In no private dwelling can pai -t possibly be subjected to the v ry severe test it undergoes at this establi hment, where, during our daily cleaning, soap and soda are constantly applied to it, and yet it appears as sound and fresh as when first put n. Of the numerous advantages it peasesses over other paints I will mention its being sixed and ready for use in quantities to suit purchasers, its quickly drying proporties, which saves much time in the execution of work where point is needed, and its very perceptible tenseity, which imparts beauty and durability to the objects on which it is used.
