# The Daily Journal.

WILMINGTON, N. C. : THURSDAY, OCTOBER 24, 1872.

[SPECIAL TO THE JOURNAL.] The Fair of the Farmers' and Me-

chanics' Agricultural Association-

Becoud Bay. GOLDSBORO', Oct. 23-P. M. On this, the second day of the Farmers' Pair, notwithstanding the inclemency of the weather, the attendance was variously estimated at from 2,500 to 3,000. About 8,000 entries have been made in the diffarent departments, and the exhibition is

in every way a grand success. Hon. A. S. Merrimon delivered the annual address, which was listened to with the greatest attention by the large au-

The programme for to-morrow is very attractive and, the weather permitting, a large attendance is expected.

An Important Railroad Enterprises We publish to day an interesting comnumication on the subject of the improved narrow gauge railroad from Norfolk to Charleston. We are always glad to see new enterprises on foot. It seems that in the rapid growth in population and pro-

ductions of our section there is work for all. Besides, this proposed road will open to the terminal cities and to Wilmington new and fertile districts, now without speedy or certain routes of transportation. We are glad to learn that this enterprise

is in the hands of live and substantial men.

### The New York Herald and Spain An Ugly Quarrol

There is a war cloud looming up above the horizon. Will it burst in fury and vicof space from which it sprang? That is the question. And it is a serious one, when we consider who are the parties thus threatening the peace of mankind. If President Grant abould utter high-

sounding words against any foreign government, it would not occasion the slightest apprehension. Every one would know at once that it did not mean war, but that it was intended simply to help the Radical party to retain power, or to aid some of its seders in some speculation about bonds or stocks. Our benign Federal Government believes in peace, peace at any price, unless it knows that it can put in the field about five times as many men as its adversary. Then our paternal Government rushes out with great parade its "finest army on the planet," and goes valliantly to war. But unless it can fight with these odds in its favor, the brave Yankee nation most assiduously cultivates the arts of peace, regardless of profit or expanse,could kick a fight out of poor, prudent Brother Jonathan. But Mexico had being be cautious. Mexico is respectable neither in men nor munitions of war; and she liesvery handy, and Brother Jonathan has a wonderful skill in the art of "knowing

But it is not in the west that the war cloud is looming up. Spain is the offending power, and Cuba is and is to be the scene of operations. England brought Brother Jonathan to his knees about the Alabama claims in short order, and that, too, after much bluster about bringing the British Lion to the feet of the American Eagle. Spain arrested, tried and imprisoned Dr. Houard, The United States Government demanded his release on the ground that he was an American citizen. Spain insolently refused to do so, and Brother Jonathan was compelled to be satisfied with accepting as been demanded as a right! The great Sherman, whose success in buttle y always in inverse proportion to the force of the enemy in his front, the commanding general of "the finest army on the net." on a late European tour, was obliged to swallow in silence the slights and These things are not pleasant to write looked. about, to read about, or to think about : it is true that they concern us but little, and none of our funeral," but they are hufating to us as American citizens for all

But Spain is now dealing with an anmuch more to be feared than is r Jonathan, as represented by the Federal Government. It is one The Bereld is a live institution. It was the Herald that explored the Land of the Lowreys. It was the Herald that first de of the fell of Magdala. It was the id that first discovered Livingstone. he Hersid people are to be found upon and y and under every flag. From Green-

which a human being may greep or crawl or cling to, mon can be found constant; tolling for the Herald.

These men most be protected or they caused work. These men most work or the Herold causet live. But American, citizens may be outraged and insulted and President Grant and his army of Itadical office-isolders can still peacefully and uninterruptedly live upon the Public Treasury Forego nations know this and govern themselves accordingly !

When Spain arrested Dr. Houard, as he was only an American citizen, it was many, many months ere he was released, and then it was done only in an art of clear ency on the part of Spain! How different was R the other day when one Henderson, a Herold correspondent, was arrested in Cuba by Spanish authority! With lightning speed the news of his arrest was folning speed the news of his arrest was followed by the news of his rejease! Indeed, so great is the fear inspired by the Herald bears from the time the first symptoms or the time the firs that the SPANISH CONSUL GENERAL asked that the outrage be not made known? flietes The Heroid not only refused to grant the request, but laid down the law to Spain in regard to the treatment of the correspondent, in the following terms—terms—that

n which the whole American people have an interest, and he will perform it faithand Mechanics' Agricultural Association fully and fearlessly, for we know our man. His business is legitimate, and his conduct will be honest and straightforward. He must not be molested.

The Herald has published its ultimustum if it shall be accepted we will have peace if not, then let Spain prepare for the dread day when the Herold shall lead its columns

In olden times our people in foreign lands proudly proclaimed themselves American citizens, confident of respect and protection; now it is otherwise. The simple note-book and pencil of a Herald correspondent is far more respected than the masport of Secretary Fish and President Grant, stamped all over with Ameri can Eagles! Long live the Heraid! Poor Grant !

