fimith in the Fourth, and Settle in the Fifth, Districts -Disgraceful

(Special to the Journal.)

RALEIGH, May 15. The Radicals of the Fourth Congressional district met in nominating convention at Franklinton to-day. The scene was an unusually disgracefully one. Major Wm. A. Smith, of Johnston, received the nomination on the fourth ballot. The contest lay between Smith and Young, Jones having withdrawn in favor of Smith. The majority for Smith, over Young, was a fraction of one vote. T. M. Argo was nom nated for Elector. The scenes were of the wildest and mest

stormy description. Jones and Young had a fight during the Convention and the greatest excitement was produced. The Convention itself was a perfect Bedlam,

GREENSBORO', May 15. The Radical Congressional Convention for this, the Fifth district, which met here to-day, nominated Thomas Settle, for Congress, by acclamation. S. A. Douglass received the nomination of Presidential Elector, and James C. Boyd and Thes. B. Keogh were chosen as delegates to the nold (colored) and J. Martin as alternates.

The Municipal Muddle.

We suppose that officials never place themselves in a more silly and ridiculeus position than the three negro and two white Aldermen of this city have, in regard to the number of votes which the Mayor, or more properly speaking, "the presiding Alderman" has in their meetings. As neither of the whites, in question, have credit for much parliamentary knowledge, or knowledge of any other kind, indeed, except to deceive ignerant negroes into supporting them for office, we suppose their stupidity is not to be wondered at.

Suppose the Board should decide to give Mayor Wilson two votes, of what effect would it be? The absurd decision would not make it legal. No ele tien made under it would be binding in law. No ordinance passed by the eleventh vote of a Board of ten Aldermen would be binding upon the citizen, and no taxes similarly levied could be collected. Mayor Wilson can have no more power, as a member of the municipal government, than was conferred upon him at the polls by the vote of the citizens. He was elected one Alderman, and not tree.

But we refer here to this matter to correct a misapprehension in which Mr. London, one of the counsel consulted, has fallen into in regard to the practice in the North Carolina Senate. We are especially familiar with its rules, or rather was when it was organized, as is our Board of Aldermen, by the election of one of its members as presiding officer. It was never claimed, nor such power exercised, as the Speaker voting as a Senator and then giving the casting vote in case of a tie. In elections the Speaker's name was first called, and he then gave the only vote to which he was entitled. On the passage of bills his name was never called, and he only voted when his vote was necessary to pass or reject the measure. He had the right to vote upon every measure, but he seldem exercised the right unless his vote became

This idea of the presiding officer having two votes accms to have gained some credence from the fact that when the affirmative vote is but one larger than the negative, the presiding officer can exercise his right to vote, which, if cast is the negative, defeats the proposition under sideration for the want of a majority in its favor, and not that he can vote again, there being a tie.

This matter was expressly decided in the Senate last Winter when Mr. FLEMMING, the Senator from McDowell, who was temporarily in the Chair, after having voted ipon the regular call of his name, and there being a tie, proposed to give the easting vote as presiding officer. An uppeal was taken from his decision, and the appeal was sustained by a large ma-

New things have changed. The time has come when virtue, and not corruption, Curry, of Virginia, or of Rev. Dr. Brantley when intelligence, and not ignorance, are the recommendations to efficial position.

Thank Ged, the people, too, have changed. Good men who were deceived into the support of these corrupt office-seekers, have abandoned a party, the purpose of which seemed to have been to promote scoundrels, and to steal the substance of the State, and bad men, who found out that worth and virtue were the passports to preferment in the Conservative party, have sought shelter in the congental ranks of Radicalism. (We hope the Editor of the News, who voted for Judge Merrimon in 1868, will excuse any personnal application that people might raight make to himself.)

Thank God, there is new a better feeling among the people. We breathe a purer political atmosphere. Reform and Retrenchment are battling at the doors of the White House, and are fercing an entrance. The very citadel of Radicalism is shaking from foundation to turret stone. Its garrison already begin to quake with fear, and many of its most stalwart defenders are deserting. Its entire demolition is only a matter of time. The hand-writing h plainly visible upon its walls.

These are the influences under which Jadge Mannimon and Majer Hugmas be-Philadelphia Convention, with G. M. Ar. gin their campaign. RALEIGH CORRESPONDENCE. RALEIGH, May 13, 1872. I resume a very brief report of Saturday's proceedings of Southern Baptist

Church The afternoon session was specially impertant or interesting. A discussion took place on Dr. Brantley's motion to abolish the Sunday School Beard. No decission

was reached. Gen. Fields, of Virginia, the report of the committee on the Texas letter, propo-

aing blennial sessions of the Convention was taken up. The question recurred on the amendment of Rev. Dr. Jeter, of Virginia, to provide for blennial sessions instead of annual as the report recommends A long debate followed. Finally the re-port of the committee was adopted. The report of Sunday School Board was

again taken up. The report of the committee on the future plans of the Board was read. Messrs. Boylen, Crane, Thiere and Ellyson debated the subject. The pre-vious question was called, when the re-pert of the financial condition of the Board was taken from the table. A report was made nominating a new board. The time of adjournment arrived, when, after prayer, the Conventies adjourned.

