FIRES IN CANADA.

FORTY HOUSES BURNED IN POTTSVILLE.

TORONTO, June 21-Noon.-Fires are sweeping the woods in the in-terior, causing great damage to the Colonial Railway. The losses by railroad contractors are very heavy.

WASHINGTON, D. C., June 21-Noon, -Michigamme City, Marquette county, on Lake Superior, was yesterday destroyed by fire, which originated from the burning woods around the place, It was an iron mining town and contained some six hundred inhabitants. Among the buildings burned was the mill of Johnson Houghton, which had just been equipped at an expense of \$40,000. At the Spurr mine two barns were burned. None of the log houses were burned. The heat was so intense that it warped the rails of the Margnette, Houton and Ontonogon Railroad in such a manner as to render passage impossible. In certain places the telegraph poles were burned and the wire is now laying down along the

## THE MODES.

MEACHEM'S REPORT OF THE FIGHTING OPERATIONS. HE RECOMMENDS. THAT TRIBAL LAWS HE ABOLISHED.

TO BE MADE FULLY AMENDA-BLE TO THE LAW.

New York, June 21-Noon,-Mecham's report of the Modoe fighting during the war, is that the Modocs killed and wounded about three soldiers for every warrior in their force. at the time, numbering not more than sixty-five and that during the first three day's fight, this band not only held out against eight hunered troops armed with every appliance of modern warfare, but kept a passage open for retreat with the Warm Spring, Indians that the scouts could not close. Mecham's idea of the best policy for the future, is that all tribal lines be ebolished, and that the Indians be made amenable to laws, and be placed on the same footing with other mur-

We take the following from the The President of the Federal Davenport (Iowa) Democrat : May until all the alumni of our old University shall feel its influence and come to the aid of their Alma Mater ? In connection with the party we may

may that at a meeting of the members of the graduating class of the Uni of the State of North versity Carolina, in the year 1831, at the resisary of his silver wedding on the 10th of June, 1873, Mr. James M. Williamson, now of Memphis, Tomessee, was called to the chair, and Rev. Thomas B. Owen, of 'Tarboro', North Carolina,

Mr. Williamson having introduced and explained the object and purpose of this meeting, the following resolutions were introduced:

Resolved, That Mr. James M. Williamson, of Tennessee, James Grant, of Iowa, John DeB, Hooper, Prof. Sylvester Hassell, Mr. W. C. Kerr, Mr. W. S. Battle, Mr. Kemp P. Battle, Gen. Matt. W. Ransom, Mr. Thomas W. McGehee, Mr. James M. More head, Mr. Wm. Graham and R. W Pearson, of North Carolina, be appointed a committee to devise a plan for the restoration of the University

Resolved, That said committee be r quested to call a convention of the alumni of the University of North Carolina, at Raleigh, on some day during the next session of the Legislature, to devise, and submit to the Legislature of North Carolina, a plan to revive the University, and restore it to usefulness among the institutions of learning in the United States. Which resolutions were adopted and

ordered to be printed in the papers of the State of North Carolina.

THE VIENNA EXHIBITION-PRO-PESSOR KERR.

It is generally known that Professor KERR, the energetic State Geologist, will visit Vienna for the purpose of exhibiting North Carolina productions at the World's Pair. He is receiving little or no aid from our citizens in making his collections. He desires me to appeal to the people of this part of the State especially, to assist him to get together whatever is characteristic or unseturing Company, 300 Broadway N. Y. sculiar to our section.

Among other things he desires on Among other things he desires one bundle each of cypress and jumper shingles, and of the wood prepared for HYDE & CO., 125 Seventh Avenue, New York buckets, &c., a piece of the pine tree two or three feet long with the turpentine box, a few pine burrs and a branch of the longest leaves, a few long locks of moss, neatly rolled up, JOHN DUNCAN'S SONS, New York block of rosin, a gallon of turpentine as it comes from the box, a sheaf of rice, a bunch of peanuts on the stem, a peck of best clean rice, and generally whatever is peculiar to this immediate section of the State.

I have some of these articles already promised. Those who will interest themselves to get together such of these things as may be in their power, will please send them to me in this eity, between this and the 25th June. The specimens will be labelled with the name of the owner and locality. All expense to which parties are at wi be refunded.

I hope that many good citizens will respond to this call. JOSEPH A. ENGELHARD.

Wilmington, June 12th, 1873. A Terrible Punishment. Mr. James Greenwood has published frightful account of the silent system which is in operation at the Holloway

Model Prison, in London: It is an offence for a prisoner to speak one word, and he is never addressed except in whispers, so that he may be in prison two years without nearing the natural sound of the human The effect of all this is so terrible on the mind that prisoners will speak out in desperation, at the risk of any punishment, rather than endure that horrible silence.

The prisoners never see another, but remain in perpetual solitude. One poor wretch, driven to desperation by nine months' solitude and silence, recklessly broke out in Mr. Greenwood's pres-

"For God's sake, Governor, put me in another cell. Put me somewhere else, I've counted the bricks, in the cell I am in, till my eyes sche."

The request of the tortured wretch was refused. There is a fine hole in each cell, and as the wardens wear shoes of India rubber soles, the prisoners can never be sure of being alone.

Those condemned to the treadmill

have to ascend 1,200 steps every alternate twenty minutes for six hours. And this in a place so hot and close that prisoners often lose in perspiration three stone in as many months. Every day the prisoners are taken to a chapel so arranged that they can see no one but the chaplain, and him only through an iron grating. And thus is the order of devotion observed. Wardens are constantly on the watch. lest for a slight instant they, through the whole of the service, depart from the rigid rule of "eyes right." They must look steadfastly at the preacher; must raise and lower their prayer-books with the elbows squared, and all at once, like soldiers at drill They may not scrape their feet with-

out afterward having to explain the movement. They scarcely wink an eye or sigh without danger of them, poor wretches! The Countess Antonia Octel, lately came to Brooklyn, New York, and engaged board. She now resides for the season in the Brooklyn jail, and this is

how it came about : The Countess Octel was eminently aristocratic-long pedigree, distinguished ancestors, even to a distant relationship to that eminent Tartar, Genghis Khan. She was in temporary difficulties, howeverfailure of a remittance-awk and; but could her friend, Mr. William Schneider, accommodate her with three hundred and forty dollars, Mr. William Schneider did; but Mr. William Schneider repented, and lodged the spurious and too persuasive Countess Octel in jail for swindling.