Cape Fear Agricultural Association We are glad to know that the Fairs held and being held in the State, this year, have met with good success. At Raleigh, Henderson and Salisbury, the people have manifested much interest in their industrial and social gatherings Our information is that the Fairs at Charlotte and Goldsboro' now in progress, are meeting with marked

success. This is as it should be. We have noticed that in some respects our Fairs are not what they ought to be, or indeed what they have been in the past. This may be accounted for in some degree by the rapid increase in Fairs, and the continued poverty of the people. A great many of our citizens have as much as they can do to make " buckle and tongue" meet, to raise bread and meat for their families, educate their children, and above all, to pay the terrible taxes which extravagance and corruption have fastened on them-by close and industrious application at home. They cannot afford the expenses incident to the Fairs. They have neither time nor means to lay aside the fruits of their labors for the annual Expositions.

But as long as these Fairs are regarded as in some degree indicating the resources of a section, and abound in social intercourse and recreation, their annual return will always awaken interest and pleasure in the breasts of the people. They will always be well attended and will always attract the offerings of a large number.

While we rejoice in the success of ou neighbor's Fairs, we are yet more interest-We doubt if a respectable foreign power ed in the success of our own. As imperfeet as have been the Fairs of the Cape Pear Agricultural Association, in exhibit tion, in management, in attendance, and in many other escentials of great industrial exhibitions, they have, beyond dispuse been far more successful than those belin a sound condition.

Much of this success has been owing to the liberality of a portion of the citizens of been married only about three or four Wilmington. The Association owes its years. Two years ago she was the happy existence and much of its success to them. Wife of a devoted husband, whose success Their kindness has been perenual. Even now, although preparations are in progress causes which led to this distressing cafor the Fourth Annual Fair, their interest lamity. and liberality has in no wise abated. Large subscriptions have been and are being a favor, contemptuously granted, what had made to enable the officers of the Association to offer superior inducements to ex-

hibliors and visitors. The Premium List has been very gen erally distributed. It is the most liberal Upon this the Boston Post remarks: "Ne ever offered in the State. We hope it will bring out a generous response. The Special Premiums, too, are numerous and ontumely of the Prussian Government! liberal. No department has been over-

Many attractions for the entertainment and amusement of visitors are in course of that we of the South may well say, " it is preparation and will be duly announced. We look for a large turn out of the people, and we do not believe we shall be disap-

The Louisville Commercial sets forth the advantages to be derived to that city from opening a trade with the Attakapas counting to bully President Grant. It is one try, a district comprising some of the richest parishes in Louisiana, entered from the Bed River. A small transportation company has been formed, which proposes to supply Louisville with the products of the Attakapas region. Salt, sulphur, cotton, sugar, molasses and hides are among the productions which can be presented. ductions which can be brought to a Northern market. Fine oysters can be laid down at Louisville for \$10 per thou sand in the shell. Any amount of the sour, preserve orange can be bought at \$2.50 per five thousand, and the freight of one million not exceeding \$100. These oranges make the finest preserves in the world, and the Juice can be extracted for concentrated tors. Pois to the South, all along and carracts for lemonades. St. Louis and Cincinnati are languishing for this trade, which can be secured to Louisville by the BY THERGRAPH.

### THE LATEST NOVELTY IN SUICIDE.

Frightful Tragedy in Tallahasseo-A Lady Saturates Herself with Kereseme Oil and then Sets Fire to it.

One of the most distressing affairs we have ever been called upon to notice took place in Tallahassee a few days ago. Mrs. A. W. Pace, wife of a popular and successful Jacksonville merchant, and daughter of Mr. George Damon, a prominent merchant, in Tallahassee, seemed to be suffering from some mental derangement, and thinking a change of scene and surrondings might cure her incipient malady, her hus-band took her to her parents and friends in Tallahassee on Wednesday last. That night, soon after her arrival at her fesher's house, she called the family around her and prayed and exhorted them to prepare any idea that she was contemplating anything like self-destructly

The next morning early her father went out to procure a bottle of wine for her, and soon after his departure she took a kerosene lamp or can, and saturating berself from head to foot, put a match to it, and until it has footied with the toolhing siege, under any consideration whatever. in a moment was enveloped in the flames Her husband and others, hearfur her at other points in the State. With less shricks, ran to her rescue, and throwing a endowment and with advantages inferior bucket of water over her, end-avor-d to to most, the articles exhibited have been extinguish the flames. This proved unagreater, the premiums awarded have been threw it around her, and finally succeeded more liberal, and the management has in putting out the flames, but not until the been so far successful as to keep its affairs poor victim was burned to such an excent that she died in a few hours, after the

most intense suffering. Mrs. Pace was quite young, and had in business had placed him in comfortable circumstances. We have not learned the

There will be a sweat little sum expended by the Goverment in printing this year. Since Congress adjourned, we are told, the public printing office has turned out 750. 000 octavo, and quarto volumes, varying from 300 pages to 600 pages each. wonder Mr. Clapp officially favors gene-rous political assessments. He can afford it, if his employes cannot."

The revolt at Ferrol is now completely ended. The insurgents, seeing no chance of resistance, took advantage of flight during the dark and stormy night. Some went on board the ship they had seized and sailed for Seijo, while others fied through the town under fire from the Gov. erament troops, and about 100 were cap tured. In the morning the Governmen forces took undisputed possession of the fort, where they found 400 inaurgents and made them all prisoners.
