COUNTY MATTERS.

The great importance of this subject compels us to refer to it again. The people in New Hanover county have just grounds for the complaints now everywhere heard of their high county taxes, and the hardships imposed upon them in being compelled at this busy season to leave their farms and workshops to attend, day after day, as witnesses and parties before the Grand God, you asked me to repeat a state witnesses and parties before the Grand ment which I had made to the Rev. Ecclesinstical Troubles in Tennessec--- An Episcopal Minister Declines to Shake Hands with his Hishop, and is Consured by the

State Convention.

[Abridged from the Memphis Avalanche, 18th.] For several years past a misunder-standing has existed between Right Rev. C. T. Quintard, bishop of the dioeese of Tennessee, and Rev. Dr. Richard Hines, for several years rector of personally aggrieved by the course pursued by the Bishop with reference o him in several mattersecelesiastical; and though the existence of the differences was well known to the Memphis elergy and many of the laity, it was not until yesterday that the trouble got into the columns of the newspapers and became public property.

It appears that on Tuesday the Bishop met Dr. Hines, after the day's session of the State Convention now being held here, and with the view of Bishop Quintard, and it happens that hand. The overture was rejected, as Se West Broadway, N. V., (After May 1st. explained by the following card, entitled "Personal," and printed in yesterday's Appeal : 'Memrus, April 22, 1873.

You have destroyed that confidence, and until you are disposed to restore it, which by the grace shall gladly pay respect to the high and holy office which you hold.

C. P. In conclusion I will say, if this testimonial will be any advantage to you, you are at liberty to use it.

Of the numerous advantages it possesses over other paints I will mention its being mixed and ready for use in quantities to suit purchasers, its quickly drying properties, which saves much time in the excention of work where paint is needed, and its very perceptible tenacity, which imparts beauty and durability to the objects on which it is used. As such I most carneetly recommend it to the merchants and tradisment of our city, believing that it will give them greater satisfaction than they can possibly anticipate.