The fourth day's proceedings can be reported with only comparative meagerness. The Convention met te-day at 9 a. m. Reigious exercises by Rev. T. Bawsen. Rev. Mr. Dargan submitted the report of the Committee on Domestic Missionary,

setting forth the heavy indebtedness of the Board and asking for prompt relief.

Rev. Dr. Leeman, of Alabama, the Secretary of the Board, made a speech of considerable length, describing the difficulties the Board had to contend with, and pro-

ing the Convention to come to its succor. The report was adepted.

Rev. Dr. Skinner, of Georgia, read the report on Indian Missions. It gives a history of missionary operations among the Cherekee, Seminole and Creek Indians. It recommends the founding of an Orphan's

Home among the Creeks.

Rev. Mr. Burkner made a long and elequent address, in which he stated that the Creek Nation now numbered 13,000 souls, about 1,500 of whom were Baptists. Fully two-thirds of the Semineles were Baptists. He spoke of Indian students at Columbia College, Mo., and at Lexington, Ky., and of the beauty and fertility of the Indian territory. Rev. Mesers. Dawson, Skinner and Wilson spoke. The debate was protracted. The report was adopted by 108

Mr. Ellyson, of Virginia, offered a resolution pledging the hearty support of the Convention to the Sunday School Board. Several speeches were made.

Rev. J. H. Law, of Georgia, Special Agent, made a statement of the difficulties encountered in the prosecution of his work. Tennessee has contributed \$1,650; Kentucky, \$725; Georgia, \$000; Maryland, \$367 25; Alabama, \$235 25; Virginia, \$233 06; Louislana, \$200; South Carolina, \$180; Morth Carolina, \$182; Mississippl, \$180 54; Texas, \$50.

The Convention adjourned to meet at 3 e'clock.

The Convention met at 3 P. M. Prayer by Rev. Dr. Hooper, of North Carolina.

Report of Committee on China Mission was read and adopted.

The report on European Missions was adopted also.

The report to pay the indebtedness of he Sunday School Board resulted in raising rt of the special sommittee upon

The Sunday services were control. Shuting their eyes both to the congregation at the Baptist church was immorning. I thought his sermon greatly below the standard of true greatness. It was quite inferior to the sermon of Rev. Dr. Winkler, of S. C., or of Rev. Dr. of Baltimere. It was ambitions, delama tory and dramatic. The style of Dr. Fuller for the pulpit is not to my taste a pre-possessing one. He is full of action, and his manner is far more appropriate to the stage than to the sacred desk. Other gen-tlemen who preached are reported to have done finely.

The Convention will probably adjourn to-morrow, when I will close my notes of their proceedings, that have been necessa-rily imperiect and hurried.

WASHINGTON, May 15. SENATE .- The conference report on the deficiency appropriation bill was concurred in. The Baltimore and Potomac depot site bill was discussed at length.

House.-A Conference Committee on the Consular and diplomatic bill was ordered. A resolution was introduced that both Houses adjourn from the 20th instant until the last Wednesday in November, but, was subsequently withdrawa, the mover giving notice that he would offer it again to-morrow.

The tariff was next considered. Mr. Dawes withdrew his pending substitute for the second section. The second section now stands as follows: It reduces the existing duties on the following articles 10 per cent,: All manufactures of cotton, all weels, hair of the Alpaca goat and other animals and all manufactures thereof, iron and all manufactures of Iron, all metals not herein otherwise provided for, and all manufactures of metal, except watches, Jewelry and other articles of ornament, all printing paper, all manufactures of India rubber, gutta percha or straw, and olicioths of all descriptions. It is provided that the duty on umbrellas, &c., shall not be less than on goods of the same material and quality as the coverings thereof. All steel and manufactures of steel, wire rope and wire strand made of iron wire or of steel wire, are to pay the same duty

as Iron wire and steel wire. The sonference report on the deficiency bill was submitted. It agreed to the paragraph in regard to cetton claims, which was the chief point of diangreement, and is so modified that the Secretary of the Treasury is authorized and directed to pay to the lawful owners or legal representatives of all the cotton seized after the oth of June, 1905, by the agents of the Government unjawfully and in violation of their instructions, the net proceeds without interest of the sales of such cetton actually paid into the Treasury, the receipt thereof to be in full

The delegation was here to nak in view of this being the great national work, that the President would give it a favorable consideration, The Presilent to response said he had seen a map of the route and it looked to him eminently practical ; he was convinced of its importance, and but for the lateness of the present session, he would make it a subject for a special communication to Congress. He suggested that it would be advisable that the Ir lends of the measure in Congress to obtain the introduction and reference of the bill as preliminary to a subsequent action of the Executive. He did not know if Congress would be disposed to guarantee bonds of the company or would prefer to give direct subsidy in public lands. He regarded the measure step of pational aid.
