IX could not help smiling, and obeyed the child.

They operate by their powerful influence on the internal viscera to purify the blood and stimulate it into healthy action—remove the obstructions of the stomach, bowels, liver, and other organs of the body, restoring their irregular action to health, and by correcting, wherever they exist, such derangements as are the first origin of disease.

Minute directions are given in the wrapper on the box, for the following complaints, which these PHBs rapidly cure:—

For Byspepsia or Indigestion, Listlessness, Languor and Loss of Appetite, they should be taken moderately to stimulate the stomach and restore its healthy tone and action.

For Liver Complaint and its various symptoms, Billious Headache, Sick Headache, Jaundice or Green Sickness, Billious Colic and Billious Fevers, they should be indictionally liken for each case, to correct the diseased sections of the store of the store of the diseased sections of the diseased sections of the store of the store of the store of the diseased sections of the store of the st

the system. With such change those complaints disappear.

For Bropsy and Bropsical Swellings they should be taken in large and frequent doses to produce the effect of a drastic purge.

For Suppression a large dose should be taken as it produces the desired effect by sympathy. As a Dianer Pill, take one or two Pills to promote digestion and relieve the stomach.

An occasional dose stimulates the stomach and bowels into healthy action, restores the appetite, and invigorates the system. Hence it is often advantageous where no serious derangement exists. One who feels tolerably well, often finds that a dose of these Pills makes him feel decidedly better, from their cleassing and renovating effect on the digestive apparatus. There are numerous cases where a purgative is required, which we cannot enumerate here, but they suggest themselves to everybody, and where the virtues of this Pill are known, the public no longer doubt what to employ.

Ayer's Cherry Pectoral. For Diseases of the Throat and Lungs. such as Coughs, Colds, Whooping Cough, Bronchiffs, Asthma,

Cough, Bronchitts, Asthmu, and Consumption.

Probably never before in the whole history of medicine, has anything won so widely and so deeply upon the confidence of mankind, as this excellent remedy for pulmonary complaints. Through a long series of years, and among most of the races of men it has risen higher and higher in their estimation, as it has become better known. Its uniform character and power to cure the various affections of the hings and throat, have made it known as a rehable protector against them. While adapted to milder forms of disease and to young children, it is at the same time the most effectual remedy that can be given for incipient consumption, and the dangerous affections of the throat and lungs. As a provision against sudden attacks of Croup, it should be kept on hand in every family, and indeed as all are sometimes subject to colds and coughs, all should be provided with this antidote for them.

Although settled Consumption is thought incurable, still great numbers of cases where the disease seemed settled, have been completely enred, and the patient restored to sound health by the Cherry Pectoral. So complete is its mustery over the disorders of the Lungs and Throat, that the most obstinate of them yield to it. When nothing else could reach them, under the Cherry Pectoral they subside and disappear.

**Hinges and Public Speakers find great protection from it.

**Asthma* is always relieved and often wholly cured by it.

Propachitis is generally cured by taking the Cherry Pectoral in small and frequent doses.

So generally are its virtues known that it is unaccessary to publish the certificates of them here, or do more than assure the public that its qualities are fully maintained.

A CARD.

I DESIRE TO MAKE THE FOLLOWING ANnouncement to the public of New Hanover Counity. Having received many invitations to visit and make political speeches during the present campaign, I take this opportunity to state that my office as Sheriff of the county will not permit me to take an active part in the political excitement of to-day. I desire to discharge my duties fraithfully and impartially, and as there are indications that the present campaign will be one of unusual excitement, therefore I deem it my duty to decline to become a public partizan, that I may at all times be free to discharge my duties fearlesely. While I shall support the regular nomince of the party, Mr. Eagles, and denounce all who may attempt to break up the Republican organization, I am determined to keep my official hands free to arrest all parties who may attempt at any time to disturb the peace and quiet of our county.
